AGRICULTURAL EDUCATION

Description
A degree in agricultural education is designed to prepare students with the necessary communication and interpersonal skills, leadership training, and knowledge of technical agriculture to be a teacher of agricultural education at the secondary or postsecondary level, or accept employment in agribusiness leading to positions in training and/or development. The degree provides good preparation for work in agricultural extension, positions in foreign service, and agricultural educators in business and industry. Many students graduate with a dual degree in agricultural education and another degree in the College. Agricultural education students may elect to follow the teaching options or the leadership option.

College Requirements

College Admission
Requirements for admission into the College of Agricultural Sciences and Natural Resources (CASNR) are consistent with general University admission requirements (one unit equals one high school year): 4 units of English, 4 units of mathematics, 3 units of natural sciences, 3 units of social studies, and 2 units of foreign language. Students must also meet performance requirements (ACT composite of 20 or higher OR combined SAT score of 950 or higher OR rank in the top one-half of graduating class; transfer students must have a 2.0 (on a 4.0 scale) cumulative grade point average and 2.0 on the most recent term of attendance. For students entering the PGA Golf Management degree program, a certified golf handicap of 12 or better (e.g., USGA handicap card) or written ability (MS Word file) equivalent to a 12 or better handicap by a PGA professional or high school golf coach is required. For more information, please visit: http://pgm.unl.edu/requirements.

Admission Deficiencies/Removal of Deficiencies
Students who are admitted to CASNR with core course deficiencies must remove these deficiencies within the first 30 credit hours at UNL, or within the first calendar year at UNL, whichever takes longer, excluding foreign languages. Students have up to 60 credit hours to remove foreign language deficiencies. College-level course work taken to remove deficiencies may be used to meet degree requirements in CASNR.

Deficiencies in the required entrance subjects can be removed by completion of specified courses in the University or by correspondence.

The Office of Admissions, Alexander Building (south entrance), City Campus, provides information to new students on how deficiencies can be removed.

College Degree Requirements

Curriculum Requirements
The curriculum requirements of the College consist of three areas: ACE (Achievement-Centered Education); College of Agricultural Sciences and Natural Resources Core; and Degree Program requirements and electives. All three areas of the College Curriculum Requirements are incorporated within the description of the Major/Degree Program sections of the catalog. The individual major/degree program listings of classes insures that a student will meet the minimum curriculum requirements of the College.

Foreign Languages/Language Requirement
Two units of a foreign language are required. This requirement is usually met with two years of high school language.

Minimum Hours Required for Graduation
The College grants the bachelor's degree in programs associated with agricultural sciences, natural resources and related programs. Students working toward a degree must earn at least 120 semester hours of credit. A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation.

Grade Rules
Removal of C-, D and F Grades
Only the most recent letter grade received in a given course will be used in computing a student's cumulative grade point average if the student has completed the course more than once and previously received a grade or grades below C in that course.

The previous grade (or grades) will not be used in the computation of the cumulative grade point average, but it will remain a part of the academic record and will appear on any transcript.

A student can remove from his/her cumulative average a course grade of C-, D+, D, D- or F if the student repeats the same course at the University of Nebraska and receives a grade other than P (pass), I (incomplete), N (no pass), W (withdrawn), or NR (no report). If a course is no longer being offered, it is not eligible for the revised grade point average computation process.

For complete procedures and regulations, see the Office of the University Registrar website at http://www.unl.edu/regrec/course-repeats.

Pass/No Pass
Students in CASNR may take any course offered on a Pass/No Pass basis within the 24-hour limitation established by the Faculty Senate. However, a department may specify that the Pass/No Pass status of its courses be limited to non-majors or may choose to offer some courses for letter grades only.

GPA Requirements
A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation.

Transfer Credit Rules
To be considered for admission, a transfer student, Nebraska resident or nonresident, must have an accumulated average of C (2.0 on a 4.0 scale) and a minimum C average in the last semester of attendance at another college. Transfer students who have completed less than 12 credit hours of college study must submit either ACT or SAT scores.

Ordinarily, credits earned at an accredited college are accepted by the University. The College, however, will evaluate all hours submitted on an application for transfer and reserves the right to accept or reject any of them. Sixty is the maximum number of hours UNL will accept on transfer from a two-year college. Ninety is the maximum number of hours UNL will accept from a four-year college. Transfer credit in the degree program must be approved by the degree program advisor on a Request for Substitution Form to meet specific course requirements, group requirements, or course level requirements in the major. At least 9 hours in the major field, including the capstone course, must be completed at UNL regardless of the number of hours transferred.
The College will accept no more than 10 semester hours of C, D+, D and D- grades from other schools. The C+, D+, D and D- grades can only be applied to free electives. This policy does not apply to the transfer of grades from UNO or UNK to UNL.

Joint Academic Transfer Programs
The College of Agricultural Sciences and Natural Resources has agreements with many institutions to support joint academic programs. The transfer programs include dual degree programs and cooperative degree programs. Dual degree programs offer students the opportunity to receive a degree from a participating institution and also to complete requirements for a bachelor of science degree in CASNR. Cooperative programs result in a single degree from either UNL or the cooperating institution.

Dual Degree Programs
A to B Programs
The A to B Program, a joint academic program offered by the CASNR and participating community colleges, allows students to complete the first two years of a degree program at the participating community college and continue their education and study in a degree program leading toward a bachelor of science degree.

The A to B Program provides a basic knowledge plus specialized course work. Students transfer into CASNR with junior standing.

Depending on the community college, students enrolled in the A to B Program may complete the requirements for an associate of science degree at the community college, transfer to UNL, and work toward a bachelor of science degree.

Participating community colleges include:

- Central Community College
- Metropolitan Community College
- Mid-Plains Community College
- Nebraska College of Technical Agriculture
- Northeast Community College
- Southeast Community College
- Western Nebraska Community College

3+2 Programs
Two specialized degree programs in animal science and veterinary science are offered jointly with an accredited college or school of veterinary medicine. These two programs permit CASNR animal science or veterinary science students to receive a bachelor of science degree from UNL with a degree in animal science or veterinary science after successfully completing two years of the professional curriculum in veterinary medicine at an accredited veterinary school. Students who successfully complete the 3+2 Program, must complete the “Application for Degree” form and provide transcripts to the Credentials Clerk, Office of the University Registrar, 107 Canfield Administration Building, UNL. Students should discuss these degree programs with their academic advisor.

Cooperative Degree Programs
Academic credit from UNL and a cooperating institution is applied towards a four-year degree from either UNL (UNL degree-granting program) or the cooperating institution (non UNL degree-granting program). All have approved programs of study.

UNL Degree-Granting Programs
A UNL degree-granting program is designed to provide students the opportunity to complete a two-year program of study at one of the four-year institutions listed below, transfer to CASNR and complete the requirements for a bachelor of science degree.

Chadron State College. Chadron State College offers a 2+2 program leading to a grassland ecology and management degree program and a transfer program leading to a Bachelor of Science in Agricultural Education in the teaching option.

Wayne State College. Wayne State College offers a 3+1 program leading to a Bachelor of Science in Plant Biology in the ecology and management option.

University of Nebraska at Kearney. Transfer programs are available for students pursuing degree programs leading to a bachelor of science degree.

University of Nebraska at Omaha. The University of Nebraska at Omaha (UNO) cooperates with CASNR in providing four-semester pre-agricultural sciences, pre-natural resources, pre-food science and technology, pre-horticulture and pre-turfgrass and landscape management transfer programs.

A student enrolled in these programs may transfer all satisfactorily completed academic credits identified in the suggested program of study, and enter CASNR to study toward a degree program leading to a bachelor of science degree. The total program would require a minimum of four years or eight semesters (16 credit hours/semester or 120 credit hours).

UNL CASNR faculty teach horticulture and food science and technology courses at UNO to assist an urban population in better understanding the food processing, horticulture, and landscape horticulture industries.

For more information, contact the CASNR Dean's Office, 800-472-8800, ext. 2541.

Non UNL Degree-Granting Programs
The CASNR cooperates with other institutions to provide course work that is applied towards a degree at the cooperating institution. Preprofessional programs offered by CASNR allow students to complete the first two or three years of a degree program at UNL prior to transferring and completing a degree at the cooperating institution.

Chadron State College—Range Science. The 3+1 Program in range science allows Chadron State College students to pursue a range science degree through Chadron State College. Students complete three years of course work at Chadron State College and one year of specialized range science course work (32 credit hours) at CASNR.

