Military Science/Army ROTC

Military Science is a United States Army ROTC program offered at the University of Nebraska–Lincoln through a cooperative effort contractually agreed to by the United States Army and the University.

Objectives

- Prepare, graduate, and commission students with leadership potential to serve as commissioned officers in the United States Army, Army Reserve, and National Guard components
- Develop leadership skills, managerial skills and a basic understanding of associated professional knowledge with a strong sense of personal integrity, honor and individual responsibility

Benefits

- Academic credits earned may apply toward the student’s degree depending on the discipline
- Upon successful completion of the ROTC program and all bachelor degree requirements, students earn a commission as a Second Lieutenant in the United States Army concurrent with an academic degree in a discipline of choice
- Receive leadership training designed to qualify graduates for civilian careers in executive and management positions upon completion of their military commitment
- Uniforms, textbooks, and equipment are provided to the student

Participation in Army ROTC

There are three basic ways to participate in Army ROTC:

1. Participating student:
   - Registers for basic military science classes in sequential order (101 through 202 only), but not the military science lab.
   - Is not allowed to participate in activities outside the classroom (physical training, leadership labs or field training).
   - Receives academic credit only; no credit towards commissioning.

2. Enrolled Cadet:
   - Fully participates in ROTC by taking military science classes and leadership labs.
   - Participates in physical and field training exercises.
   - Wears the Army uniform to all ROTC functions.
   - Must adhere to military customs and standards.
   - Unless contracted, no military obligation is incurred (Basic Course only).

3. Contracted Cadet:
   - Like the enrolled Cadet, fully participates in military science classes, leadership labs, and physical and field training exercises; wears the army uniform to all ROTC functions; and adheres to military customs and standards.
   - Includes progression, lateral entry and scholarship Cadets.

- Is under obligation of future military service to receive benefits from ROTC.
- National and Campus Based ROTC scholarship winners must contract to receive stipend and scholarship benefits.
- Non-scholarship Cadets must contract by the MS III/junior year in order to continue in the program.

Curriculum

Military science is an academic elective program, not an academic major. The overall curriculum is designed and standardized by a national review process controlled by U.S. Army Cadet Command.

Four-year program

The Army ROTC four-year program consists of two parts: Basic Course and Advanced Course.

- Basic Course: One basic level military science course (MLSC 101 Foundations of Officership, MLSC 102 Basic Leadership, MLSC 201 Individual Leadership Studies, and MLSC 202 Leadership and Teamwork) is taken each semester in conjunction with one lab session per week during the freshman and sophomore years. Students may participate in the Army ROTC basic level courses without incurring any military obligation.
- Advanced Course: One advanced level military science course (MLSC 301 Leadership and Problem Solving, MLSC 302 Leadership and Ethics, MLSC 401 Leadership and Management, and MLSC 402 Officership) is taken each semester along with one lab session per week during the junior and senior years. Military science advanced courses may only be taken by students who are contracting to earn a commission and have completed Basic Course (or equivalency).

Two-year program

The Army ROTC two-year program accommodates upper-class students already enrolled at or transferring to the University of Nebraska–Lincoln who have not taken the Basic Course. To participate in this program, the student shall have successfully completed the Leader’s Training Course (LTC), Army Basic Combat Training, or alternate approved training during the summer before entering the Advanced Course.

Commissioning Requirements

Upon graduation with a degree from the University and successful completion of Army ROTC requirements, you will commission into the Army, Army Reserve, or Army National Guard as a Second Lieutenant. The requirements are:

Satisfactory completion of:

- The Basic Course (via enrollment in the program and/or placement credit)
- The Advanced Course
- Leader Development and Assessment Course
- A course in Military History (HIST 303 United States Military History, 1607-1917 or HIST 304 United States Military History Since 1917)

The cadet must:

- Maintain at least a 2.0 cumulative grade point average (GPA).
- Pass a Department of Defense medical examination within 24 months of the date of commissioning.
• Pass the Army Physical Fitness Test within 30 days of the date of commissioning.
• Not have exceeded the 32nd birthday (27th for scholarship students) by December 30 of the year of commissioning.

For information on financial assistance, Army ROTC scholarships, Army ROTC courses and general information about the University of Nebraska–Lincoln Army ROTC program, visit http://www.unl.edu/armyrotc (http://www.unl.edu/armyrotc/).

MLSC 101 Foundations of Officership
Description: Issues and competencies central to a commissioned officer’s responsibilities. Understanding officership, leadership, Army values and life skills, such as physical fitness and time management.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Grading Option: Graded
Offered: FALL
Groups: Basic Military Science

MLSC 101L Leadership Laboratory I
Description: Challenging, rewarding and practical activities in military skill development. Development of confidence and learning the importance of teamwork in goal accomplishment. Rappelling, land navigation and map reading, marksmanship, survival training, personal defense activities, survival swimming, military weapons, military drill, cardiopulmonary resuscitation and first aid.
Credit Hours: 0
Max credits per semester: 1
Max credits per degree: 1
Grading Option: Pass No Pass
Groups: Basic Military Science

MLSC 102 Basic Leadership
Description: Foundations of leadership: problem solving, communications, military briefings, effective writing, goal setting, physical well-being, techniques for improving listening and speaking skills and counseling.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Grading Option: Graded
Groups: Basic Military Science

