ENVIRONMENTAL RESTORATION SCIENCE

Description
Environmental restoration initiates or accelerates the recovery of an ecosystem that has been degraded, damaged or contaminated from human activity or natural agents. Environmental restoration begins with a thorough understanding of the soil-water environment. Students interested in environmental restoration science must declare an option and can choose between either the Soil Science or Lake and Stream Restoration.

College Requirements

College Admission
Requirements for admission into the College of Agricultural Sciences and Natural Resources (CASNR) are consistent with general University admission requirements (one unit equals one high school year): 4 units of English, 4 units of mathematics, 3 units of natural sciences, 3 units of social studies, and 2 units of foreign language. Students must also meet performance requirements (ACT composite of 20 or higher OR combined SAT score of 950 or higher OR rank in the top one-half of graduating class; transfer students must have a 2.0 (on a 4.0 scale) cumulative grade point average and 2.0 on the most recent term of attendance. For students entering the PGA Golf Management degree program, a certified golf handicap of 12 or better (e.g., USGA handicap card) or written ability (MS Word file) equivalent to a 12 or better handicap by a PGA professional or high school golf coach is required. For more information, please visit: http://pgm.unl.edu/requirements.

Admission Deficiencies/Removal of Deficiencies
Students who are admitted to CASNR with core course deficiencies must remove these deficiencies within the first 30 credit hours at the University of Nebraska—Lincoln, or within the first calendar year at Nebraska, whichever takes longer, excluding foreign languages. Students have up to 60 credit hours to remove foreign language deficiencies. College-level course work taken to remove deficiencies may be used to meet degree requirements in CASNR.

Deficiencies in the required entrance subjects can be removed by completion of specified courses in the University or by correspondence.

The Office of Admissions, Alexander Building (south entrance), City Campus, provides information to new students on how deficiencies can be removed. Students who are admitted to CASNR with core course deficiencies must remove these deficiencies within the first 30 credit hours at the University of Nebraska—Lincoln, or within the first calendar year at Nebraska, whichever takes longer, excluding foreign languages. Students have up to 60 credit hours to remove foreign language deficiencies. College-level course work taken to remove deficiencies may be used to meet degree requirements in CASNR.

College Degree Requirements

Curriculum Requirements
The curriculum requirements of the College consist of three areas: ACE (Achievement-Centered Education); College of Agricultural Sciences and Natural Resources Core; and Degree Program requirements and electives. All three areas of the College Curriculum Requirements are incorporated within the description of the Major/Degree Program sections of the catalog. The individual major/degree program listings of classes insures that a student will meet the minimum curriculum requirements of the College.

Foreign Languages/Language Requirement
Two units of a foreign language are required. This requirement is usually met with two years of high school language.

Minimum Hours Required for Graduation
The College grants the bachelors degree in programs associated with agricultural sciences, natural resources and related programs. Students working toward a degree must earn at least 120 semester hours of credit. A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation. Some degree programs have a higher cumulative grade point average required for graduation. Please check the degree program on its graduation cumulative grade point average.

Grade Rules

Removal of C-, D and F Grades
Only the most recent letter grade received in a given course will be used in computing a student’s cumulative grade point average if the student has completed the course more than once and previously received a grade or grades below C in that course.

The previous grade (or grades) will not be used in the computation of the cumulative grade point average, but it will remain a part of the academic record and will appear on any transcript.

A student can remove from his/her cumulative average a course grade of C-, D+, D, D- or F if the student repeats the same course at the University of Nebraska and receives a grade other than P (pass), I (incomplete), N (no pass), W (withdrew), or NR (no report). If a course is no longer being offered, it is not eligible for the revised grade point average computation process.

For complete procedures and regulations, see the Office of the University Registrar website at http://www.unl.edu/regrec/course-repeats.

Pass/No Pass
Students in CASNR may take any course offered on a Pass/No Pass basis within the 24-hour limitation established by the Faculty Senate. However, a department may specify that the Pass/No Pass status of its courses be limited to non-majors or may choose to offer some courses for letter grades only.

GPA Requirements
A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation. Some degree programs have a higher cumulative grade point average required for graduation. Please check the degree program on its graduation cumulative grade point average.