Dordt College (Iowa) – Agricultural Education: Teaching Option. This program allows students to pursue an Agricultural Education Teaching Option degree leading toward a bachelor of science in agricultural education. Students at Dordt College will complete 90 credit hours in the Agricultural Education: Teaching Option Transfer Program.

Residency
Students must complete at least 30 of the total hours for their degree using UNL credits. At least 18 of the 30 credit hours must be in courses offered through CASNR (>299) including the appropriate ACE 10 degree requirement or an approved ACE 10 substitution offered through another UNL college and excluding independent study regardless of the number of hours transferred. Credit earned during education abroad may be used toward the residency requirement if students register through UNL and participate in prior-approved education abroad programs. UNL
open enrollment and summer independent study courses count toward residence.

1 Includes courses taught by CASNR faculty through interdisciplinary prefixes (e.g., LIFE, MBIQ, ENV, SCIL, EAEP, HRTM, ENSC) and CASNR crosslisted courses taught by non-CASNR faculty.

Online and Distance Education
There are many opportunities to earn college credit online through the University of Nebraska—Lincoln. Some of these credits may be applicable not only as elective credits, but also toward the fulfillment of the College’s education requirements. Credits earned online may count toward residency. However, certain offerings may not be counted toward scholarship requirements or academic recognition criteria.

For further information, contact:
Office of Online and Distance Education
University of Nebraska—Lincoln
305 Brace Labs
Lincoln, NE 68588-0109
402-472-4681
http://online.unl.edu/

Independent Study Rules
Students wishing to take part in independent studies must obtain permission; complete and sign a contract form; and furnish copies of the contract to the instructor, advisor, departmental office, and the Dean’s Office. The contract should be completed before registration. Forms are available in 103 Agricultural Hall or online at the CASNR website.

Independent study projects include research, literature review or extension of course work under supervision and evaluation of a departmental faculty member.

Students may only count 12 hours of independent study toward their degrees and no more than 6 hours can be counted during their last 36 hours earned, excluding senior thesis, internships, and courses taught under an independent study number.

Other College Degree Requirements

Capstone Course Requirement
A capstone course is required for each CASNR degree program. A capstone course is defined as a course in which students are required to integrate diverse bodies of knowledge to solve a problem or formulate a policy of societal importance.

ACE Requirements
All students must fulfill the Achievement Centered Education (ACE) requirements. Information about the ACE program may be viewed at www.ace.unl.

The minimum requirements of CASNR reflect the common core of courses that apply to students pursuing degrees in the college. Students should work with an advisor to satisfy ACE outcomes 1, 2, 3, 4, 6 and 10 with the college requirements.

Catalog Rule
Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted to UNL or when they were first admitted to a Joint Academic Transfer Program. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at UNL in the College of Agricultural Sciences and Natural Resources. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Learning Outcomes
Majors in agricultural leadership, education and communication – Skilled and Technical Sciences Option will be able to:

1. Understand the central concepts, tools of inquiry, and structures of the disciplines he or she teaches and can create learning experiences that make these aspects of subject matter meaningful for students.
2. Understand how children learn and develop, and can provide learning opportunities that support their intellectual, social and personal development.
3. Understand how students differ in their approaches to learning and creates instructional opportunities that are adapted to diverse learners.
4. Understand and use a variety of instructional strategies to encourage student’s development of critical thinking, problem solving, and performance skills.
5. Use an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.
6. Use knowledge of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration and supportive interaction in the classroom.
7. Plan instruction based upon knowledge of subject matter, students, the community, and curriculum goals.
8. Understand and use formal and informal assessment strategies to evaluate and ensure the continuous intellectual, social and physical development of the learner.
9. Be a reflective practitioner who continually evaluates the effects of his/her choices and actions on others (students, parents and other professionals in the learning community) and who actively seeks out opportunities to grow professionally.
10. Foster relationships with school colleagues, parents and agencies in the larger community to support students learning and well-being.

Majors in agricultural leadership, education and communication – Teaching Option will be able to:

1. Understand the central concepts, tools of inquiry, and structures of the disciplines he or she teaches and can create learning experiences that make these aspects of subject matter meaningful for students.
2. Understand how children learn and develop, and can provide learning opportunities that support their intellectual, social and personal development.
3. Understand how students differ in their approaches to learning and creates instructional opportunities that are adapted to diverse learners.
4. Understand and use a variety of instructional strategies to encourage student’s development of critical thinking, problem solving, and performance skills.
5. Use an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.
6. Use knowledge of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration and supportive interaction in the classroom.
7. Plan instruction based upon knowledge of subject manner, students, the community, and curriculum goals.
8. Understand and use formal and informal assessment strategies to evaluate and ensure the continuous intellectual, social and physical development of the learner.
9. Be a reflective practitioner who continually evaluates the effects of his/her choices and actions on others (students, parents and other professionals in the learning community) and who actively seeks out opportunities to grow professionally.
10. Foster relationships with school colleagues, parents and agencies in the larger community to support students learning and well-being.

Majors in agricultural leadership, education and communication – Leadership Option will be able to:

1. Apply knowledge of leadership theories, models, and behaviors to solve problems in agricultural and environmental sciences fields and beyond.
2. Develop competence to apply leadership skills at the individual, team and organizational/community levels.
3. Develop critical thinking skills to analyze and evaluate leadership issues in complex and global environments.
4. Develop a level of self-awareness as well as the cognitive and emotional ability to effectively work with and develop people from diverse backgrounds and perspectives.
5. Develop and implement a personal plan for transfer of knowledge, skills, and behaviors gained to career/professional life via a guided capstone internship.

Major Department Admission
Student admission to the teacher education program in the Department of Agricultural Leadership, Education and Communication requires successful completion of ALEC 494 Undergraduate Seminar in Agricultural Education at least six months prior to student teaching. Student teaching is conducted off campus through university-approved agreements with cooperating secondary schools. Plans for student teaching must be made early.

To be admitted into the student teaching program candidates must have:

1. a minimum scholastic grade point average of 2.75 including no grades lower than C within the endorsement area, and no grades lower than C+ within professional education courses;
2. passing scores within PRAXIS I SERIES – Core Academic Skills (reading, writing, and mathematics);
3. 1,000 hours of verified work experience within their intended teaching endorsement area, or 300 hours of supervised employment under the direction of a UNL academic unit.

Student Teaching (ALEC 431 Student Teaching) is available as Pass/No Pass only. Meet with your advisor to plan for your student teaching experience.

Other Admission Requirements
Teaching Certificate
Successful completion of the teaching endorsement requirements, including a passing score on the corresponding PRAXIS II SERIES Content Area Test, and recommendation by the Department of Agricultural Leadership, Education and Communication, warrants recommendation for a Nebraska Secondary Teaching Certificate by the Nebraska Department of Education. Such certification will include a broad field endorsement to teach either secondary agricultural education or industrial technology (6-12). The choice is available to students completing an agricultural education endorsement to complete additional course work qualifying for subject endorsement in biology.

Students in other agricultural degree programs may qualify based upon meeting endorsement and teaching certificate requirements.

Criminal History/Background Check
Effective August 2012, individuals enrolled in any UNL teacher education course requiring a practicum experience in schools or other institutions must have successfully completed a background review prior to any practicum visitations. Two successful reviews will be required during your teacher preparation program; one prior to your initial practicum experience, and a second prior to your student teaching field experience. Background reviews must be completed through One Source, The Background Check Company. See your advisor or practicum course instructor for necessary details to request and complete a background review.

Nebraska State Department of Education Policy Pertaining to Students with Felony or Misdemeanor Convictions
The Nebraska Department of Education policy requires that a person with felony convictions or misdemeanor convictions involving abuse, neglect, or sexual misconduct shall not be allowed to participate in pre-student teaching laboratory and classroom experiences or student teach without approval by the Board of Education. To comply with this policy, the Department of Agricultural Education will require each student to affirm under oath that he/she does not have any convictions in the above-named areas prior to each field placement. If a student does have any felony or misdemeanor convictions, he/she is required to meet with Dr. Tom Wandzilak, Certification Officer, Student Services Center, 104 Henzlik Hall, 402-472-8626, as soon as possible. Students with questions pertaining to convictions should contact Dr. Wandzilak.