MLSC 102L Leadership Laboratory II
Description: Challenging, rewarding and practical activities in military skill development. Development of confidence and learning the importance of teamwork in goal accomplishment. Rappelling, and navigation and map reading, marksmanship, survival training, personal defense activities, survival swimming, military weapons, military drill, cardiopulmonary resuscitation and first aid.
Credit Hours: 0
Max credits per semester: 1
Max credits per degree: 1
Grading Option: Pass No Pass
Groups: Basic Military Science

MLSC 201 Individual Leadership Studies
Description: Introduction to replicating successful leadership characteristics through observations during experiential learning exercises. Record characteristics, discuss them in small group settings and use them in subsequent activities. Practice communications skills necessary for leadership roles, especially in military environments.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Grading Option: Graded
Groups: Basic Military Science

MLSC 201L Leadership Laboratory III
Description: Second-year leadership laboratory continues to be the development of confidence, military skills and a sense of teamwork. May be selected to fill leadership positions in the cadet corps. The variety of activities parallel those during the first year of the laboratory.
Credit Hours: 0
Max credits per semester: 1
Max credits per degree: 1
Grading Option: Pass No Pass
Groups: Basic Military Science

MLSC 202 Leadership and Teamwork
Description: Building successful teams, methods to influence group actions, effective communications within groups, creativity in problem solving and how to motivate subordinates and peers. Using these skills in the context of military environments, such as while performing land navigation and infantry tactics.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Grading Option: Graded
Groups: Basic Military Science

MLSC 202L Leadership Laboratory IV
Description: Second-year leadership laboratory continues to be the development of confidence, military skills and a sense of teamwork. May be selected to fill leadership positions in the cadet corps. The variety of activities parallel those during the first year of the laboratory.
Credit Hours: 0
Max credits per semester: 1
Max credits per degree: 1
Grading Option: Pass No Pass
Groups: Basic Military Science

MLSC 301 Leadership and Problem Solving
Prerequisites: Must enroll in both MLSC 301 (lecture) and MLSC 301L (lab)
Description: Conduct self-assessments of leadership style, develop a personal fitness regimen, and plan and conduct individual/small unit tactical training, while testing reasoning and problem solving techniques. Direct feedback on leadership abilities.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Graded
Groups: Advanced Military Science
MLSC 301L Leadership Laboratory V
Description: Placement in leadership positions within the cadet corps organization, providing a greater challenge while building on the confidence and skills developed during the basic course. Concentration on physical conditioning and the furthering of military skill development particularly with respect to small unit tactics and individual military weapons. Practical exercises in preparation for LDAC and the leadership responsibilities of the final year.
Credit Hours: 0
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Pass No Pass
Groups: Advanced Military Science

MLSC 302 Leadership and Ethics
Description: Role of communications, values and ethics in effective leadership. Ethical decision making, consideration of others, spirituality in the military and Army leadership doctrine. Improve oral and written communications abilities.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Graded
Groups: Advanced Military Science

MLSC 302L Leadership Laboratory VI
Description: Placement in leadership positions within the cadet corps organization, providing a greater challenge while building on the confidence and skills developed during the basic course. Concentration on physical conditioning and the furthering of military skill development particularly with respect to small unit tactics and individual military weapons. Practical exercises in preparation for LDAC and the leadership responsibilities of the final year.
Credit Hours: 0
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Pass No Pass
Groups: Advanced Military Science

MLSC 336 ROTC Internship
Prerequisites: Permission of the professor of military science.
Description: Grants academic credit for participation at LDAC, Ft. Lewis, Washington. Practical application of organizational management, teaching techniques, small group discussion, interpersonal communications, and the decision-making process. First aid, survival training, and physical conditioning techniques.
Credit Hours: 2-6
Min credits per semester: 2
Max credits per semester: 6
Max credits per degree: 6
Grading Option: Graded
Groups: Advanced Military Science

MLSC 399 Independent Study
Prerequisites: Permission of the professor of military science.
Description: Opportunity to expand study of the Army beyond the levels presented in programmed courses. Studies may approach military leadership, military history or contemporary issues from a broad perspective or more narrowly defined in-depth analysis.
Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Graded
Groups: Advanced Military Science

MLSC 401 Leadership and Management
Prerequisites: Must enroll in both MLSC 401 (lecture) and MLSC 401L (lab)
Description: Proficiencies in planning and executing complex operations, functioning as a member of a staff and mentoring subordinates. Training management, methods of effective staff collaboration, and developmental counseling techniques.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Graded
Groups: Advanced Military Science

MLSC 401L Leadership Laboratory VII
Description: Leadership workshop providing the opportunity to practice leadership and managerial skills through practical application. Leadership laboratory programs are developed, planned, and conducted by the students registered in these workshops.
Credit Hours: 0
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Pass No Pass
Groups: Advanced Military Science

MLSC 402 Officership
Description: Case study analysis of military law and practical exercises in establishing an ethical command climate. Complete a semester long Senior Leadership Project that requires: plan, organize, collaborate, analyze and demonstrate leadership skills.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Graded
Groups: Advanced Military Science

MLSC 402L Leadership Laboratory VIII
Description: Leadership workshop providing the opportunity to practice leadership and managerial skills through practical application. Leadership laboratory programs are developed, planned, and conducted by the students registered in these workshops.
Credit Hours: 0
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Pass No Pass
Groups: Advanced Military Science