Transfer Credit Rules
To be considered for admission, a transfer student, Nebraska resident or nonresident, must have an accumulated average of C (2.0 on a 4.0 scale) and a minimum C average in the last semester of attendance at another college. Transfer students who have completed less than 12 credit hours of college study must submit either ACT or SAT scores. Ordinarily, credits earned at an accredited college are accepted by the University. The College, however, will evaluate all hours submitted on an application for transfer and reserves the right to accept or reject any of them. Sixty (60) is the maximum number of hours the University will accept on transfer from a two-year college. Ninety (90) is the maximum number of hours the University will accept from a four-year college. Transfer credit in the degree program must be approved by the degree program advisor on a Request for Substitution Form to meet specific course requirements, group requirements, or course level...
requirements in the major. At least 9 hours in the major field, including the capstone course, must be completed at the University of Nebraska–Lincoln regardless of the number of hours transferred.

The College will accept no more than 10 semester hours of C-, D+, D and D- grades from other schools. The C-, D+, D and D- grades can only be applied to free electives. This policy does not apply to the transfer of grades from UNO or UNK to the University of Nebraska–Lincoln.

**Joint Academic Transfer Programs**
The College of Agricultural Sciences and Natural Resources has agreements with many institutions to support joint academic programs. The transfer programs include dual degree programs and cooperative degree programs. Dual degree programs offer students the opportunity to receive a degree from a participating institution and also to complete requirements for a bachelor of science degree in CASNR. Cooperative programs result in a single degree from either the University of Nebraska–Lincoln or the cooperating institution.

**Dual Degree Programs**
**A to B Programs**
The A to B Program, a joint academic program offered by the CASNR and participating community colleges, allows students to complete the first two years of a degree program at the participating community college and continue their education and study in a degree program leading toward a bachelor of science degree.

The A to B Program provides a basic knowledge plus specialized course work. Students transfer into CASNR with junior standing.

Depending on the community college, students enrolled in the A to B Program may complete the requirements for an associate of science degree at the community college, transfer to the University of Nebraska–Lincoln, and work toward a bachelor of science degree.

Participating community colleges include:
- Central Community College
- Metropolitan Community College
- Mid-Plains Community College
- Nebraska College of Technical Agriculture
- Northeast Community College
- Southeast Community College
- Western Nebraska Community College

**3+2 Programs**
Two specialized degree programs in animal science and veterinary science are offered jointly with an accredited college or school of veterinary medicine. These two programs permit CASNR animal science or veterinary science students to receive a bachelor of science degree from the University of Nebraska–Lincoln with a degree in animal science or veterinary science after successfully completing two years of the professional curriculum in veterinary medicine at an accredited veterinary school. Students who successfully complete the 3+2 Program, must complete the “Application for Degree” form and provide transcripts to the Credentials Clerk, Office of the University Registrar, 107 Canfield Administration Building. Students should discuss these degree programs with their academic advisor.

**Cooperative Degree Programs**
Academic credit from the University and a cooperating institution is applied towards a four-year degree from either the University of Nebraska–Lincoln (University degree-granting program) or the cooperating institution (non University degree-granting program). All have approved programs of study.

**UNL Degree-Granting Programs**
A University of Nebraska–Lincoln degree-granting program is designed to provide students the opportunity to complete a two-year program of study at one of the four-year institutions listed below, transfer to CASNR and complete the requirements for a bachelor of science degree.

**Chadron State College.** Chadron State College offers a 2+2 program leading to a grassland ecology and management degree program and a transfer program leading to a Bachelor of Science in Agricultural Education in the teaching option.

**Wayne State College.** Wayne State College offers a 3+1 program leading to a Bachelor of Science in Plant Biology in the ecology and management option.

**University of Nebraska at Kearney.** Transfer programs are available for students pursuing degree programs leading to a bachelor of science degree.

**University of Nebraska at Omaha.** The University of Nebraska at Omaha (UNO) cooperates with CASNR in providing four-semester pre-agricultural sciences, pre-natural resources, pre-food science and technology, pre-horticulture and pre-turfgrass and landscape management transfer programs.

A student enrolled in these programs may transfer all satisfactorily completed academic credits identified in the suggested program of study, and enter CASNR to study toward a degree program leading to a bachelor of science degree. The total program would require a minimum of four years or eight semesters (16 credit hours/semester or 120 credit hours).