Insect Biology and Insect Identification
& ENT 116 / BIOS 116
HORT 131 / AGRO 131 / HORT 133
Plant Science and Horticultural Plant Science Laboratory
LIFE 120 / LIFE 120L Fundamentals of Biology I and Fundamentals of Biology I laboratory
CHEM 105 Chemistry in Context I 2 4
Select one of the following: 4-5
PHYS 141 Elementary General Physics I
PHYS 151 Elements of Physics
PHYS 211 General Physics I
MSYM 109 Physical Principles in Agriculture and Life Sciences

Credit Hours Subtotal: 12

Economics
AECN 141 Introduction to the Economics of Agriculture (ACE 6) 3

Credit Hours Subtotal: 3

Humanities and Social Sciences
EDPS 457 Learning and Motivation Principles for Secondary Teaching 3
Select one of the following: 3
SOCI 217 / ETHN 217
Sociology of Race and Ethnicity (ACE 9)
TEAC 330 / ETHN 330 Multicultural Education (ACE 9)

Select one Humanities and Social Sciences electives course each from ACE outcomes 5, 7, and 8 9

Credit Hours Subtotal: 15

Agricultural and Natural Resource Sciences (Endorsement Area) 3

Research and Applied Technology
Select one of the following: 3

AGRI 115 Biotechnology: Food, Health and Environment
AGRO 215 / HORT 215 / TLMT 215 Genetics
AGRO 431 Site-specific Crop Management
FDST 131 The Science of Food

Policy
Select one of the following: 3
AECN 265 Resource and Environmental Economics I
AECN 276 Rural Sociology
AECN 346 World Food Economics
AECN 376 Rural Community Economics
NRES 323 Natural Resources Policy
POLS 235 Public Policy: Concepts and Processes
POLS 236 Public Policy Analysis: Methods and Models

Management
Select 9 hours of the following: 9
AECN 201 Farm and Ranch Management
AECN 325 Marketing of Agricultural Commodities
ASCI 250 Animal Management
ASCI 320 Animal Nutrition and Feeding
ASCI 330 Animal Breeding
ASCI 450 Horse Management
ASCI 451 Livestock Management on Range and Pasture
ASCI 453 Dairy Management
ASCI 455 Beef Cow-Calf Management
ASCI 457 Beef Feedlot Management
AGRO 204 Resource-Efficient Crop Management
AGRO 240 Forage Crop and Pasture Management
AGRO 405 Crop Management Strategies
HORT 325 Greenhouse Practices and Management

Production
Select one of the following: 3
ASCI 100 Fundamentals of Animal Biology and Industry
ASCI 150 Animal Production Skills
HORT 131 Plant Science
& HORT 133 and Horticultural Plant Science Laboratory
HORT 221 Plant Propagation
HORT 325 Greenhouse Practices and Management
HORT 327 Turfgrass Science and Management

Natural Resources
Select 6 hours of the following: 6
AECN 265 Resource and Environmental Economics I
AGRO 153 Soil Resources
AGRO 366 Soil Nutrient Relationships
BIOS 232 Ecological Issues in the Great Plains
ENTO 109 Beekeeping
NRES 211 Introduction to Conservation Biology
NRES 220 Principles of Ecology
NRES 311  Wildlife Ecology and Management

Mechanized Systems 4

Select 9 hours of the following: 9

- MSYM 245  Electrical Service Systems (UNL)
- AUTT 1003  Small Engines
- WELD 1060 & WELD 1070  Basic Oxy - Acetylene/Shielded Metal Arc Theory and Lab & Advanced Oxy - Acetylene/Shielded Metal Arc Techniques
- WELD 1080 & WELD 1090  GMAW/GTAW Theory & Lab 1 & GMAW/GTAW Advanced Welding Techniques
- CNST 1101  Basic Woods Manufacturing
- CNST 1201  Construction Basics

Food System

Select one of the following: 3

- AECN 225  Agribusiness Entrepreneurship in Food Products Marketing
- ASCI 210  Animal Products
- FDST 101  Introductory Food Science
- FDST 131  The Science of Food

Credit Hours Subtotal: 36

Professional Education Courses 5

- ALEC 135  Early Field Experience in Agricultural Leadership, Education and Communication 3
- ALEC 234  Planning Leadership and Experience Programs 3
- ALEC 308  Laboratory Instruction and Management 3
- ALEC 405  Methods of Instruction for Secondary Agriscience Education 3
- ALEC 405L  Methods of Instruction Laboratory Education 1
- ALEC 413  Program Development 3
- ALEC 494  Undergraduate Seminar in Agricultural Education 1
- SPED 401B  Accommodating Exceptional Learners in the Secondary School Classroom 3

Credit Hours Subtotal: 20

Free Electives

Select 3-5 hours 3-5

Credit Hours Subtotal: 5

Total Credit Hours 120

Biology Endorsement Requirements

If the student desires to qualify for both an endorsement in agricultural education and a subject endorsement in biology, the following course work should be integrated into the teaching option.

Supporting Laboratory Based Courses

Chemistry

- CHEM 109  General Chemistry I 4

Credit Hours Subtotal: 4

Physics

Select one of the following: 4-5

- PHYS 141  Elementary General Physics I
- PHYS 151  Elements of Physics
- PHYS 211  General Physics I
- MSYM 109  Physical Principles in Agriculture and Life Sciences

Credit Hours Subtotal: 4-5

Earth Science

- GEOL 101  Dynamic Earth 4

Credit Hours Subtotal: 4

Total Credit Hours 12-13

Biology Courses

Select at least one of the suggested courses from each of the following categories; however, within Fundamentals of Biology, both LIFE 120 Fundamentals of Biology I and LIFE 121 Fundamentals of Biology II are required. A minimum of 24 different hours is required. At least 12 hours must be taken at the 200 level or higher. Other course work may be negotiated with your academic advisor.

Select at least one of the suggested courses from each of the following categories: 24

Botany 1

- BIOS 109  General Botany 1
- AGRO 131 / HORT 131 & AGRO 132  Plant Science and Agronomic Plant Science Laboratory
- AGRO 204  Resource-Efficient Crop Management
- AGRO 240 / RNGE 240  Forage Crop and Pasture Management
- HORT 131 / AGRO 131 & HORT 133  Plant Science and Horticultural Plant Science Laboratory

Ecology 1

- NRES 211  Introduction to Conservation Biology
- NRES 220 / BIOS 220 & NRES 222 / BIOS 222  Principles of Ecology and Ecology Laboratory
- BIOS 232  Ecological Issues in the Great Plains
- NRES 311  Wildlife Ecology and Management

Genetics 1

1. If MATH 103 College Algebra and Trigonometry is taken, only 2 credit hours can be counted toward this requirement.
2. Students pursuing combined agriculture-biology endorsement must complete CHEM 109 General Chemistry I.
3. A minimum of 15 hours completed at the 200 level or above, and a minimum of 9 hours completed at the 300 level or above. Students must have a course in four CASNR departments or program areas. A course may be used to fulfill more than one category; however, the hours will only count once toward the 36-hour agricultural science requirement. No grades lower than C within the endorsement area.
4. Courses available through SCC-Lincoln or SCC-Milford. Meet with your advisor to plan for your mechanized systems classes.
5. No grades lower than C+ within professional education courses.
The following is a 2+2 program for students interested in obtaining certification in Skilled and Technical Sciences (STS). This certification will allow an individual to teach Skilled and Technical Sciences in a Nebraska secondary school (grades 6-12). Completion of the 60 credit hour requirement in the Skilled and Technical Sciences 2 + 2 Teaching Option at UNL, along with the completion of an associate of science or an associate of applied science within a post-secondary institution with a 2 + 2 agreement, will allow a student to complete a BS degree in agricultural education from UNL.

The program is an agreement between the College of Agricultural Sciences and Natural Resources (CASNR) and community college systems in Nebraska. The 2+2 program requires a student to complete the first two years at a community college and earn an associate of science or an associate of applied science degree before transferring to the University of Nebraska–Lincoln (UNL).

The transfer policy in CASNR will be in effect for all students interested in the STS 2+2 program. This 2+2 program is for the STS teaching program and will be the only program available for students to become certified at UNL. Students transferring into other UNL programs other than the STS program must follow the requirements set forth through the departments within the specific colleges. Students do have the option of taking ALEC 105 Introduction to Engineering Design (IED) and ALEC 115 Principles of Engineering (POE) on campus at UNL. Once completed, these courses can be reverse transferred to satisfy the STEM requirement at the community college. See your STS faculty advisor for details.

