APS ANIMAL SCIENCE/AG EDUCATION

Division Chair
Interim Division Chair - Jennifer McConville, Associate Dean

Faculty
Joanna Hergenreder, Associate Professor
Doug Smith, Ph.d., Associate Professor

Mission
The APS Animal Science/Ag Ed division is dedicated to the development of innovative individuals for the equine and livestock industry.

The APS Animal Science/Ag Ed major prepares students for lifelong careers in agriculture and its allied industries. Graduates of this major gain technical knowledge necessary for success in agriculture and obtain the necessary skills for lifelong learning and community leadership.

Associate of Applied Science Options
- Dairy Production
- Equine Industry Management
- Feedlot Management
- Livestock Industry Management
- Meat Science
- Poultry Production

Bachelor of Applied Science Degree
A to B Transfer Association of Science degree from Nebraska College of Technical Agriculture and
Bachelor of Applied Science Degree from University of Nebraska-Lincoln (UNL)

Online bachelor’s degree completion option

Associate of Science Options (Transfer)
- Agriculture Education/Extension
- Animal Science
- Grazing Livestock Systems

Minor
- Agriculture Production Systems

Certificate
- Beef Production
- Equine Training Management

Farm/Ranch Ownership Programs

Internship
Students within the APS Animal Science/Ag Ed major complete a 12-week internship working full-time in the agriculture industry. Students are permitted to complete their internship after completing a minimum of 3 eight week instructional periods with a minimum 2.0CGPA.

Ag Production Systems Core Courses
The following courses are required for all Associate of Applied Science degree options of the Ag Production Systems major.

Dairy Production option-Associate of applied science degree
This program provides students with the opportunity to study dairy production in a unique collaborative venture between two top rated academic institutions: the Nebraska College of Technical Agriculture and South Dakota State University. Students spend three semesters studying applied animal science and general agriculture at NCTA, and one intensive semester studying hands-on dairy production at SDSU. Participants will graduate from NCTA with an Associate Degree and a high level of skill and proficiency in dairy production.

**Poultry Production Option- associate of applied science degree**

Students are admitted to the Nebraska College of Technical Agriculture and spend three semesters in Curtis. For one semester, students will attend Mississippi State University for intensive, hands-on commercial poultry production. Graduates receive an Associate of Applied Science degree from NCTA. They may enter the poultry industry immediately, or can transfer to a bachelor's of science in animal science at UNL or a bachelor's of science in poultry science at MSU.

Credit Hours Subtotal: 20
AED 1023 INTERPERSONAL SKILLS FOR LEADERSHIP
Description: Introduction to the principles and practices of positive interpersonal relationships for leadership development. Self-awareness, awareness of others, effective interpersonal communication, and the building of trust relationships as a basis for understanding and developing leadership. An experiential approach, field projects and a supervised service project.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

AED 1101 EARLY FIELD EXPERIENCE
Description: Early Field Experience in AED (I II) Required of all Ag Ed Departmental majors. Observing and/or performance of professional skills in agricultural education, extension education, agribusiness, journalism, and leadership.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: FLD

AED 1103 INTRODUCTION TO SECONDARY AGRISCIENCE EDUCATION
Description: Required of all Ag Ed Departmental majors. Observing and/or performance of professional skills in agricultural education, journalism and leadership focusing on agribusiness, industry training positions, secondary agricultural education instruction, extension education, advertising, public relations, broadcasting, news-editorial and international agricultural education.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

AED 1233 PLANNING, LEADERSHIP AND EXPERENTIAL PROGRAMS
Description: Theory of experiential education to middle school and secondary agricultural education programs, especially leadership and career education. Development of Supervised Ag Experience (SAE), Young Adult/Farmer, FFA and alumni activities, appropriate to the community, school and student needs using electronic technology in learning how to teach Nebraska's agricultural education financial management system. Students will learn the theory of experiential education with examples as development of an (SAE) Supervised Agricultural Experience, alumni activities and other community opportunities.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

AED 2103 YOUTH PROGRAMS
Description: This course is designed to take a deeper look at youth programs across the country such as 4-H, FFA, FCCLA and many others.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