Nebraska CASNR faculty teach horticulture and food science and technology courses at UNO to assist an urban population in better understanding the food processing, horticulture, and landscape horticulture industries.

For more information, contact the CASNR Dean's Office, 800-472-8800, ext. 2541.

**Non University of Nebraska–Lincoln Degree-Granting Programs**
The CASNR cooperates with other institutions to provide course work that is applied towards a degree at the cooperating institution. Pre-professional programs offered by CASNR allow students to complete the first two or three years of a degree program at the University prior to transferring and completing a degree at the cooperating institution.

**Chadron State College–Range Science.** The 3+1 Program in range science allows Chadron State College students to pursue a range science degree through Chadron State College. Students complete three years of course work at Chadron State College and one year of specialized range science course work (32 credit hours) at CASNR.

**Dordt College (Iowa) – Agricultural Education: Teaching Option.** This program allows students to pursue an Agricultural Education Teaching Option degree leading toward a bachelor of science in agricultural education. Students at Dordt College will complete 90 credit hours in the Agricultural Education: Teaching Option Transfer Program.

**Residency**
Students must complete at least 30 of the total hours for their degree using University of Nebraska–Lincoln credits. At least 18 of the 30 credit hours must be in courses offered through CASNR\(^1\) (>299) including
the appropriate ACE 10 degree requirement or an approved ACE 10 substitution offered through another Nebraska college and excluding independent study regardless of the number of hours transferred. Credit earned during education abroad may be used toward the residency requirement if students register through UNL and participate in prior-approved education abroad programs. University of Nebraska–Lincoln open enrollment and summer independent study courses count toward residence.

1 Includes courses taught by CASNR faculty through interdisciplinary prefixes (e.g., LIFE, MBI0, ENVRI, SCIL, EAEF, HRTM, ENSC) and CASNR crosslisted courses taught by non-CASNR faculty.

Online and Distance Education
There are many opportunities to earn college credit online through the University of Nebraska–Lincoln. Some of these credits may be applicable not only as elective credits, but also toward the fulfillment of the College’s education requirements. Credits earned online may count toward residency. However, certain offerings may not be counted toward scholarship requirements or academic recognition criteria.

For further information, contact:
Office of Online and Distance Education
University of Nebraska–Lincoln
305 Brace Labs
Lincoln, NE 68588-0109
402-472-4681
http://online.unl.edu/

Independent Study Rules
Students wishing to take part in independent studies must obtain permission; complete and sign a contract form; and furnish copies of the contract to the instructor, advisor, departmental office, and the Dean’s Office. The contract should be completed before registration. Forms are available in 103 Agricultural Hall or online at the CASNR website.

Independent study projects include research, literature review or extension of course work under supervision and evaluation of a departmental faculty member.

Students may only count 12 hours of independent study toward their degrees and no more than 6 hours can be counted during their last 36 hours earned, excluding senior thesis, internships, and courses taught under an independent study number.

Other College Degree Requirements
Capstone Course Requirement
A capstone course is required for each CASNR degree program. A capstone course is defined as a course in which students are required to integrate diverse bodies of knowledge to solve a problem or formulate a policy of societal importance.

ACE Requirements
All students must fulfill the Achievement Centered Education (ACE) requirements. Information about the ACE program may be viewed at ace.unl.edu (https://ace.unl.edu).

The minimum requirements of CASNR reflect the common core of courses that apply to students pursuing degrees in the college. Students should work with an advisor to satisfy ACE outcomes 1, 2, 3, 4, 6 and 10 with the college requirements.

Catalog Rule
Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted to the University of Nebraska–Lincoln or when they were first admitted to a Joint Academic Transfer Program. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at Nebraska in the College of Agricultural Sciences and Natural Resources. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Learning Outcomes
Majors in environmental restoration science will be able to:

1. Describe in detail, the chemical and biological process that act on a chemical once it is released into the soil-water environment.
2. Identify the contributing factors that can lead to ground or surface water contamination and offer corrective actions to mitigate the situation.
3. Use science-based principles to measure, describe, manage and improve soil-water environments.
4. Competitively pursue employment as an environmental scientist or soil scientist with government agencies or private-sector firms.