The prerequisite for entry into the STS certification program at UNL is the completion of the Skilled and Technical Sciences Program at a community college with a 2+2 Skilled and Technical Sciences Agreement. Students who transfer into UNL from other programs within the community college system will not be eligible for entry into the 2+2 program in STS at UNL.

To be admitted into the student teaching program candidates must have: 1) a minimum scholastic grade point average of 2.75 including no grades lower than C within the endorsement area, and no grades lower than C+ within professional education courses; 2) passing scores within the Pre-Professional Skills Test (Core Praxis 1); 3) 1,000 hours of verified work experience within the Skilled and Technical Sciences (STS) career cluster, or 300 hours of supervised employment in the STS career cluster under the direction of a UNL academic unit. Student Teaching (ALEC 431) is available as Pass/No Pass only. Meet with your advisor to plan for your student teaching experience.

**Teaching Certificate.** Successful completion of the teaching endorsement requirements, along with a recommendation by the Department of Agricultural Leadership, Education and Communication, warrants recommendation for a Nebraska Secondary Teaching Certificate by the Department of Education, with an endorsement to teach skilled and technical sciences (6-12).

### STS Teaching Option

Students who meet entry requirements in the STS Teaching Option will have completed a variety of course work from their community college. See website http://agedteaching.unl.edu/sts-2-2-programs. Many of the courses within the community college system have direct equivalencies with our ACE program at UNL. Following a comprehensive transfer analysis, students will be provided an accurate degree audit of the remaining ACE courses needed at UNL along with the professional program in agricultural education. The minimum requirements of CASNR reflect the common core of courses that apply to students pursuing degrees in the college. Students should work with an advisor to satisfy ACE outcomes 5, 7, 8, and 10 requirements. ACE requirements 1, 2, 3, 4, 6, and 9 will be completed through their academic programs within the community college system since it is a requirement for an associate of science or an associate of applied science degree at their institutions.

#### ACE Requirements

Select one course each in ACE outcomes 5, 7, and 8 1

| Credit Hours Subtotal: | 9 |

#### Leadership and Education (Professional Education Courses) 2

| ALEC 135A | Introduction to Skilled and Technical Sciences Education | 1 |
| ALEC 235 | STS Technical Skills and Skills USA | 3 |
| ALEC 308 | Laboratory Instruction and Management | 3 |
| ALEC 405 | Methods of Instruction for Secondary Agriscience Education | 3 |
| ALEC 405L | Methods of Instruction Laboratory Education | 1 |
| ALEC 413 | Program Development | 3 |

---

1. To be eligible for the biology endorsement, a student must maintain a minimum grade point average of 2.75 in the course work or its equivalency.

---

1. The following is a 2+2 program for students interested in obtaining certification in Skilled and Technical Sciences (STS). This certification will allow an individual to teach Skilled and Technical Sciences in a Nebraska secondary school (grades 6-12). Completion of the 60 credit hour requirement in the Skilled and Technical Sciences 2 + 2 Teaching Option at UNL, along with the completion of an associate of science or an associate of applied science within a post-secondary institution with a 2 + 2 agreement, will allow a student to complete a BS degree in agricultural education from UNL.

2. The program is an agreement between the College of Agricultural Sciences and Natural Resources (CASNR) and community college systems in Nebraska. The 2+2 program requires a student to complete the first two years at a community college and earn an associate of science or an associate of applied science degree before transferring to the University of Nebraska–Lincoln (UNL).

3. The transfer policy in CASNR will be in effect for all students interested in the STS 2+2 program. This 2+2 program is for the STS teaching program and will be the only program available for students to become certified at UNL. Students transferring into other UNL programs other than the STS program must follow the requirements set forth through the departments within the specific colleges. Students do have the option of taking ALEC 105 Introduction to Engineering Design (IED) and ALEC 115 Principles of Engineering (POE) on campus at UNL. Once completed, these courses can be reverse transferred to satisfy the STEM requirement at the community college. See your STS faculty advisor for details.

4. The prerequisite for entry into the STS certification program at UNL is the completion of the Skilled and Technical Sciences Program at a community college with a 2+2 Skilled and Technical Sciences Agreement. Students who transfer into UNL from other programs within the community college system will not be eligible for entry into the 2+2 program in STS at UNL.

5. To be admitted into the student teaching program candidates must have: 1) a minimum scholastic grade point average of 2.75 including no grades lower than C within the endorsement area, and no grades lower than C+ within professional education courses; 2) passing scores within the Pre-Professional Skills Test (Core Praxis 1); 3) 1,000 hours of verified work experience within the Skilled and Technical Sciences (STS) career cluster, or 300 hours of supervised employment in the STS career cluster under the direction of a UNL academic unit. Student Teaching (ALEC 431) is available as Pass/No Pass only. Meet with your advisor to plan for your student teaching experience.

6. **Teaching Certificate.** Successful completion of the teaching endorsement requirements, along with a recommendation by the Department of Agricultural Leadership, Education and Communication, warrants recommendation for a Nebraska Secondary Teaching Certificate by the Department of Education, with an endorsement to teach skilled and technical sciences (6-12).

**Mathematics and Statistics (beyond college algebra)**

Select 5-6 credits from the following: 5-6

- MATH 106 Calculus I
- MATH 103 College Algebra and Trigonometry 1
  or MATH 106 Trigonometry
  or MATH 108: Applied Calculus
  or MATH 20: Contemporary Mathematics
- EDPS 459 Statistical Methods
  or STAT 218 Introduction to Statistics

**Communications**

**Written Communication**

Select one of the following: 3

ENGL 150 Writing and Inquiry
ENGL 151 Writing and Argument
ENGL 254 Writing and Communities
JGEN 200 Technical Communication I
JGEN 300 Technical Communication II (ACE 1)

**Oral Communication**

COMM 209 Business and Professional Communication 3
or COMM 286 Public Speaking

**Natural Sciences**

Select two of the following: 8-9

- CASNR Approved Life Sciences
  - CHEM 105 Chemistry in Context I (ACE 4)
  - or CHEM 109 General Chemistry I
  - PHYS 141 Elementary General Physics I
  - or PHYS 151 Elements of Physics
  - or MSYM 109 Physical Principles in Agriculture and Life Sciences

**Economics, Humanities and Social Sciences**

Select one of the following: 3

- ECON 200 Economic Essentials and Issues
- ECON 211 Principles of Macroeconomics
- ECON 212 Principles of Microeconomics
- AECN 141 Introduction to the Economics of Agriculture (ACE 6)

**ACE Courses**

Select one course each from ACE outcomes 5, 7, and 9: 9

- ALEC 388 Ethics in Agriculture and Natural Resources (ACE 8)

**Credit Hours Subtotal:** 15

**Major Requirements**

- ALEC 102 Interpersonal Skills for Leadership 3
- ALEC 202 Foundations of Leadership Theory and Practice 3
- ALEC 302 Dynamics of Effective Leadership in Organizations 3
- ALEC 407 Supervisory Leadership 3
- ALEC 410 / NRES 413 Environmental Leadership 3
- ALEC 428 / NRES 428 Leadership in Public Organizations 3
- ALEC 433 Dynamics of Effective Leadership in Groups & Teams 3
- ALEC 466 Leadership and Diversity in Organizations and Communities 3
- ALEC 477 Leadership and Motivation 3
- ALEC 494 Undergraduate Seminar in Agricultural Education 1
- AECN 376 Rural Community Economics 3

**Optional:**

- ALEC 414 Classic Figures in Leadership 3

**Credit Hours Subtotal:** 31

**Human Development/Teaching & Learning**
ALEC 305  Presentation Strategies for Agricultural Audiences  3
ALEC 422  Facilitation and Project Planning  3
Select one of the following:  3
COMM 220  Public Advocacy and Civic Engagement
CYAF 380  Working with Families in Communities and Schools
EDPS 250  Fundamentals of Child Development for Education  3
EDPS 251  Fundamentals of Adolescent Development for Education
EDPS 320  Happiness and Well-Being through Positive Psychology
EDPS 362  Learning in the Classroom (for elementary)
EDPS 450  Child Psychology
EDPS 451  Psychology of Adolescence
EDPS 454  Human Cognition and Instruction
EDPS 457  Learning and Motivation Principles for Secondary Teaching
POLS 261 / ANTH 261 / SOCI 261  Conflict and Conflict Resolution
PSYC 263  Introduction to Cognitive Processes
PSYC 288  The Psychology of Social Behavior
PSYC 289  Developmental Psychology
PSYC 368  Learning and Motivation
PSYC 387  The Psychology of Personality
PSYC 446 / GER 446  Psychology of Adult Development and Aging
PSYC 460  Human Memory
PSYC 461  Learning Processes
PSYC 462  Motivation and Emotion
PSYC 463  Perception
PSYC 466  Attention and Performance
PSYC 483  Advanced Social Psychology
Credit Hours Subtotal:  9

**Ag/Science Literacy**
Select two of the following:  6
ALEC 108  Food in Society
ALEC 125  Land, Food and People
ENVR 249  Individual and Cultural Perspectives on the Environment
Credit Hours Subtotal:  6

**Minor**
Suggested minors are: any CASNR minor, CYAF, HRTM, international/global studies, human rights/humanitarian affairs, community and regional planning, business minor, education minor, psychology, sociology, communication studies  12-18

Credit Hours Subtotal:  18

**Free Electives**
Select 9-20 hours  9-20
Credit Hours Subtotal:  14

**Total Credit Hours**  120

---

1. If MATH 103 College Algebra and Trigonometry is taken, only 2 credit hours can be counted toward this requirement.
2. Prerequisites are noted behind the course.
3. These courses are waived if a CASNR minor or CASNR double degree program is chosen. Add 6 hours to electives.
4. The leadership and communication minor and the leadership and entrepreneurship minor are not permitted.