AED 2503 LIVESTOCK PRACTICUM
Description: This course is designed to assist students learn how to care and manage livestock (SAE) Supervised Agriculture Experience projects. The students will have the opportunity to work cattle, sheep, swine and goats from selection to show.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 1001 SUCCESS IN ANIMAL SCIENCE
Description: This course will provide students the opportunity to develop their “intercultural knowledge and competence” and “information literacy” skills and abilities. It will help them as the transition to college and understand the components of being successful not only during this time, but within the industry. They will formulate life and career goals, skills for academic success, skills for life success, and learn more about NCTA. The impact of their success on the industry will also be at the forefront of discussion points within this course.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LEC

ASI 1011 INTRO TO ANIMAL SCI
Description: A course that deals with current issues facing the livestock industry, production trends, terminology, animal growth, structure & selection, breeds, and development.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LEC

ASI 1024 FUND OF ANIMAL BIO
Description: Fundamentals of animal biology as it applies to the science of livestock production. Biological principles governing production and consumption of animal products are emphasized in both lecture and laboratory sessions.
Credit Hours: 4
Max credits per semester: 4
Max credits per degree: 4
Format: LEC

ASI 1031 RODEO SEMINAR
Description: A course for first year students designed to help the student practice all of the men’s and women's National Intercollegiate Rodeo Association (NIRA) events. This course will be taught through actual practice, video review and guest lectures.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 6
Format: LEC
ASI 1201 SHOOTING SPORTS
Description: The purpose of this class is to offer a variety of trap shooting programs, encompassing leisure recreation and competitive shooting, including leagues and/or collegiate competition while providing a social network for knowledge and training in the shooting sports. Students will learn firearm safety. Students will become familiar with different firearms, their purpose and mode of action. This class may provide opportunity to earn Nebraska hunter safety card.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: FLD

ASI 1202 FEEDLOT PRACTICUM I
Description: Feedlot Practicum I will be in coordination with the Feedlot Systems class. Students will assist with the responsibilities of taking care of the NCTA feedlot. Duties will include feeding the cattle, conducting dry matters on feed ingredients, performing feedlot pen maintenance, monitoring animal health, and maintaining the general appearance of the feed yard and working facilities. Students will work 5-10 hours a week depending upon the number of students signed up for the course.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: FLD

ASI 1203 FEEDLOT SYSTEMS
Description: The main emphasis will be to discuss current trends, problems, or issues related to the feedlot industry. Each profit center of a feedlot will be studied through an internship with a local feedlot. The lab portion will include practical application of common health and processing procedures found in the feedlot industry. It will incorporate low-stress cattle handling, as well as safety procedures. (Pre req: ASI 1253 & ASI 1303)
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LLB

ASI 1213 LIVESTK & CARC EVAL
Description: This course is a comprehensive study of the evaluation of livestock, including beef, lamb, pork, and poultry, and their carcasses and products. This will include study of animal growth and development, measures of animal performance, and use of performance records for selection. Measures of carcass traits and monetary value as well as federal and industry product standards will be reviewed. The relationship to production economics will be considered for all selection processes.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 1222 ADV LVSTK EVAL/JUDG
Description: An advanced course in livestock evaluation and judging designed to apply principles learned in ASI 1213. This course will teach and develop written and oral communication skills that enable the student to convey in a brief, concise presentation the results of their decisions. Logical and systematic decision making will be taught. This class will involve extensive field trips to livestock producers and travel to national livestock exhibitions. The livestock judging team will be selected from this class to represent NCTA at intercollegiate competitions. (Pre req: ASI 1213 or instructor permission)
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

ASI 1241 RANCH HORSE I
Description: A course for first-year students designed to help the student and their horse learn and practice the skills necessary to be successful in the Collegiate Division of the American Stock Horse Association (ASHA) which includes four events: Stock Horse Pleasure, Trail, Reining, and Working Cow Horse. NCTA was one of the founding institutions of the ASHA Collegiate Stock Horse Versatility Education Program which organizes many of the competitions for the year. Collegiate ASHA has three different rider skill levels which provide each student the opportunity to compete against others at the same skill level whether you are a beginning rider or an accomplished rider. NCTA has a limited number of school horses available by instructor approval. This course will be taught through actual practice, video review, and guest lecture/clinicians.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LAB

