BIOCHEMISTRY (CASNR)

Description
The Department of Biochemistry offers studies leading to either a bachelor of science (BS) or to a combined bachelors and masters degree (BS and MS) in biochemistry. There are three options available for the undergraduate program: Biochemical Analysis, Cellular Biochemistry, and Computational and Systems Biochemistry. The training offered through these options is suitable for a professional career in biochemistry, which may lead to employment in various industries involved in the manufacture or processing of chemicals, foods, feeds, and pharmaceuticals or federal agencies such as the Food and Drug Administration, U.S. Department of Agriculture, U.S. Public Health Service, and Environmental Protection Agency. All options are suitable as preparation for graduate studies leading to academic careers in biochemistry and professional careers in medicine, dentistry, veterinary medicine, and health-related fields. The Computational and Systems Biochemistry Option aims at preparing students to address questions using quantitative and multidisciplinary approaches in fields such as health, agriculture, and biotechnology. The Department is accredited by the American Society of Biochemistry and Molecular Biology (ASBMB), meaning seniors who sit for the ASBMB certification exam are recognized as earning a certified degree if they receive a qualifying score.

The combined bachelors and masters degree in biochemistry is specially tailored for highly-motivated undergraduate students with superior ability who seek additional training to further their career goals. This research thesis-based program is designed to provide opportunities for students to carry out and interpret contemporary research.

Graduate Work. Advanced degrees of master of science and doctor of philosophy are available. For details, consult the Graduate Studies Catalog (https://catalog.unl.edu/graduate-professional/).

Laboratory Fee and Deposit. Students who enroll in laboratory courses in the Department of Biochemistry may be required to pay a small non-refundable cash fee to defray the cost of materials consumed in the course and a deposit to cover the cost of replacing or repairing equipment the student may damage in the laboratory.

College Requirements

College Admission
Requirements for admission into the College of Agricultural Sciences and Natural Resources (CASNR) are consistent with general University admission requirements (one unit equals one high school year): 4 units of English, 4 units of mathematics, 3 units of natural sciences, 3 units of social sciences, and 2 units of world language. Students must also meet performance requirements: a 3.0 cumulative high school grade point average OR an ACT composite of 20 or higher, writing portion not required OR a score of 1040 or higher on the SAT Critical Reading and Math sections OR rank in the top one-half of graduating class; transfer students must have a 2.0 (on a 4.0 scale) cumulative grade point average and 2.0 on the most recent term of attendance.

Admission Deficiencies/Removal of Deficiencies
Students who are admitted to CASNR with core course deficiencies must remove these deficiencies within the first 30 credit hours at the University of Nebraska–Lincoln, or within the first calendar year at Nebraska, whichever takes longer, excluding foreign languages. Students have up to 60 credit hours to remove world language deficiencies. College-level coursework taken to remove deficiencies may be used to meet degree requirements in CASNR.

Deficiencies in the required entrance subjects can be removed by the completion of specified courses in the University or by correspondence.

The Office of Admissions, Alexander Building (south entrance), City Campus, provides information to new students on how deficiencies can be removed.

College Degree Requirements

Curriculum Requirements
The curriculum requirements of the College consist of three areas: ACE (Achievement-Centered Education), College of Agricultural Sciences and Natural Resources Core, and Degree Program requirements and electives. All three areas of the College Curriculum Requirements are incorporated within the description of the Major/Degree Program sections of the catalog. The individual major/degree program listings of classes ensures that a student will meet the minimum curriculum requirements of the College.

World Languages/Language Requirement
Two units of a world language are required. This requirement is usually met with two years of high school language.

Experiential Learning
All undergraduates in the College of Agricultural Sciences and Natural Resources must take an Experiential Learning (EL) designated course. This may include 0-credit courses designed to document co-curricular activities recognized as Experiential Learning.

Minimum Hours Required for Graduation
The College grants the bachelors degree in programs associated with agricultural sciences, natural resources, and related programs. Students working toward a degree must earn at least 120 semester hours of credit. A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation. Some degree programs have a higher cumulative grade point average required for graduation. Please check the degree program on its graduation cumulative grade point average.