### Additional Major Requirements

#### Grade Rules

**Pass/No Pass**
The college will permit no more than a total of 24 semester hours of Pass/No Pass grades to be applied toward degree hours. Please note that this total includes ALEC 431 Student Teaching which is 12 hours of Pass/No Pass, therefore, students can only complete 12 credit hours in other courses with a Pass/No Pass grade.

#### Requirements for Minor Offered by Department

**Leadership and Communication Minor**
An 18-hour minor in leadership and communication is available through the Department of Agricultural Leadership, Education and Communication. Combining a leadership and communication minor with any CASNR degree strengthens students’ “employability” base by making them competent technical professionals who are also strong leaders and effective communicators.

**Students earning a minor in leadership and communication will be able to:**

- Competently apply leadership knowledge and skills at the individual, team and organizational levels.
- Develop a level of self-awareness as well as the cognitive and emotional ability to effectively work with people from diverse backgrounds and perspectives.
- Develop communication competencies to effectively advocate, negotiate, and/or relate in a variety of contexts.
- Develop and practice using critical thinking skills related to leadership and communication in order to effectively influence others.

The 18-hour minor is comprised of upper and lower division courses as follows:

**Select three of the following:**  9

Leadership and Entrepreneurship Minor

An 18-hour minor in leadership and entrepreneurship is available through a joint program offered by the Departments of Agricultural Leadership, Education and Communication and the Engler Agribusiness Entrepreneurship Program. This minor is intended for those who are interested in gaining additional professional skills in leadership and entrepreneurship. The 18-hour minor is comprised of theory based and applied courses as well as a final capstone course.

**Expected outcomes from a minor in leadership and entrepreneurship:**

- In the contexts of commerce and community, students are able to apply knowledge and skills about leadership and entrepreneurship
- Understand human aspects of organizational models
- Navigate social systems in businesses and communities
- Effectively negotiate consumer relations, business-to-business relations, and community relations
- Better prepared to assume leadership roles in business and industry as well as in communities
- Better prepared to be an effective and engaged citizen
- Effectively negotiate political and regulatory landscapes using critical thinking and creative problem-solving

**Leadership Courses**

Select one theory-based course of the following: 3

- ALEC 202 Foundations of Leadership Theory and Practice
- ALEC 302 Dynamics of Effective Leadership in Organizations
- ALEC 477 Leadership and Motivation
- ALEC 488 Leadership, Power and Influence

Select one application course of the following: 3

- ALEC 407 Supervisory Leadership
- ALEC 410 / NRES 413 Environmental Leadership
- ALEC 422 Facilitation and Project Planning

**Entrepreneurship Courses**

Select one foundational course of the following: 3-4

- ABUS 388 & EAEP 101 Agribusiness Entrepreneurship and Introductory Seminar on Opportunities in Entrepreneurship
- AGRO 388 & EAEP 101 Agribusiness Entrepreneurship and Introductory Seminar on Opportunities in Entrepreneurship
- HORT 388 & EAEP 101 Agribusiness Entrepreneurship and Introductory Seminar on Opportunities in Entrepreneurship
- ENTR 388 & EAEP 101 Agribusiness Entrepreneurship and Introductory Seminar on Opportunities in Entrepreneurship
- EAEP 275 Agribusiness Entrepreneurial Finance

Select one application course of the following: 3

- AECN 275 / AGRO 275 / EAEP 275 / ENTR 275 / HORT 275 Agribusiness Entrepreneurial Finance or EAEP 388 Agribusiness Entrepreneurship
- EAEP 488 / ABUS 488 / AGRO 488 / ENTR 488 / HORT 488 Business Management for Agricultural Enterprises
- ENTR 321 / MNGT 321 Entrepreneurship and Innovation in Organizations
- ENTR 421 / MNGT 421 Identifying and Exploring Entrepreneurial Opportunities
- EAEP 225 / AECN 225 / MRKT 225 Agribusiness Entrepreneurship in Food Products Marketing
- AECN 225 / MRKT 225 Identifying and Exploring Entrepreneurial Opportunities

Credit Hours Subtotal: 6-7

**Experiential Learning in Leadership and/or Entrepreneurship**

Select one of the following: 3

- AGRI 310 Study Tours in International Agriculture
- ALEC 102 Interpersonal Skills for Leadership
- ALEC 153 Chancellor’s Leadership Class
- ALEC 165 Pepsi Service Scholars
- ALEC 337 Instructional Internship in Leadership Development
- ENTR 322 / MNGT 322 Family Business
- ENTR 422A / MNGT 422A Small Business Owner or ENTR 422 Managing Rapid Growth and Change in Organizations MNGT 422
- MNGT 423 Business Plan Development and Decision
Credit Hours Subtotal: 3

Internship in Leadership and/or Entrepreneurship
Select one of the following:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Credit Hours Subtotal: 3

Total Credit Hours: 18-19

1. Junior standing is required for these four courses.
2. With 20-hour service learning project.
3. Credit received for being a teaching assistant.

Students who wish to minor in leadership and communication must first meet with a Department of Agricultural Leadership, Education and Communication (ALEC) faculty member from the leadership program. Students who wish to minor in leadership and entrepreneurship must meet with either an ALEC or Engler Agribusiness Entrepreneurship Program faculty member. A completed Declaration of Minor form, filled out with the assistance of the faculty member, should be signed by the student’s academic advisor and turned into the College of Agricultural Sciences and Natural Resources Dean's office.

ALEC 101 Mechanical Drafting
Description: Develop expertise in the use of drafting equipment, geometric construction, orthographic projections, dimensioning, and the application of American National Standards Institute (ANSI) standards.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 102 Interpersonal Skills for Leadership
Description: Introduction to the principles and practices of positive interpersonal relationships for leadership development. Self-awareness, awareness of others, effective interpersonal communication, and the building of trust relationships as a basis for understanding and developing leadership. An experiential approach, field projects and a supervised service project. Open to freshman or sophomores or Agricultural Leadership, Education & Communication degree students or Leadership & Communication minor students or Leadership & Entrepreneurship minor students.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 103 Computer-Aided Drafting
Prerequisites: ALEC 122.
Description: Applying computer commands to create two-dimensional engineering and architectural drawings.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 104 Wood Technology
Description: Fundamental woodworking tools and processes. Hand tool, lathe and machine related projects.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 105 Introduction to Engineering Design (IED)
Prerequisites: This course is the first course in the Project Lead the Way pre-engineering program and requires no prerequisite.
Notes: This is a secondary course training option for pre-service teachers in Skilled and Technical Sciences. It is a STEM skill requirement for the 2+2 articulation agreement with various community colleges across the state of Nebraska. By allowing pre-service teachers to complete this course, students can reverse transfer the credit back to the community colleges to enforce rigorous training needs in the STEM field for future STS teachers coming out of the ALEC department.
Description: Students dig deep into the engineering design process, applying math, science, and engineering standards to hands-on projects. They work both individually and in teams to design solutions to a variety of problems using 3d modeling software, and use an engineering notebook to document their work.
Credit Hours: 4
Max credits per semester: 4
Max credits per degree: 4
Format: LAB
Prerequisite for: ALEC 115

