The Jeffrey S. Raikes School of Computer Science and Management develops leaders for a technology-driven world. Graduates will be professionals who understand the multiple levels of new information systems, and who become the technology sector’s innovators, product developers, entrepreneurs, chief information officers, and CEOs.

The undergraduate program is designed to give students a strong well-rounded education and to give them not only the ability to create information technology applications and solutions, but also the capacity to understand the implications of information technology for business and society. The program produces graduates with high technical proficiency as well as a strong sense of the business problems and organizational needs that information systems are intended to serve.

Students interested in learning more about the Jeffrey S. Raikes School of Computer Science and Management are encouraged to call the Program at 402-472-6000 or visit the Program website at http://raikes.unl.edu.