Grade Rules

Removal of C-, D, and F Grades
Only the most recent letter grade received in a given course will be used in computing a student’s cumulative grade point average if the student has completed the course more than once and previously received a grade or grades below C in that course.

The previous grade (or grades) will not be used in the computation of the cumulative grade point average, but it will remain a part of the academic record and will appear on any transcript.

A student can remove from his/her cumulative average a course grade of C-, D+, D-, or F if the student repeats the same course at the University of Nebraska and receives a grade other than P (pass), I (incomplete), N (no pass), W (withdraw), or NR (no report). If a course is no longer being offered, it is not eligible for the revised grade point average computation process.
For complete procedures and regulations, see the Office of the University Registrar website at http://www.unl.edu/regrec/course-repeats (http://www.unl.edu/regrec/course-repeats/).

Pass/No Pass
Students in CASNR may take any course offered on a Pass/No Pass basis within the 24-hour limitation established by the Faculty Senate. However, a department may specify that the Pass/No Pass status of its courses be limited to non-majors or may choose to offer some courses for letter grades only.

GPA Requirements
A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation. Some degree programs have a higher cumulative grade point average required for graduation. Please check the degree program on its graduation cumulative grade point average.

Transfer Credit Rules
To be considered for admission a transfer student, Nebraska resident or nonresident, must have an accumulated average of C (2.0 on a 4.0 scale) and a minimum C average in the last semester of attendance at another college. Transfer students who have completed less than 12 credit hours of college study must submit either ACT or SAT scores.

Ordinarily, credits earned at an accredited college are accepted by the University. The College, however, will evaluate all hours submitted on an application for transfer and reserves the right to accept or reject any of them. Sixty (60) is the maximum number of hours the University will accept on transfer from a two-year college. Ninety (90) is the maximum number of hours the University will accept from a four-year college. Transfer credit in the degree program must be approved by the degree program advisor on a Request for Substitution Form to meet specific course requirements, group requirements, or course level requirements in the major. At least 9 hours in the major field, including the capstone course, must be completed at the University of Nebraska–Lincoln regardless of the number of hours transferred.

The College will accept no more than 10 semester hours of C, D+, D, and D- grades from other schools. The C, D+, D, and D- grades can only be applied to free electives. This policy does not apply to the transfer of grades from UNO or UNK to the University of Nebraska–Lincoln.

Joint Academic Transfer Programs
The College of Agricultural Sciences and Natural Resources has agreements with many institutions to support joint academic programs. The transfer programs include dual degree programs and cooperative degree programs. Dual degree programs offer students the opportunity to receive a degree from a participating institution and also to complete the requirements for a bachelor of science degree in CASNR. Cooperative programs result in a single degree from either the University of Nebraska–Lincoln or the cooperating institution.

Dual Degree Programs
A to B Programs
The A to B Program, a joint academic program offered by the CASNR and participating community colleges, allows students to complete the first two years of a degree program at the participating community college and continue their education and study in a degree program leading toward a bachelor of science degree.

The A to B Program provides a basic knowledge plus specialized coursework. Students transfer into CASNR with junior standing.

Depending on the community college, students enrolled in the A to B Program may complete the requirements for an associate of science degree at the community college, transfer to the University of Nebraska–Lincoln, and work toward a bachelor of science degree.

Participating community colleges include:
- Central Community College
- Metropolitan Community College
- Mid-Plains Community College
- Nebraska College of Technical Agriculture
- Nebraska Indian Community College
- Northeast Community College
- Southeast Community College
- Western Nebraska Community College

3+2 Programs
Two specialized degree programs in animal science and veterinary science are offered jointly with an accredited college or school of veterinary medicine. These two programs permit CASNR animal science or veterinary science students to receive a bachelor of science degree from the University of Nebraska–Lincoln with a degree in animal science or veterinary science after successfully completing two years of the professional curriculum in veterinary medicine at an accredited veterinary school. Students who successfully complete the 3+2 Program, must provide transcripts and complete the Application for Degree form via MyRED. Students without MyRED access may apply for graduation in person at Husker Hub in the Canfield Administration Building, or by mail. Students should discuss these degree programs with their academic advisor.