ALEC 108 Food in Society
Description: An introduction to the systems required to produce, distribute and sell the food that sustains life. The course provides the opportunity to learn from international experts who specialize in the sources, production, safety, distribution, culture, sale, politics and consumption of food worldwide.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 109 Industrial Metals and Plastics Materials Processing
Description: Forming, molding, separating, and fabricating of industrial materials.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ALEC 115 Principles of Engineering (POE)
Prerequisites: ALEC 105, Introduction To Engineering Design is a prerequisite
Notes: This course is the second foundational course taught in the Project Lead the Way pre-engineering curriculum. Students that complete this course will be certified to teach both foundational courses in any secondary PLTW pre-engineering program across the country. This certification gives UNL STS students in the ALEC department a rigorous STEM skill set. Once the course is completed the credit will be reverse transferred back to the community college to fulfill the STEM skill requirement of the 2+2 articulation agreements established with UNL and the ALEC department.
Description: Through problems that engage and challenge, students explore a broad range of engineering topics, including mechanisms, the strength of structures and materials, and automation. Students develop skills in problem solving, research, and design while learning strategies for design process documentation, collaboration, and presentation.
Credit Hours: 5
Max credits per semester: 5
Max credits per degree: 5
Format: LAB

ALEC 122 Architectural Drafting
Prerequisites: ALEC 101.
Description: Basic skills in the construction of architectural drawings, plot plans, elevation view, wall and floor sections, and roof construction. Architectural modeling.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 125 Land, Food and People
Description: Analyze and synthesize information about the dynamic relationships of land, food, and people and the impacts of human decisions on renewable and non-renewable resources from a local and global perspective.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 8 Civic/Ethics/Stewardship

ALEC 134 Agricultural Leadership, Education and Communication Careers
Description: Explore the career opportunities available in agricultural leadership, education and communication focusing on agribusiness, industry training positions, secondary agriscience instruction, extension education, agricultural and environmental sciences communication, and international agricultural education. Course has guest speakers and field trips.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

ALEC 135 Early Field Experience in Agricultural Leadership, Education and Communication
Prerequisites: Agricultural leadership, education and communication major or permission
Description: An exploration of the history, philosophy, goals, and objectives of career and Technical Education, more specifically, School-Based Agricultural Education. An introduction to lesson plan development, objective/essential question writing, and peer teaching will provide knowledge and skills that will be used in an early field experience. The early field experience will provide a platform for critical reflection that will help mold future agricultural teachers.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 135A Introduction to Skilled and Technical Sciences Education
Description: This is an introduction to basic lesson plan development, objective writing, and teaching in Skilled and Technical Sciences. A 40-hour early field experience in a Skills USA affiliated STS education program is required. The early field experience explores teaching as a potential career.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: FLD

ALEC 136 Fundamentals of Agricultural and Environmental Sciences Communication
Description: Introduction to the study of agricultural and environmental sciences communications. Strategies and techniques for success in the major and college courses generally using a systems thinking approach, fundamental concepts of communicating information related to science, environment, agriculture and natural resources to internal and external audiences, and job shadowing experience to help prepare for careers in the field.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 153 Chancellor’s Leadership Class
Prerequisites: Admission to the Chancellor’s Leadership Class program
Description: Leadership development. Understanding of self, develop leadership knowledge, and how to make a difference in the community.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 165 Pepsi Service Scholars
Prerequisites: Pepsi Scholarship for Outstanding Leadership and Service recipient
Notes: Requires 2 to 3 hours per week of outside of class time in community service.
Description: Civic and social responsibility through service-learning programming. Introduction to civic life, civic agent, and life-long service.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 8 Civic/Ethics/Stewardship
Agriculture Education

ALEC 189H University Honors Seminar
Prerequisites: Good standing in the University Honors Program or by invitation.
Description: Topic varies.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 200 Writing for Agriculture and Natural Resources
Prerequisites: Major or minor in Agricultural and Environmental Sciences Communication (AESC)
Description: Application of generally accepted practices for students desiring a communications career in agricultural and/or environmental sciences. Associated Press writing style, audience analysis, interviewing skills, writing mechanics, nuances of both verbal and nonverbal communication and professional collaboration.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 201 Electricity/Electronics
Description: Introduction to electricity and/or electronics and their applications to industry. AC and DC circuit design, construction, and analysis.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 202 Foundations of Leadership Theory and Practice
Description: Foundational knowledge of leadership theory and its relationship to the practice of leadership. Resolve complex leadership challenges by evaluating the intersection between leader, follower, and context. Critically assess real-world situations and make decisions about what theoretically-based leadership skills and behaviors are most likely to be effective. ALEC 202 will be offered both in face-to-face and online formats during fall and spring semesters and will be offered only online during the summer 8-week session.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: ALEC 422

ALEC 203 Automotive Technology
Description: Automotive technology and the equipment related to automotive repairs. The design, theory, and operations of automotive systems through laboratory activities.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 204 Machine Tool Technology
Description: Basic machine shop practices involving hand and precision measuring tools, bench work, layout, engine lathe, milling machine, surface and pedestal grinders.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 205 Welding Technology
Description: Basic knowledge and skill in both oxygen-aceylene welding and cutting, and electrical arc welding.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 207 Communicating to Public Audiences
Crosslisted with: ADPR 207
Prerequisites: College of Agricultural Sciences and Natural Resources (CASNR): completion of all CASNR core communications course requirements. Description: Concepts and techniques of public relations. Skills and theory for relating to government, corporate, and other agricultural public audiences.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: ADPR 429; ADPR 439

ALEC 234 Planning Leadership and Experience Programs
Prerequisites: Sophomore standing and ALEC 134 and/or 135. Description: Theory of experiential education to middle school and secondary agricultural education programs, especially leadership and career education. Development of Supervised Agricultural Experiences (SAE), Young Adult/Farmer, FFA, and alumni activities, appropriate to the community, school, and student needs using electronic technology in learning how to teach Nebraska's agricultural education financial management system.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 235 STS Technical Skills and Skills USA
Description: Theory of experiential education to middle school and secondary Skilled and Technical Sciences education programs, especially leadership and career education. Exposure to Supervised Career and Technical Student Organization Experience (CTSO), Skills USA, appropriate to the community, school, and student needs recording using electronic technology in learning how to teach Skilled and Technical Science courses supported by Skills USA. This course will provide the work based learning credit (006.34D3) for the Industrial Technology Education Field Endorsement, and STS Supplemental endorsements. This course includes 20 hours of SkillsUSA field experience.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Groups: Introductory
ALEC 240 Digital Photography and Visual Communication for Agriculture and the Environment
Prerequisites: Students must be an AESC major or minor. Otherwise, instructor permission is required.
Description: Digital photography theory and tools to deliver science-based agricultural and environmental information for diverse audiences. Develop an understanding of and apply digital photography concepts such as composition, lighting, landscape, portrait, and editing in the development of a final photo essay project for a real-world audience.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 241 Mobile Video Production of Agricultural and Environmental Issues
Prerequisites: AESC major or minor. Otherwise, instructor permission required.
Notes: This is a blended learning course. We will meet face-to-face once a week to develop our projects. We will also participate in weekly online activities such as readings, discussion boards, wikis, etc.
Description: Use mobile devices to research agricultural and environmental science topics, conduct and record video interviews with scientists about controversial scientific topics, record footage in science labs and field sites, and produce final videos for real-world audiences. Gain experience with digital storytelling theory and techniques.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 242 Construction Technology
Prerequisites: ALEC 104.
Description: Classifications, properties, and uses of common construction materials and building practices. Construction of a residential dwelling from plot plan through trim and finish work.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 243 Fine Woodworking
Prerequisites: ALEC 104.
Description: Woodworking special processes. Furniture design, frame and panel construction, veneering and steam bending. Project design and construction on an individual project serve as the final assessment.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 246 Modern Industries
Prerequisites: ALEC 204.
Description: CNC (Computer Numerical Control) programming for tool making to include milling, computer aided manufacturing and/or drafting and/or design and electrical discharge machines.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 302 Dynamics of Effective Leadership in Organizations
Prerequisites: Open to sophomores or above.
Description: Principle and process of effective leadership in complex organizations of society and commerce. Dynamic interactions of personal characteristics, technical skills, interpersonal influence, commitment, goals and power.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 303 Energy, Power and Transportation Technology
Prerequisites: ALEC 101, 109, 203, 204, and 205.
Notes: ALEC 303 is a synthesis of skill-based courses for Industrial Technology Education (ITE) majors.
Description: Design, construct, and test a one-person electric vehicle. Enter the vehicle in a statewide competition.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 305 Presentation Strategies for Agricultural Audiences
Prerequisites: JGEN 200 or 300.
Description: Presentation strategies used in agribusiness, education, government and public service. Attention to audience need, organization, methodology and management of presentation resource, especially electronic technology.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 308 Laboratory Instruction and Management
Prerequisites: 6 hrs mechanized systems management; advanced standing
Notes: Student demonstrations and presentations required.
Description: Planning, conducting, and administering the instructional programs related to experientially based education in school laboratory settings. Variety of laboratory settings, including agricultural mechanics, greenhouse, soils, etc.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 330 Foundations of Cooperative Extension
Prerequisites: Junior standing.
Description: Cooperative Extension in a variety of settings and its role in the land-grant mission. Processes for developing and conducting need-driven, research-based, extension programs. Relationships with public and private agencies. Strategies for volunteerism.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ALEC 331 Supervised Field Experiences
Prerequisites: Junior or senior by application.
Description: Field course of supervised observation and participation with various phases of agricultural education and/or agribusiness.
Credit Hours: 2-5
Min credits per semester: 2
Max credits per semester: 5
Max credits per degree: 10
Format: FLD