ASI 1253 NUTRITION
Description: A study of water, carbohydrates, fat, protein, vitamins and minerals as they apply to animal utilization. Lab will include problems involving water, protein, and TDN in rations.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 1263 BASIC EQUITATION
Description: (Pre req: ASI 1161 and ASI 1501) This course is a study and application of basic equitation principles for the novice rider. Basic horse handling practices, safety issues, and adapting dressage maneuvers towards Western and English performance is emphasized.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LAB
ASI 1302 FEEDLOT PRACTICUM II  
Description: Feedlot Practicum II will be a course offered during the spring semester so as to keep the feed yard maintained and operating effectively. Students will assist with the responsibilities of taking care of the NCTA feedlot. Duties will include feeding the cattle, conducting dry matters on feed ingredients, performing feedlot pen maintenance, monitoring animal health, and maintaining the general appearance of the feed yard and working facilities. Students will work 5-10 hours a week depending upon the number of students signed up for the course.
Credit Hours: 2  
Max credits per semester: 2  
Max credits per degree: 2  
Format: FLD

ASI 1303 ANIMAL MANAGEMENT  
Description: Animal Management is a course that deals with current issues facing the livestock industry, production trends, terminology, animal growth, structure, selection breeds, and development. Principles of managing animals in typical production systems through their life cycle for economic and efficient production will also be suited.
Credit Hours: 3  
Max credits per semester: 3  
Max credits per degree: 3  
Format: LEC

ASI 1312 LIVESTOCK JUDGING I  
Description: A continuation of ASI 1213. (Pre req: ASI 1213 and ASI 1222)  
Credit Hours: 2  
Max credits per semester: 2  
Max credits per degree: 2  
Format: LEC

ASI 1341 RANCH HORSE II  
Description: A course for second-year students designed to help the student and their horse practice and refine the skills necessary to be successful in the Collegiate Division of the American Stock Horse Association (ASHA) which includes four events: Stock Horse Pleasure, Trail, Reining, and Working Cow Horse. NCTA was one of the founding institutions of the ASHA Collegiate Stock Horse Versatility Education Program which organizes many of the competitions for the year. Collegiate ASHA has three different rider skill levels which provide each student the opportunity to compete against others at the same skill level whether you are a beginning rider or an accomplished rider. NCTA has a limited number of school horses available by instructor approval. This course will be taught through actual practice, video review, and guest lecture/clinicians.
Credit Hours: 1  
Max credits per semester: 1  
Max credits per degree: 1  
Format: LAB

ASI 1351 ART INSEM BEEF CATT'L  
Description: This course trains individuals in the techniques of artificial insemination of cattle.
Credit Hours: 1  
Max credits per semester: 1  
Max credits per degree: 1  
Format: LEC

ASI 1412 MEAT EVALUATION I  
Description: Meats Evaluation I will be an introductory course where students will learn the basics of meats evaluation so as to compete in the collegiate competition starting in January 2019. Students will meet 2-3 times a week in the classroom as well as for field trips to harvest facilities. Meats evaluation, yield and quality grade determination, and the writing of reasons to back up evaluation decisions will all be aspects of this introductory class.
Credit Hours: 2  
Max credits per semester: 2  
Max credits per degree: 2  
Format: LEC

ASI 1432 EQUINE CARE  
Description: A study of the working horse, emphasizing utilization in the feedlot. Health, nutrition, and proper care of equipment will be covered. Animal safety as well as safety of personnel in the feedlot, will be evaluated. Common lameness problems and hoof trimming will be covered.
Credit Hours: 2  
Max credits per semester: 2  
Max credits per degree: 2  
Format: LEC

ASI 1442 EQUINE PRACTICUM I  
Description: This course will introduce first year Equine Industry Management students to hands-on equine activities of care, feeding, grooming, and barn management. Students enrolled in this course will work at the horse barn with the NCTA horses.
Credit Hours: 2  
Max credits per semester: 2  
Max credits per degree: 2  
Format: LEC

ASI 1452 RAISING POULTRY FOR PROFIT: SMALL-SCALE PRODUCTION  
Description: An overview of small-scale poultry production for meat and eggs. Topics include species, breeds, management of young and mature birds, housing, pasturing, feeding, breeding, harvesting, food safety, basic health care, and marketing.
Credit Hours: 2  
Max credits per semester: 2  
Max credits per degree: 2  
Format: LEC

ASI 1491 INDEPENDENT STUDY  
Description: Individual or group projects in research, literature review, or extension of course work under the supervision and evaluation of a Major faculty member who is willing and available to contract with the student.  
(Pre req: Approval of project by Instructor, Division Chair, and Advisor)  
Credit Hours: 1  
Max credits per semester: 1  
Max credits per degree: 1  
Format: IND
ASI 2031 RODEO SEMINAR
Description: A course for second year students designed to help the student practice all of the men's and women's National Intercollegiate Rodeo Association (NIRA) events. This course will involve actual practice and video tape review.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 6
Format: LEC

