ENVIROMENTAL STUDIES
(CASNR)

Description

Website: http://esp.unl.edu/

The environmental studies major is designed for students who want to make a difference and contribute to solving environmental challenges on a local to global scale. Solutions to challenges as climate change, pollution, and resource conservation require individuals who have a broad-based knowledge in the natural and social sciences, as well as strength in a specific discipline. The environmental studies major will provide the knowledge and skills needed for students to work across disciplines and to be competitive in the job market. The environmental studies program uses a holistic approach and a framework of sustainability. This framework recognizes the necessity of meeting current resource needs without compromising the environment or the ability of future generations to meet their needs.

The degree program consists of four required components:

1. Environmental studies core courses introduce students to the major (ENVR 101 Environmental Studies Orientation) and provide a foundation in the scientific and human dimensions of environmental challenges (ENVR 201 Science, Systems, Environment and Sustainability and ENVR 249 Individual and Cultural Perspectives on the Environment). Students will have the opportunity to work with individuals and organizations involved in environmental challenges within the community (ENVR 319 Environmental Engagement and the Community). The required internship course (ENVR 495 Internship in Environmental Studies) provides the opportunity to gain work experience related to academic and career objectives. The “capstone” senior thesis series (ENVR 499A Environmental Studies Senior Thesis I and ENVR 499B Environmental Studies Senior Thesis II) provides an opportunity to complete a scholarly creative or research product.

2. General collateral courses in Earth and Environmental Systems, Human Dimensions, and Economics and Policy: Earth and environmental systems courses provide the opportunity to explore Earth’s four major spheres (land, water, living things, air) and the influence humans have had on their variability over space and through time. Human dimensions courses allow an exploration of human factors driving environmental change: law, politics, ethics, human behavior, cultural diversity, decision-making, and communication. Economics and Policy courses provide an additional lens to view environmental challenges. In addition, students will use and apply relevant research methods, tolls, and technologies to address environmental challenges in an ethical manner.

3. Ancillary requirements in natural sciences (biology, chemistry and physics), mathematics, and statistics.

4. Emphasis area courses. To provide depth within a particular discipline, completion of an emphasis area is required. Three options are available to the students—Natural Resources, Public Health, or completion of a CASNR minor. Students are also encouraged to complete an additional 6 credit hours of discipline specific course work at the 300 level or higher.

College Requirements

College Admission

Requirements for admission into the College of Agricultural Sciences and Natural Resources (CASNR) are consistent with general University admission requirements (one unit equals one high school year): 4 units of English, 4 units of mathematics, 3 units of natural sciences, 3 units of social studies, and 2 units of foreign language. Students must also meet performance requirements (ACT composite of 20 or higher OR combined SAT score of 950 or higher OR rank in the top one-half of graduating class; transfer students must have a 2.0 (on a 4.0 scale) cumulative grade point average and 2.0 on the most recent term of attendance. For students entering the PGA Golf Management degree program, a certified golf handicap of 12 or better (e.g., USGA handicap card) or written ability (MS Word file) equivalent to a 12 or better handicap by a PGA professional or high school golf coach is required. For more information, please visit: http://pgm.unl.edu/requirements.

Admission Deficiencies/Removal of Deficiencies

Students who are admitted to CASNR with core course deficiencies must remove these deficiencies within the first 30 credit hours at UNL, or within the first calendar year at UNL, whichever takes longer, excluding foreign languages. Students have up to 60 credit hours to remove foreign language deficiencies. College-level course work taken to remove deficiencies may be used to meet degree requirements in CASNR.

Deficiencies in the required entrance subjects can be removed by completion of specified courses in the University or by correspondence.

The Office of Admissions, Alexander Building (south entrance), City Campus, provides information to new students on how deficiencies can be removed.