ALEC 337 Instructional Internship in Leadership Development
Prerequisites: Permission.
Description: A structured professional and personal development experience. Small group facilitation and instructional assistance in leadership development courses.
Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 3
Format: FLD

ALEC 340 Advanced Machine Woodworking
Prerequisites: ALEC 243
Notes: ALEC 340 is a continuation of ALEC 243.
Description: Machine woodworking on a major individual project. Wood finishing and maintenance of hand and power tools.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 341 Podcasting to Increase Science Literacy
Prerequisites: AESC majors and minors. Otherwise, instructor permission is required.
Notes: This is a blended learning course. We will meet face-to-face once a week to develop our projects. We will also participate in weekly online activities such as readings, discussion boards, wikis, etc.
Description: Analysis and research of science literacy concepts, how to engage in public conversations about controversial issues, how to interview scientists, how to edit scientific audio interviews, and how to engage in public conversations about controversial issues, how to engage in public conversations about controversial issues, how to engage in public conversations about controversial issues, how to engage in public conversations about controversial issues, how to engage in public conversations about controversial issues, how to engage in public conversations about controversial issues, how to engage in public conversations about controversial issues.
Offered in the spring semester of odd years.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 346 Advanced Computer Aided Drafting and Design
Prerequisites: ALEC 101 or 103.
Description: Introduction to 3D modeling using sketching and Inventor software.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 350 Agriculture, the Environment & Science in the Media
Prerequisites: Completion of ACE 1 and ACE 2 coursework
Notes: Recommended for junior level students and above.
Description: How agriculture, the environment, and science are covered in media by news media outlets. Use of framing theory as a foundation to understand why messages are crafted in certain ways, how and why news media portray topics and issues using certain metaphors and story lines. Creation of effective media messages related to topics using framing, how to handle and respond to media requests, and interact with members of the media.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 388 Ethics in Agriculture and Natural Resources
Crosslisted with: AECN 388
Description: Ethics focusing on agricultural and natural resource issues. Using case studies from the professional workplace and contemporary society, develops intellectual skills necessary to reflect critically on ethical issues and apply appropriate conceptual tools for resolution of issues arising from conflicting ethical and value systems.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 8 Civic/Ethics/Stewardship

ALEC 390 Industrial Experience
Prerequisites: Permission.
Description: Occupational experience or supervised occupational experience in conjunction with directed observation.
Credit Hours: 1-6
Min credits per semester: 1
Max credits per semester: 6
Max credits per degree: 6
Format: FLD

ALEC 393 Digital Imaging and Storytelling in Agriculture and Natural Resources
Crosslisted with: NRES 393
Prerequisites: Consent of instructor(s). One college level course in photography or equivalent, and knowledge of the basics of shooting still photographs or video using digital cameras. Open only to College of Agricultural Sciences and Natural Resources students.
Notes: Can be repeated for a maximum of 9 credit hours by consent of instructor.
Description: Concepts and techniques related to use of remote and automated digital camera technology to capture images in agriculture and natural resources contexts to communicate a narrative story. Completion of individual project using a variety of technologies including camera traps, time-lapse camera systems, remote triggered cameras, as well as traditional audio and video and conventional photography.
Credit Hours: 1-9
Min credits per semester: 1
Max credits per semester: 9
Max credits per degree: 9
Format: LAB
ALEC 397 Special Topics
Prerequisites: Permission.
Description: Readings; in depth discussions; analysis of current theory, issues, problems, research and practice in leadership, education and/or communication. Topics vary.
Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 399 Independent Study in Communications
Prerequisites: Permission and advance approval of plan of work.
Description: Individual or group projects in research, literature review, or extension of course work under supervision and evaluation of a departmental faculty member.
Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 12
Format: IND

ALEC 400 Overview to Program Planning
Crosslisted with: ALEC 800
Prerequisites: ALEC 305 or ALEC/TEAC 805/NUTR 806.
Notes: ALEC 400/800 is designed for individuals interested in developing and/or improving program planning skills.
Description: Theoretical and applied considerations for identifying content, design, implementation, and evaluation of educational programs that vary in length from several hours to several months.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 405 Methods of Instruction for Secondary Agriscience Education
Prerequisites: Senior standing and 3 hrs educational psychology, or permission
Description: Instructional delivery of a secondary agricultural education program in the public school system. Organizing instructional content, individual lesson planning, methods of formal instructional delivery, student behavior management, instructing the handicapped and disadvantage, and student testing. Considerable time is spent on undergraduates demonstrating instructional delivery.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 405L Methods of Instruction Laboratory Education
Prerequisites: Admission to the teaching program in agricultural education and parallel registration in ALEC 405.
Description: Laboratory exercises that complement material covered in ALEC 405. Involve practice teaching at either the middle or secondary school level.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LAB

ALEC 407 Supervisory Leadership
Crosslisted with: ALEC 807, CYAF 807
Prerequisites: ALEC 302.
Description: Knowledge and theoretical basis for practicing supervisors in a changing workplace where supervisors have increasing responsibilities due to the flattening or organizational structures, solving supervisory challenges in organizing and planning, problem solving and decision making, performance appraisal and leading a diverse workforce.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 410 Environmental Leadership
Crosslisted with: ALEC 810, NRES 413, NRES 813
Prerequisites: Junior Standing
Notes: Offered on the World Wide Web (WWW) fall semester of odd-numbered years and in the classroom fall semester of even numbered-years.
Description: Major leaders in conservation and ecology that emphasizes agricultural and cultural issues and relationships with the environment.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 412 Multimedia Applications for Education and Training
Crosslisted with: ALEC 812, NUTR 812
Description: Practical applications in developing and evaluating multimedia resources for students. Surveys new applications, creates and develops various instructional materials, and reviews current practice against relevant theory. Use current software packages to develop materials for various audiences.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 413 Program Development
Prerequisites: Junior standing and acceptance into the student teaching program in agricultural education
Description: Planning, marketing and managing formal and non-formal educational programs for youth and adults. The learning process applied to learner needs and styles. Building collaborative relationships.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 414 Classic Figures in Leadership
Crosslisted with: ALEC 814
Prerequisites: Junior standing.
Description: Leadership theory in an applied context. Leadership analyzed through a variety of genres: autobiography, drama, fiction, tracts and treaties, speeches.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ALEC 417 Issues Management and Crisis Communications in Agriculture
Crosslisted with: ADPR 417
Prerequisites: Junior standing. College of Journalism and Mass Communications: Junior standing; ADPR 283.
Description: Fundamental components of issues management and crisis communications. Learning experiences in agriculture and natural resources that provide an understanding of issues facing the respective field of study.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: ASCI 381