ASI 2203 FEEDS & FEEDING
Description: The study of feedstuffs, feed processing, and feed additives. Lab will include feed evaluation, moisture determination and conversion, feed tag interpretation, ration evaluation, and balancing. (Pre req: ASI 1253 recommended)
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2262 EQUINE NUTRITION
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

ASI 2303 RANGE MANAGEMENT
Description: A study of pasture and range management as it applies to the production system. This class includes the identification of common range plants, and range sites along with determination of range condition from a plant survey. Balanced forage systems are studied including native range, introduced grass pastures, irrigated grass pastures, and the use of annual grasses and crop residues in livestock forage systems.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2312 LIVESTOCK JUDGING II
Description: A continuation of ASI 1312. (Pre req: ASI 1312)
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

ASI 2313 RATION FORMULATION
Description: A continuation of Feeds and Feeding with an emphasis on ration balancing for specific classes of cattle and swine. Computer ration balancing will be used. (Pre req: ASI 1253, ASI 2203, AIT 1053 or permission)
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2332 LIVESTOCK JUDGING III
Description: A continuation of ASI 2312. (Pre req: ASI 2312)
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

ASI 2353 LIVESTOCK BREEDING
Description: A course in the principles of genetics and hereditary characteristics applied to livestock production, including production records, selection, and design of mating systems.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2362 ADVANCED EQUITATION
Description: This class addresses the study and application of equine and rider maneuvers basic to performance excellence. Students will be expected to show satisfactory progress toward standards of excellence in Western and English disciplines. (Pre req: ASI 1263 or permission, limited enrollment)
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

ASI 2363 INTERMEDIATE TRAINING
Description: Students will acquire skills in intermediate horsemanship (including equitation and training techniques) and green-breaking. Students, with the aid of the instructor, will set and achieve individual objectives.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LLB

ASI 2403 MONITORING TECHNIQUES AND DATA COLLECTION
Description: This course emphasizes the importance of keeping accurate range production records and how to gather, store and utilize data. It also includes an in-depth use of current monitoring techniques used to gather data on rangelands.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2412 EQUINE MARKETING TECHNIQUES
Description: This class is designed to give students the experience of creating a sale from start to finish. It includes working with horses to creating the sale catalog.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LLB

ASI 2433 EQUINE INDUS MNGT I
Description: A study of the light horse production with emphasis on nutrition, reproduction, management, and principle usage of light horses. Courses such as horse production, Equine care, Advertising and Merchandising opens doors to a variety of careers in the horse industry.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ASI 2442 EQUINE PRACTICUM II
Description: This course will introduce second year Equine Industry Management students to hands-on equine activities of care, feeding, grooming, and supervisory barn management. Students enrolled in this course will work at the horse barn with the NCTA horses.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

ASI 2443 EQUINE INDUS MNGT II
Description: This course of study is designed for students who wish to pursue a career in horse production. The curriculum involves both classroom and applied study primarily aimed at the production aspect of the horse industry. At the end of the program students will be tested to demonstrate competencies needed for success in the chosen area of horse production.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2453 SEEDSTOCK PREPARATION AND MARKETING
Description: This course is designed for students to develop the skills of marketing seedstock such as cattle, sheep, and swine. Students will learn various methods of preparing seedstock for live/video auctions. The student will have hands on experience of preparing livestock for sale.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2462 COLT STARTING
Description: This course is an application in basic colt starting principles for the advanced rider. Basic young horse handling practices and safety issues will be studied and applied. (By Permission)
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LAB

ASI 2463 ADVANCED PERFORMANCE TRAINING
Description: Students will acquire skills in the correction of bad habits and advanced training techniques leading toward an area of specialization. Students, with the aid of the instructor, will set and achieve individual objectives.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LLB

ASI 2512 MEATS EVALUATION II
Description: Meats Evaluation II will be a more focused course to prepare students for meat evaluation competition in the Fall of 2019. This is when more difficult meat evaluation contests take place, so students will continue to meet 2-3 times a week in the classroom as well as for field trips to harvest facilities. Meats evaluation, yield and quality grade determination, and the writing of reason to back up evaluation decisions will all be aspects of this class, where material covered will build upon what was taught in Meats Evaluation I.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LLB