Cooperative Degree Programs
Academic credit from the University and a cooperating institution are applied towards a four-year degree from either the University of Nebraska–Lincoln (University degree-granting program) or the cooperating institution (non-University degree-granting program). All have approved programs of study.

UNL Degree-Granting Programs
A University of Nebraska–Lincoln degree-granting program is designed to provide students the opportunity to complete a two-year program of study at one of the four-year institutions listed below, transfer to CASNR, and complete the requirements for a bachelor of science degree.

Chadron State College. Chadron State College offers a 2+2 program leading to a grassland ecology and management degree program and a transfer program leading to a bachelor of science in agricultural education in the teaching option.

Wayne State College. Wayne State College offers a 3+1 program leading to a bachelor of science in plant biology in the ecology and management option and a 3+1 program leading to a bachelor of science in Applied Science.

University of Nebraska at Kearney. Transfer programs are available for students pursuing degree programs leading to a bachelor of science degree.
University of Nebraska at Omaha. Transfer programs are available for students pursuing degree programs leading to a bachelor of science degree.

Non University of Nebraska–Lincoln Degree-Granting Programs
CASNR cooperates with other institutions to provide coursework that is applied toward a degree at the cooperating institution. Pre-professional programs offered by CASNR allow students to complete the first two or three years of a degree program at the University prior to transferring and completing a degree at the cooperating institution.

Chadron State College–Range Science. The 3+1 Program in range science allows Chadron State College students to pursue a range science degree through Chadron State College. Students complete three years of coursework at Chadron State College and one year of specialized range science coursework (32 credit hours) at CASNR.

Dordt College (Iowa)—Agricultural Education: Teaching Option. This program allows students to pursue an Agricultural Education Teaching Option degree leading toward a bachelor of science in agricultural education. Students at Dordt College will complete 90 credit hours in the Agricultural Education: Teaching Option Transfer Program.

Residency
Students must complete at least 30 of the total hours for their degree using University of Nebraska–Lincoln credits. At least 18 of the 30 credit hours must be in courses offered through CASNR\(^1\) (299) including the appropriate ACE 10 degree requirement or an approved ACE 10 substitution offered through another Nebraska college and excluding independent study regardless of the number of hours transferred. Credit earned during education abroad may be used toward the residency requirement if students register through the University of Nebraska–Lincoln and participate in prior-approved education abroad programs. The University of Nebraska–Lincoln open enrollment and summer independent study courses count toward residence.

Online and Distance Education
There are many opportunities to earn college credit online through the University of Nebraska–Lincoln. Some of these credits may be applicable not only as elective credits but also toward the fulfillment of the College's education requirements. Credits earned online may count toward residency. However, certain offerings may not be counted toward scholarship requirements or academic recognition criteria.

For further information, contact:
Office of Online and Distance Education
University of Nebraska–Lincoln
305 Brace Labs
Lincoln, NE 68588-0109
402-472-4681
http://online.unl.edu/

Independent Study Rules
Students wishing to take part in independent studies must obtain permission; complete and sign a contract form; and furnish copies of the contract to the instructor, advisor, departmental office, and the Dean’s Office. The contract should be completed before registration. Forms are available in 103 Agricultural Hall or online at the CASNR website.

Independent study projects include research, literature review or extension of coursework under the supervision and evaluation of a departmental faculty member.

Students may only count 12 hours of independent study toward their degrees and no more than 6 hours can be counted during their last 36 hours earned, excluding senior thesis, internships, and courses taught under an independent study number.

Other College Degree Requirements

Capstone Course Requirement
A capstone course is required for each CASNR degree program. A capstone course is defined as a course in which students are required to integrate diverse bodies of knowledge to solve a problem or formulate a policy of societal importance.

ACE Requirements
All students must fulfill the Achievement Centered Education (ACE) requirements. Information about the ACE program may be viewed at ace.unl.edu (https://ace.unl.edu/).