ALEC 420 Improvement of Instructional Programs for Post-High-School Occupational Education
Crosslisted with: ALEC 820
Description: Designing new instructional programs, expanding the impact of student behavioral objectives, and evaluating the total instructional program.
Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 421 Agricultural & Environmental Sciences Communication Practicum
Prerequisites: Junior status. Major or minor in Agricultural and Environmental Sciences Communication. Students in the minor must have completed a minimum of 12 credits of minor coursework to enroll.
Description: This is a project course for students enrolled in the Agricultural and Environmental Communications program. It provides students the opportunity to develop, plan, and execute a project of their own design to showcase skills and knowledge gained through coursework. Students are guided by course instructor(s) and collaborate with additional identified faculty with appropriate expertise in agricultural sciences and natural resources.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 422 Facilitation and Project Planning
Prerequisites: ALEC 202 or equivalent and at least junior standing or permission.
Notes: The course will require travel to project sites, which are within 75 miles of Lincoln. At least 5 project visits are required, and more project visits may be required depending on the project. Generally, students work in pairs, so not all students need to be able to drive, and the instructor will try to create partnerships that facilitate traveling needs. However, if students cannot find transportation to a project site, they will not be able to complete the course.
Description: Foundational knowledge of project planning and facilitation. An experiential opportunity to facilitate a project within a community.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 424 Foundation of Career and Technical Education
Crosslisted with: ALEC 824
Description: Scope and structure of career and technical education within the educational system. Teacher's role and responsibilities in dealing with legislative mandates in planning, management, and evaluation of a local program.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 428 Leadership in Public Organizations
Crosslisted with: ALEC 828, NRES 428, NRES 828
Prerequisites: Junior standing
Description: Leadership in theories, research, and practices in public organizations and natural resource agencies.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 431 Student Teaching
Prerequisites: 3 hrs EDPS; passing score on the Preprofessional Skills Tests (PPST); and permission
Notes: Capstone course. Placement arranged by the department. Seven to sixteen weeks of off-campus student teaching. Pass/no pass only.
Description: Guided participation in various phases of a public school agricultural education program.
Credit Hours: 1-12
Min credits per semester: 1
Max credits per semester: 12
Max credits per degree: 12
Format: FLD
ACE: ACE 10 Integrated Product

ALEC 433 Dynamics of Effective Leadership in Groups & Teams
Crosslisted with: ALEC 833
Prerequisites: At least Junior standing or permission
Description: This course will cover the foundational knowledge of team and group dynamics theory and its relationship to the practice of leadership in organizations and communities. Development of leadership, followership, and teamwork skills in small groups and teams. Focus on team and group decision making, problem solving, and creativity, peer assessment, and evaluation using real-world situations and contexts. Critically apply team and group dynamic theories and research to leadership in organizations and communities.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ALEC 444 Science Writing
Crosslisted with: JOMC 444, JOMC 844
Prerequisites: Permission
Notes: Open to all majors. Articles may be submitted for publication.
Description: Advanced writing about science for the non-expert and/or for the general public. Issues in science communication through reading the best writers in science and journalism. Research and write short articles and longer profiles about science and scientists at the University of Nebraska-Lincoln (UNL) and elsewhere. Polish writing skills for doing work in science classes.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 466 Leadership and Diversity in Organizations and Communities
Crosslisted with: ALEC 866
Prerequisites: Junior standing.
Description: Leadership theories and their applications to human diversity in organizations and communities.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 477 Leadership and Motivation
Crosslisted with: ALEC 877
Description: Classic and contemporary motivation theories applied to leadership in organizations and communities.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 480 Capstone Experience in Agricultural and Environmental Sciences Communication
Prerequisites: Consent of Instructor. Senior standing.
Notes: Requires interviews outside of class time.
Description: Investigate topics identified by IANR as critical to Nebraska agriculture and research, conduct interviews, write, edit, design and assist in the production of print and multimedia versions of the Strategic Discussions for Nebraska publication. Emphasis on factual, complete, accurate and clear communication of complex scientific and sociologically important issues in Nebraska agriculture. Learning to communicate research and science-based agricultural concepts to public audiences.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ACE: ACE 10 Integrated Product

ALEC 488 Leadership, Power and Influence
Crosslisted with: ALEC 888
Description: Organizational influence processes, power, and politics in organizations and communities.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 494 Undergraduate Seminar in Agricultural Education
Description: Philosophy and relationship of agricultural education in the public schools. Development and coordination of adult and continuing agricultural education programs.
Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ALEC 495A Internship in Leadership Development
Prerequisites: Junior standing; ALEC 302; Agricultural Education major; and permission.
Notes: Agricultural Education majors must take ALEC 495A for 'Pass/No Pass'. Capstone course.
Description: Internship in a selected agribusiness, industry, or agency. Collaboration development of a training program and leadership activities.
Credit Hours: 3-6
Min credits per semester: 3
Max credits per semester: 6
Max credits per degree: 6
Format: FLD
ACE: ACE 10 Integrated Product

ALEC 495B Internship in Agricultural and Environmental Sciences Communication
Prerequisites: Junior standing; Agricultural and Environmental Sciences Communication major; and permission
Notes: ALEC 495B is taken the second semester of the junior year or in the summer following the junior year. Department approval is required. ALEC 495B cannot be taken Pass/No Pass.
Description: Internship experience with an organization selected by student and approved by instructor in an agricultural or environmental sciences organization where the focus of the internship is related broadly to communications.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: FLD

ALEC 496 Independent Study in Leadership Education
Crosslisted with: ALEC 896
Prerequisites: Permission.
Description: Projects to research, literature review, or extension of course work.
Credit Hours: 1-9
Min credits per semester: 1
Max credits per semester: 9
Max credits per degree: 9
Format: IND

ALEC 499H Honors Thesis
Prerequisites: Admission to the University Honors Program and permission, AGRI 299H recommended.
Description: Conduct a scholarly research project and write a University Honors Program or undergraduate thesis.
Credit Hours: 3-6
Min credits per semester: 3
Max credits per semester: 6
Max credits per degree: 6
Format: IND

PLEASE NOTE
This document represents a sample 4-year plan for degree completion with this major. Actual course selection and sequence may vary and should be discussed individually with your college or department academic advisor. Advisors also can help you plan other experiences to enrich your undergraduate education such as internships, education abroad, undergraduate research, learning communities, and service learning and community-based learning.

Agricultural Education - Agricultural Leadership

**14 HR TERM 1**

**College Course**

complete SCIL 101

**ACE 1 Written**

complete 1 from ENGL 150, ENGL 151, ENGL 254, JGEN 200, JGEN 300

**Interpers Skills And Theory**

complete ALEC 102

ALEC 102 becomes critical to your success in the major if not completed by the second term of enrollment.

**ACE 3 Math/Statistics**

complete 1 from MATH 102, MATH 103, MATH 104, MATH 106, MATH 203

Completion of a MATH 100 level course becomes critical to your success in the major if not completed by the second term of enrollment.

**ACE 7 Arts**

complete 1 from ACE7

**16 HR TERM 2**

**Interpers Skills And Theory**

complete ALEC 202

ALEC 202 becomes critical to your success in the major if not completed by the second term of enrollment.

**ACE 2 Oral Comm**

complete either COMM 209 or COMM 286

**ACE 4 Life Science**

complete 1 from BIOS 109, AGRO 131, AGRO 132, BIOS 101, BIOS 101L, BIOS 112, BIOS 112L, ENTO 115, ENTO 116, FORS 120, FORS 120L, HORT 131, HORT 133, LIFE 120, LIFE 120L, LIFE 121, LIFE 121L, CHEM 105, CHEM 109, MSYM 109, PHYS 141, PHYS 151, BIOS 103L

Completion of 8 hours of the Natural Sciences requirement becomes critical to your success in the major if not completed by the end of the fourth term of enrollment. Requirement will be 4-5 credit hours

**Minor Reqt**

complete Any Course

Complete a course towards Minor.

**ACE 6 Economics**

complete 1 from ECON 211, AECN 141, ECON 200, ECON 212

**12 HR TERM 3**

**Leadership Dynamics**

complete ALEC 302

ALEC 302 becomes critical to your success in the major if not completed by the fourth term of enrollment.

**Psyc Educ Psyc**

complete ALEC 305

**ACE 3 Math/Statistics**

complete either STAT 218 or EDPS 459

**Minor Reqt**

complete Any Course

Complete a course towards Minor.
## 16 HR TERM 4

### ACE 4 Life Science

- complete 1 from BIOS 109, AGRO 131, AGRO 132, BIOS 101, BIOS 101L, BIOS 112, BIOS 112L, ENTO 115, ENTO 116, FORS 120, FORS 120L, HORT 131, HORT 133, LIFE 120, LIFE 120L, LIFE 121, LIFE 121L, CHEM 105, CHEM 109, MSYM 109, PHYS 141, PHYS 151, BIOS 103L

Completion of 8 hours of the Natural Sciences requirement becomes critical to your success in the major if not completed by the end of the fourth term of enrollment. Requirement will be 4-5 credit hours.