Credit Hours Subtotal: 18:23

**Option Electives and Requirements**

Complete requirements

Credit Hours Subtotal: 18:23
Emphasis Area Requirements

Soil Science Option

This option provides students an understanding of soil as a natural resource and as a component of all terrestrial ecosystems. The student will learn how soils influence ecological processes which take place above and below ground. An understanding of these processes will enable the student to deal with environmental management problems such as groundwater protection, natural resource management, urban and rural development issues, waste management, and pollution abatement. Careers focus on environmental assessment, soil conservation, and remediation of soil contamination. Students interested in preparing for graduate work in soils can aim toward a variety of special areas including soil microbiology, chemistry, physics, mineralogy, and morphology.

Soil Science Option Requirements

Select one of the following: 3

- SOIL 460 / AGRO 460 / BIOS 460 / NRES 460
- SOIL 461 / AGRO 461 / GEOL 461 / NRES 461 / WATS 461
- CIVE 326 / BSEN 326
- BSEN 355

Select two of the following: 6

- NRES 451
- NRES 455 / AGRO 455 / SOIL 455
- SOIL 269 / AGRO 269
- SOIL 453 / AGRO 453 / HORT 453 / LARC 453
- NRES 477 / AGRO 477 / GEOG 467 / SOIL 477

Credit Hours Subtotal: 13

Other Soil Science Option Electives

Select 5-10 hours of the following: 5-10

- BSEN 455 / NRES 455
- CIVE 455
- CHEM 251
- & CHEM 253
- Organic Chemistry I
- and Organic Chemistry I Laboratory

Civil Engineering Courses

- CIVE 327 / BSEN 327
- CIVE 421
- CIVE 422 / BSEN 422
- CIVE 424
- CIVE 432

Geology Courses

- GEOL 488 / NRES 488
- GEOL 470

Natural Resource Courses

- NRES 279 / AGRO 279 / SOIL 279
- NRES 399
- NRES 412 / GEOG 412
- NRES 418 / GEOG 418
- NRES 427 / GEOG 427
- NRES 451
- NRES 455 / AGRO 455 / SOIL 455
- NRES 496
- NRES 497

Plant Pathology Courses

- PLPT 270 / AGRO 270 / HORT 270 / NRES 270

Soil Courses

- SOIL 269 / AGRO 269
- SOIL 366 / AGRO 366
- SOIL 453 / AGRO 453 / HORT 453 / LARC 453

Credit Hours Subtotal: 18-23

1 Engineering courses are recommended, however, because of prerequisites students wishing to enroll in these courses should first seek counsel from their advisor and then request permission from instructor.

2 This course can be taken more than once.

Lake and Stream Restoration Option

This option is designed for students considering careers in water quality, aquatic ecology, or limnology. The student will learn the important
biotic, physical and chemical processes that occur within lakes and streams and be prepared to environmentally manage problems related to water quality. Students will also be prepared to implement pollution abatement procedures or management practices associated with lake and stream restoration. Careers focus on environmental assessment, water conservation, remediation of lakes and streams. Completion of this program also provides excellent preparation for graduate study.

Credit Hours Subtotal: 3-4

Total Credit Hours: 23-24

PLEASE NOTE

This document represents a sample 4-year plan for degree completion with this major. Actual course selection and sequence may vary and should be discussed individually with your college or department academic advisor. Advisors also can help you plan other experiences to enrich your undergraduate education such as internships, education abroad, undergraduate research, learning communities, and service learning and community-based learning.

Environmental Restoration Science - Lake & Stream Restoration

Icon Legend: Critical

17 HR TERM 1

College Course

Complete SCIL 101

ACE 3 Math/Statistics

Complete either MATH 102 or MATH 104

Completion of the Math & Statistics requirement becomes critical to your success in the major if not completed by the fourth term of enrollment.

ACE 1 Written Comm
complete 1 from ENGL 150, ENGL 151, ENGL 254, JGEN 200, JGEN 300  

3hr

The Written Communications requirement becomes critical to your success in the major if not completed by the fourth term of enrollment.

ACE 4 Life Science

complete 1 from BIOS 101, BIOS 101L, LIFE 120, LIFE 120L  

4hr

Geology Elective

complete 1 from GEOG 155, GEOL 101, GEOL 106, NRES 108  

4hr

16 HR TERM 2

Soil Resources

complete SOIL 153  

4hr

SOIL 153 becomes critical to your success in the major if not completed by the fourth term of enrollment.