The minimum requirements of CASNR reflect the common core of courses that apply to students pursuing degrees in the college. Students should work with an advisor to satisfy ACE outcomes 1, 2, 3, 4, 6, and 10 with the college requirements.

Catalog Rule
Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted to the University of Nebraska–Lincoln or when they were first admitted to a Joint Academic Transfer Program. Students transferring from a community college, but without admission to a Joint Academic Transfer Program, may be eligible to fulfill the requirements as stated in the catalog for an academic year in which they were enrolled at the community college prior to attending the University of Nebraska-Lincoln. This decision should be made in consultation with academic advisors, provided the student a) was enrolled in a community college during the catalog year they are utilizing, b) maintained continuous enrollment at the previous institution for 1 academic year or more, and c) continued enrollment at the University of Nebraska-Lincoln within 1 calendar year from their last term at the previous institution. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at the University of Nebraska-Lincoln in the College of Agricultural Sciences and Natural Resources. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Learning Outcomes
Graduates of biochemistry in the Biochemical Analysis Option will be able to:

1. Apply the basic principles of the physical and chemical sciences to the study of biological systems to explain how organisms consume and convert energy to enable the processes of life.

2. Attribute the function and regulation of biomolecules to specific macromolecular structures through the use of quantitative and analytical computational techniques.
3. Explain the flow of information through biological systems and predict the impact of environmental or biological variables on system output.

4. Analyze, interpret, critique and communicate data and ideas concerning topics at the forefront of biochemistry.

5. Use quantitative analysis and multifactorial models to analyze and describe biochemical reactions and equilibria.

Graduates of biochemistry in the Cellular Biochemistry Option will be able to:

1. Apply the basic principles of the physical and chemical sciences to the study of biological systems to explain how organisms consume and convert energy to enable the processes of life.

2. Attribute the function and regulation of biomolecules to specific macromolecular structures through the use of quantitative and analytical computational techniques.

3. Explain the flow of information through biological systems and predict the impact of environmental or biological variables on system output.

4. Analyze, interpret, critique and communicate data and ideas concerning topics at the forefront of biochemistry.

5. Use the principles of biochemistry, genetics and molecular biology to analyze and explain perturbations in cellular systems.

Graduates of biochemistry in the Computational and Systems Biochemistry Option will be able to:

1. Apply the basic principles of the physical and chemical sciences to the study of biological systems to explain how organisms consume and convert energy to enable the processes of life.

2. Attribute the function and regulation of biomolecules to specific macromolecular structures through the use of quantitative and analytical computational techniques.

3. Explain the flow of information through biological systems and predict the impact of environmental or biological variables on system output.

4. Analyze, interpret, critique and communicate data and ideas concerning topics at the forefront of biochemistry.

5. Use discipline-specific bioinformatics tools, including computational methods and software, and content knowledge to analyze and interpret biological datasets and relate the results to core principles in biochemistry and biology.

### Major Requirements

#### Biochemistry Core Courses

**Biochemistry Core**

- **BIOC 101**
  - Foundational Concepts & Career Opportunities in Biochemistry
  - 1 Credit Hour

- **BIOC 205**
  - Scientific Analysis and Technical Writing
  - 2 Credit Hours

- **BIOC 431 / BIOS 431 / CHEM 431**
  - Biochemistry I: Structure and Metabolism
  - 3 Credit Hours

- **BIOC 432 / BIOS 432 / CHEM 432**
  - Biochemistry II: Metabolism and Biological Information
  - 3 Credit Hours

- **BIOC 435**
  - Advanced Topics in Biochemistry (ACE 10)
  - 3 Credit Hours

- **BIOC 433 / BIOS 433 / CHEM 433**
  - Biochemistry Laboratory
  - 2 Credit Hours

- **SCIL 101**
  - Science and Decision-Making for a Complex World
  - 3 Credit Hours