ASI 2513 MEAT SCIENCE
Description: This course covers physical and chemical aspects associated with structure and composition of meat. Conversion of muscle to meat and principles relative to fresh and processed meats, storage, microbiology, palatability, and nutritive values will be discussed in depth. Hormonal influence on growth, development, and final product will also be covered. (Pre req: ASI 1303)
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2514 MEAT PROCESSING
Description: Meat processing is designed to show students how to properly process livestock carcasses. Understanding of HAACP, BQA, PQA, and management of the various species will be stressed. This is a career applied course which could lead to working in the processing industry or owning their own business.
Credit Hours: 4
Max credits per semester: 4
Max credits per degree: 4
Format: LEC

ASI 2523 MUSCLE BIOLOGY
Description: This course will provide an advanced education in understanding the muscles and the biology surrounding the muscles of livestock species for the purpose of providing high quality carcasses.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2523 MUSCLE BIOLOGY
Description: A study of the anatomy and physiology of the stallion and mare, the hormones of reproduction, and breeding systems and methods, including artificial insemination. The student will also be introduced to breeding farm management.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC
ASI 2753 BEEF PRODUCTION SYSTEMS
Description: (Recommended pre req: ASI 1253 & ASI 2203) The economics, breeds, selection, nutrition, breeding and management of beef cattle. About 20% of the course will be lab.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LLB

ASI 2773 ADVANCED REPRODUCTIVE PHYSIOLOGY
Description: (Pre req: Anatomy & Physiology w/ 70%; Animal Management; AI of Beef Cattle) The objective of this course is to promote an understanding of reproductive processes in domestic animals. The students will understand the processes of reproduction in the various livestock species.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ASI 2864 NEBR RANCH PRACTICUM
Description: The Nebraska Ranch Practicum is a three-season, hands on educational program designed to give the participants the skill and education needed in today’s complex ranching industry. This unique class consists of eight, day long sessions, from June through January held at the West Central Research and Extension Center in North Platte and the Gudmundsen Sandhills Laboratory near Whitman, Nebraska. Students must register for this class as well as apply and be accepted into the program. This application is available at www.panhandle.unl.edu/ranchpracticum. (Pre req: Advisor permission only)
Credit Hours: 4
Max credits per semester: 4
Max credits per degree: 4
Format: LEC

ASI 2906 INTERNSHIP
Description: The internship provides job experience in your field of study at an approved work location. Official agreements are entered into between the student, employer, and the college. Full-time employment for 2 weeks is equivalent to 1 credit hour. A written journal plus an oral presentation required upon returning from internship. (Pre req: Approval by Division Chair)
Credit Hours: 6
Max credits per semester: 6
Max credits per degree: 6
Format: FLD

ASI 2991 INDEPENDENT STUDY
Description: Individual or group projects in research, literature review or extension of course work under the supervision and evaluation of a Major faculty member who is willing and available to contract with the student. The student will present his/ her independent study proposal to the Major Division Chair and faculty for their approval. (Pre req: Approval of project by Instructor, Division Chair, and Advisor)
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LEC

ASI 2992 INDEPENDENT STUDY
Description: Individual or group projects in research, literature review or extension of course work under the supervision and evaluation of a Major faculty member who is willing and available to contract with the student. The student will present his/ her independent study proposal to the Major Division Chair and faculty for their approval. (Pre req: Approval of project by Instructor, Division Chair, and Advisor)
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

Program Outcomes
1. Students will be able to effectively communicate in oral and written form.
2. Students will be able to gather, assimilate and process information to reach sound logical conclusions.
3. Students will be able to apply economic principles of accounting, marketing and budgeting to agricultural enterprises.
4. Students will be able to exhibit required knowledge and skills consistent with their chosen field of study.
   - Students will be knowledgeable in the areas of modern livestock husbandry and management practices.
6. Learning outcomes specific to transfer options.
   - Students will demonstrate a basic knowledge in the areas of biology, chemistry, mathematics, and oral/written communication along with a basic understanding of agriculture consistent with standards set for baccalaureate degrees.

Equine Industry Management
- Students will be knowledgeable in the areas of modern livestock husbandry and management practices.

Livestock Industry Management
- Students will be knowledgeable in the areas of modern livestock husbandry and management practices.

Associate of Science Degree Transfer
Learning outcomes specific to APS transfer options.
- Students will demonstrate a basic knowledge in the areas of biology, chemistry, mathematics, and oral/written communication along with a basic understanding of agriculture consistent with standards set for baccalaureate degrees.