ACE 2 Oral Comm

complete 1 from NRES 260, COMM 101, COMM 209, COMM 215, COMM 286, MRKT 257, TMFD 121, NRES 301  

3hr

ACE 3 Math/Statistics

complete STAT 218  

3hr

Completion of the Math & Statistics requirement becomes critical to your success in the major if not completed by the fourth term of enrollment.

ACE 6 Economics

complete 1 from AECN 141, ECON 200, ECON 211, ECON 212  

3hr

ACE 5 Humanities

complete 1 from ACE5  

3hr

Complete an ACE 5, 7, 8, or 9 requirement this term.

16 HR TERM 3

ACE 4 Chemistry

complete CHEM 109  

4hr

Completion of CHEM 109 and 110 become critical to your success in the major if both are not completed by the fourth term of enrollment.

Natural Resources Core

complete ENSC 220, NRES 220  

6hr

Intro Water Science
complete WATS 281

WATS 281 becomes critical to your success in the major if not completed by the fourth term of enrollment.

ACE 7 Arts

complete 1 from ACE7

Complete an ACE 5, 7, 8, or 9 requirement this term.

15 HR TERM 4

ACE 4 Chemistry

complete CHEM 110

Completion of CHEM 109 and 110 become critical to your success in the major if both are not completed by the fourth term of enrollment.

Soils Envr Water Quality

complete NRES 361

NRES 361 becomes critical to your success in the major if not completed by the sixth term of enrollment.

Envr Restoration Sci Core

complete NRES 453

16 HR TERM 5

Envr Restoration Sci Core

complete WATS 354, NRES 300, NREE 357

Soil Evaluation

complete NRES 279

ACE 8 Ethical Principles

complete 1 from ACE8

Complete an ACE 5, 7, 8, or 9 requirement this term.

Comm/Interpersonal Skills

complete 1 from NRES 260, ALEC 102, COMM 101, COMM 209, COMM 212, COMM 215, COMM 286, ENGL 150, ENGL 151, ENGL 252, ENGL 253, ENGL 254, JGEN 120, JGEN 200, JGEN 300, MRKT 257, TMFD 121
13 HR TERM 6

**Envr Restoration Sci Core**

complete NRES 319, NRES 320

**Natural Resources Core**

complete NRES 312

**Life Science**

complete 2 from LIFE 120, LIFE 120L, LIFE 121, LIFE 121L

**ACE 9 Global/Human Divers**

complete 1 from ACE9

14 HR TERM 8

**ACE 10 Capstone**

complete ENVR 499B

**Envr Restoration Sci Core**

complete NRES 459

**Lake/Stream Restor Elect**

complete 1 from BIOS 381, BIOS 454, BIOS 457, BIOS 488, BSEN 422, BSEN 455, CHEM 251, CHEM 253, ENTO 402, ENTO 402L, NRES 211, NRES 312, NRES 388, NRES 412, NRES 418, NRES 419L, NRES 419, NRES 420, NRES 421, NRES 427, NRES 431, NRES 463, NRES 464, NRES 468, NRES 475, NRES 484, NRES 489, NRES 497, PLPT 270, PLPT 370

17 HR TERM 7

**ACE 10 Capstone**

complete ENV 499A

**Electives**

complete Any Course

Complete an Elective course or additional course towards the Option requirement if necessary.
1. Performance Measure: 2.00 GPA required for graduation.
2. ***Total Credits Applying Toward 120 Total Hours***

**Environmental Restoration Science - Soil Science**

**Icon Legend: Critical**

### 17 HR TERM 1

**College Course**

- complete SCIL 101

**ACE 3 Math/Statistics**

- complete either MATH 102 or MATH 104

 Completion of the Math & Statistics requirement becomes critical to your success in the major if not completed by the fourth term of enrollment.

**ACE 1 Written Comm**

- complete 1 from ENGL 150, ENGL 151, ENGL 254, JGEN 200, JGEN 300

 The Written Communications requirement becomes critical to your success in the major if not completed by the fourth term of enrollment.

**ACE 4 Life Science**

- complete 1 from BIOS 101, BIOS 101L, LIFE 120, LIFE 120L

### 16 HR TERM 2

**Soil Resources**

- complete SOIL 153

 SOIL 153 becomes critical to your success in the major if not completed by the fourth term of enrollment.