#### College Integrative Course and ACE 8

- **ENGL 150**
  - Writing and Inquiry
  - 3 Credit Hours

- **ENGL 151**
  - Writing and Argument
  - 3 Credit Hours

- **ENGL 254**
  - Writing and Communities
  - 3 Credit Hours

- **JGEN 120**
  - Basic Business Communication
  - 3 Credit Hours

- **JGEN 200**
  - Technical Communication I
  - 3 Credit Hours

- **JGEN 300**
  - Technical Communication II
  - 3 Credit Hours

- **JGEN 300**
  - Visual Communication with Animation
  - 3 Credit Hours

- **ALEC 102**
  - Interpersonal Skills for Leadership
  - 3 Credit Hours

- **COMM 101**
  - Communication in the 21st Century
  - 3 Credit Hours

- **COMM 209**
  - Public Speaking
  - 3 Credit Hours

- **COMM 210**
  - Communicating in Small Groups
  - 3 Credit Hours

- **COMM 215**
  - Visual Communication
  - 3 Credit Hours

- **COMM 286**
  - Business and Professional Communication
  - 3 Credit Hours

- **COMM 215**
  - Technical Communication II
  - 3 Credit Hours

- **MRKT 257**
  - Sales Communication
  - 3 Credit Hours

- **NRES 301**
  - Environmental Communication Skills
  - 3 Credit Hours

- **TMFD 121**
  - Visual Communication with Animation
  - 3 Credit Hours

- **ECON 200**
  - Economic Essentials and Issues (ACE 8)
  - 3 Credit Hours

- **MATH 106**
  - Calculus I (ACE 3)
  - 5 Credit Hours

- **MATH 107**
  - Calculus II
  - 4 Credit Hours

- **LIFE 120 & LIFE 120L**
  - Fundamentals of Biology I and Fundamentals of Biology I Laboratory (ACE 4)
  - 4 Credit Hours

- **LIFE 121 & LIFE 121L**
  - Fundamentals of Biology II and Fundamentals of Biology II Laboratory
  - 4 Credit Hours

- **BIOS 206**
  - General Genetics
  - 4 Credit Hours

- **Select one course each from ACE outcomes 5, 6, 7, and 9**
  - 12 Credit Hours

- **Total Credit Hours**
  - 59

Total Credit Hours: 18

Grade Rules

C- and D Grades
A grade of C or above is required for all courses in the major or minor.

Pass/No Pass
Courses taken Pass/No Pass will not count toward the major or minor.

BIOC 95 Biochemistry Internship

Prerequisites: Biochemistry Major; Junior or Senior standing; Permission

Notes: Permission to enroll will be granted upon review of the proposed internship by the supervising UNL faculty.

Description: Provides an opportunity for a practical experience and career exploration/development in a selected business, industry, agency or educational institution. Activities must include a significant biochemistry and/or computational/systems biology component.

Credit Hours: 0

Max credits per semester:

Max credits per degree:

Grading Option: Pass No Pass
BIOC 98 Biochemistry Research Experience
Prerequisites: Permission
Notes: This course may be repeated four times; research students should enroll in BIOC 498 in subsequent semesters. Permission to enroll will be granted upon review of the Request for Research Experience application by supervising UNL faculty.
Description: An introduction to laboratory or field methods in preparation for independent research.
Credit Hours: 0
Max credits per semester: 4
Max credits per degree: 4
Grading Option: Pass No Pass
Experiential Learning: Research

BIOC 101 Foundational Concepts & Career Opportunities in Biochemistry
Notes: Interest in becoming a biochemistry major.
Description: Introduction to the field of biochemistry and exploration of biochemistry related careers.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Grading Option: Graded
Offered: FALL/SPR

BIOC 205 Scientific Analysis and Technical Writing
Prerequisites: Biochemistry major or minor. LIFE 120 and CHEM 109A and 109L or CHEM 113A and 113L
Notes: BIOC 101 and CHEM 110A/CHM 110L suggested to be taken prior to this course or concurrent enrollment.
Description: Data analysis and presentation, hypothesis-driven research execution and various types of scientific writing with detailed examination of high impact biochemistry research literature.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Grading Option: Graded with Option
Offered: FALL/SPR

BIOC 305 Reflective Approach to Graduate/Professional School Application
Prerequisites: Biochemistry major; junior standing or senior standing; BIOC 431. Biochemistry minor, with permission.
Notes: Letter grade only.
Description: Focuses on preparing students for graduate/professional school application through reflective writing and application specific activities.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Grading Option: Graded
Offered: SPRING

BIOC 390 Seminars in the Life Sciences
Prerequisites: BIOC 431 or concurrent
Description: Seminars by UNL faculty, graduate students, and external guests provide a picture of research in biochemistry and the related life sciences
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 3
Grading Option: Pass No Pass
Offered: FALL/SPR

BIOC 401 Elements of Biochemistry
Crosslisted with: BIOC 801
Prerequisites: CHEM 255 (preferred) or CHEM 251; BIOS 101 and BIOS 101L or LIFE 120 and LIFE 120L
Notes: Will not count towards a biochemistry major.
Description: Structure and function of proteins, carbohydrates, lipids and nucleic acids; enzymes; principal metabolic pathways; and biochemical expression of genetic information.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Graded with Option
Prerequisite for: FDST 867; NUTR 450; NUTR 455; VBMS 410

BIOC 401L Laboratory for Elements of Biochemistry
Prerequisites: Parallel BIOC 401
Description: Laboratory exercises and experiments that complement material covered in BIOC 401.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Grading Option: Graded with Option
Offered: FALL/SPR

Course and Laboratory Fee: $35

BIOC 431 Biochemistry I: Structure and Metabolism
Crosslisted with: BIOC 831, BIOS 431, BIOS 831, CHEM 431, CHEM 831
Prerequisites: LIFE 120 with a grade of C or better; CHEM 252 or CHEM 262 with a grade of C or better.
Notes: BIOS 206 or PLAS 215 is recommended. First course of a two-semester, comprehensive biochemistry course sequence.
Description: Structure and function of proteins, nucleic acids, carbohydrates and lipids; nature of enzymes; major metabolic pathways of catabolism; and biochemical energy production.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Graded with Option
Offered: FALL/SPR

Prerequisite for: AGRO 810, BIOC 810, HORT 810; ASCI 820; ASCI 917; ASCI 925, NUTR 925; ASCI 926, NUTR 926; ASCI 927, NUTR 927; BIOC 305; BIOC 390; BIOC 432, BIOC 832, BIOS 432, CHEM 432, CHEM 832, BIOS 832, BIOC 433, BIOS 833, BIOS 833, CHEM 433, CHEM 833; BIOC 440, FDST 470, FDST 870; NUTR 450; NUTR 455; NUTR 820, NUTR 420; NUTR 821; PLAS 434, BIOC 434, BIOS 434, CHEM 434, AGRO 834, BIOC 834, BIOS 834, CHEM 834; VBMS 410; VBMS 805; VBMS 950
Grading Option: Graded with Option
Max credits per degree: 3
Max credits per semester: 3
Credit Hours: 3

Description:
Introduction and development of structural and physical, biochemical, and molecular approaches to systems biology analyses. Molecular and systems thinking, systems biology, and computational methods.

Prerequisites: BIOC 432/832, BIOS 432, CHEM 432, CHEM 832; BIOC 832, BIOS 832, CHEM 832; BIOC 932, BIOS 932, CHEM 932; BIOC 998, BIOS 998, CHEM 998

Offered: FALL/SPR
Crosslisted with: BIOC 837, BIOS 437, BIOS 837; BIOC 898, BIOS 898

ACE: 10
ACE: 9
ACE: 8
ACE: 7
ACE: 6
ACE: 5
ACE: 4
ACE: 3
ACE: 2
ACE: 1
ACE: 0

Prerequisite for: BIOC 442, BIOC 842, STAT 442, STAT 842

Course and Laboratory Fee: $70

Notes:
This course includes a laboratory component.