**ACE 2 Oral Comm**

- complete 1 from NRES 260, COMM 101, COMM 209, COMM 215, COMM 286, MRKT 257, TMFD 121, NRES 301

**ACE 3 Math/Statistics**

- complete STAT 218

 Completion of the Math & Statistics requirement becomes critical to your success in the major if not completed by the fourth term of enrollment.

**ACE 6 Economics**

- complete 1 from AECN 141, ECON 200, ECON 211, ECON 212
ACE 5 Humanities

complete 1 from ACE5

Complete an ACE 5, 7, 8, or 9 requirement this term.

16 HR TERM 3

ACE 4 Chemistry

complete CHEM 109

Completion of CHEM 109 and 110 become critical to your success in the major if both are not completed by the fourth term of enrollment.

Natural Resources Core

complete ENSC 220, NRES 220

Intro Water Science

complete WATS 281

WATS 281 becomes critical to your success in the major if not completed by the fourth term of enrollment.

ACE 7 Arts

complete 1 from ACE7

Complete an ACE 5, 7, 8, or 9 requirement this term.

15 HR TERM 4

ACE 4 Chemistry

3hr complete CHEM 110

Completion of CHEM 109 and 110 become critical to your success in the major if both are not completed by the fourth term of enrollment.

ACE 4 Physics

4hr complete 1 from MSYM 109, PHYS 141, PHYS 151, PHYS 211

Soils Envr Water Quality

complete NRES 361

NRES 361 becomes critical to your success in the major if not completed by the sixth term of enrollment.

Envr Restoration Sci Core

complete NRES 453

16 HR TERM 5

Envr Restoration Sci Core

complete WATS 354, NRES 300, NREE 357

9hr
Soil Evaluation

complete NRES 279

1hr

ACE 8 Ethical Principles

complete 1 from ACE8

3hr

Complete an ACE 5, 7, 8, or 9 requirement this term.

Comm/Interpersonal Skills

complete 1 from NRES 260, ALEC 102, COMM 101, COMM 209, COMM 212, COMM 215, COMM 286, ENGL 150, ENGL 151, ENGL 252, ENGL 253, ENGL 254, JGEN 120, JGEN 200, JGEN 300, MRKT 257, TMFD 121

12 HR TERM 6
Envr Restoration Sci Core

complete either NRES 319 or NRES 320

3hr

Soil Science

complete 1 from BSEN 355, CIVE 326, SOIL 460, SOIL 461

3hr

ACE 9 Global/Human Divers

complete 1 from ACE9

3hr

Complete an ACE 5, 7, 8, or 9 requirement this term.

17 HR TERM 7
ACE 10 Capstone

complete ENVR 499A

1hr

Natural Resources

complete 4 from NRES 477, NRES 451, NRES 455, SOIL 269, SOIL 453

16hr

14 HR TERM 8
ACE 10 Capstone

complete ENVR 499B

2hr

Envr Restoration Sci Core
complete NRES 459

Soil Science Electives

complete 1 from BSEN 455, CHEM 251, CHEM 253, CIVE 327, CIVE 421, CIVE 422, CIVE 424, CIVE 432, GEOL 470, GEOL 488, NRES 279, NRES 399, NRES 412, NRES 418, NRES 427, NRES 451, NRES 455, NRES 496, NRES 497, PLPT 270, PLPT 370, SOIL 269, SOIL 366, SOIL 453

Electives

complete Any Course

Graduation Requirements
1. Performance Measure: 2.00 GPA required for graduation.
2. ***Total Credits Applying Toward 120 Total Hours***

Career Information
The following represents a sample of the internships, jobs and graduate school programs that current students and recent graduates have reported.

Jobs of Recent Graduates
- Technical Sales, LI-COR Biosciences - Lincoln NE
- Soil Scientist, USDA-NRCS - Powell WY
- Integrated Water Management Planner, The Nebraska Department of Natural Resources - Lincoln NE
- Soil Conservationist, Natural Resource Conservation Service - Central City NE
- Ecologist, Forest Preserve District - IL
- Young for Preventative Maintenance Associate, University of Nebraska-Lincoln - Lincoln NE