BIOC 439, BIOC 839, BIOS 439, BIOS 839

BIOC 437, BIOC 837, BIOS 437, BIOS 837

BIOC 438, BIOC 838, BIOS 438, BIOS 838

BIOC 433/833

BIOC 436, BIOC 836, BIOS 436, BIOS 836

BIOC 431/831

BIOC 434/834

BIOC 432/832

BIOC 435/835

BIOC 437/837

BIOC 439/839

BIOC 832, BIOS 432, CHEM 432, CHEM 832, BIOS 832, CHEM 832

BIOC 833, BIOS 433, BIOS 833, CHEM 433, CHEM 833, BIOS 833, CHEM 833

BIOC 834, BIOS 434, CHEM 434, CHEM 834, BIOS 834, CHEM 834

BIOC 835, BIOS 435, BIOS 835, CHEM 435, CHEM 835, BIOS 835, CHEM 835

BIOC 836, BIOS 436, BIOS 836, CHEM 436, CHEM 836, BIOS 836, CHEM 836

BIOC 837, BIOS 437, BIOS 837, CHEM 437, CHEM 837, BIOS 837, CHEM 837

BIOC 838, BIOS 438, BIOS 838, CHEM 438, CHEM 838, BIOS 838, CHEM 838

BIOC 839, BIOS 439, BIOS 839, CHEM 439, CHEM 839, BIOS 839, CHEM 839

BIOC 842, STAT 442, STAT 842

BIOC 831/431, BIOS 431, CHEM 431, CHEM 831, BIOS 831, CHEM 831

BIOC 832/432, BIOS 432, CHEM 432, CHEM 832, BIOS 832, CHEM 832

BIOC 833/433, BIOS 433, CHEM 433, CHEM 833, BIOS 833, CHEM 833

BIOC 834/434, BIOS 434, CHEM 434, CHEM 834, BIOS 834, CHEM 834

BIOC 835/435, BIOS 435, CHEM 435, CHEM 835, BIOS 835, CHEM 835

BIOC 836/436, BIOS 436, CHEM 436, CHEM 836, BIOS 836, CHEM 836

BIOC 837/437, BIOS 437, CHEM 437, CHEM 837, BIOS 837, CHEM 837

BIOC 838/438, BIOS 438, CHEM 438, CHEM 838, BIOS 838, CHEM 838

BIOC 839/439, BIOS 439, CHEM 439, CHEM 839, BIOS 839, CHEM 839

BIOC 931, BIOS 431, CHEM 431, CHEM 931, BIOS 931, CHEM 931

BIOC 932/432, BIOS 432, CHEM 432, CHEM 932, BIOS 932, CHEM 932

BIOC 933/433, BIOS 433, CHEM 433, CHEM 933, BIOS 933, CHEM 933

BIOC 934/434, BIOS 434, CHEM 434, CHEM 934, BIOS 934, CHEM 934

BIOC 935/435, BIOS 435, CHEM 435, CHEM 935, BIOS 935, CHEM 935

BIOC 936/436, BIOS 436, CHEM 436, CHEM 936, BIOS 936, CHEM 936

BIOC 937/437, BIOS 437, CHEM 437, CHEM 937, BIOS 937, CHEM 937

BIOC 938/438, BIOS 438, CHEM 438, CHEM 938, BIOS 938, CHEM 938

BIOC 939/439, BIOS 439, CHEM 439, CHEM 939, BIOS 939, CHEM 939
BIOC 486 Advanced Topics in Biophysical Chemistry
Crosslisted with: BIOC 886, CHEM 486, CHEM 886
Prerequisites: CHEM 471/871 or CHEM 481/881.
Description: Applications of thermodynamics to biochemical phenomena, optical properties of proteins and polynucleotides, and kinetics of rapid reactions.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Grading Option: Graded with Option

BIOC 498 Undergraduate Research
Prerequisites: Permission.
Description: Research on a specific biochemical project under the supervision of a biochemistry faculty member.
Credit Hours: 1-6
Min credits per semester: 1
Max credits per semester: 6
Max credits per degree: 6
Grading Option: Graded with Option

BIOC 499 Undergraduate Thesis
Prerequisites: Permission.
Description: Conduct a scholarly research project and write an undergraduate thesis.
Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 6
Grading Option: Graded

BIOC 499H Honors Undergraduate Thesis
Prerequisites: Permission.
Description: Conduct a scholarly research project and write a University Honors Program undergraduate thesis.
Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 6
Grading Option: Graded