College Degree Requirements

Curriculum Requirements

The curriculum requirements of the College consist of three areas: ACE (Achievement-Centered Education); College of Agricultural Sciences and Natural Resources Core; and Degree Program requirements and electives. All three areas of the College Curriculum Requirements are incorporated within the description of the Major/Degree Program sections of the bulletin. The individual major/degree program listings of classes insures that a student will meet the minimum curriculum requirements of the College.

Foreign Languages/Language Requirement

Two units of a foreign language are required. This requirement is usually met with two years of high school language.

Minimum Hours Required for Graduation

The College grants the bachelors degree in programs associated with agricultural sciences, natural resources and related programs. Students working toward a degree must earn at least 120 semester hours of credit. A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation.

Grade Rules

Removal of C-, D and F Grades

Only the most recent letter grade received in a given course will be used in computing a student’s cumulative grade point average if the student has completed the course more than once and previously received a grade or grades below C in that course.
The previous grade (or grades) will not be used in the computation of the cumulative grade point average, but it will remain a part of the academic record and will appear on any transcript.

A student can remove from his/her cumulative average a course grade of C-, D+, D, D- or F if the student repeats the same course at the University of Nebraska and receives a grade other than P (pass), I (incomplete), N (no pass), W (withdrew), or NR (no report). If a course is no longer being offered, it is not eligible for the revised grade point average computation process.

For complete procedures and regulations, see the Office of the University Registrar website at http://www.unl.edu/regrec/course-repeats.

Pass/No Pass
Students in CASNR may take any course offered on a Pass/No Pass basis within the 24-hour limitation established by the Faculty Senate. However, a department may specify that the Pass/No Pass status of its courses be limited to non-majors or may choose to offer some courses for letter grades only.

GPA Requirements
A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation.

Transfer Credit Rules
To be considered for admission, a transfer student, Nebraska resident or nonresident, must have an accumulated average of C (2.0 on a 4.0 scale) and a minimum C average in the last semester of attendance at another college. Transfer students who have completed less than 12 credit hours of college study must submit either ACT or SAT scores.

Ordinarily, credits earned at an accredited college are accepted by the University. The College, however, will evaluate all hours submitted on an application for transfer and reserves the right to accept or reject any of them. Sixty is the maximum number of hours UNL will accept on transfer from a two-year college. Ninety is the maximum number of hours UNL will accept from a four-year college. Transfer credit in the degree program must be approved by the degree program advisor on a Request for Substitution Form to meet specific course requirements, group requirements, or course level requirements in the major. At least 9 hours in the major field, including the capstone course, must be completed at UNL regardless of the number of hours transferred.

The College will accept no more than 10 semester hours of C, D+, D and D- grades from other schools. The C-, D+, D and D- grades can only be applied to free electives. This policy does not apply to the transfer of grades from UNO or UNK to UNL.

Joint Academic Transfer Programs
The College of Agricultural Sciences and Natural Resources has agreements with many institutions to support joint academic programs. The transfer programs include dual degree programs and cooperative degree programs. Dual degree programs offer students the opportunity to receive a degree from a participating institution and also to complete requirements for a bachelor of science degree in CASNR. Cooperative programs result in a single degree from either UNL or the cooperating institution.

Dual Degree Programs
A to B Programs
The A to B Program, a joint academic program offered by the CASNR and participating community colleges, allows students to complete the first two years of a degree program at the participating community college and continue their education and study in a degree program leading toward a bachelor of science degree.

The A to B Program provides a basic knowledge plus specialized course work. Students transfer into CASNR with junior standing.

Depending on the community college, students enrolled in the A to B Program may complete the requirements for an associate of science at the community college, transfer to UNL, and work toward a bachelor of science degree.

Participating community colleges include:
- Central Community College
- Metropolitan Community College
- Mid-Plains Community College
- Nebraska College of Technical Agriculture
- Northeast Community College
- Southeast Community College
- Western Nebraska Community College

3+2 Programs
Two specialized degree programs in animal science and veterinary science are offered jointly with an accredited college or school of veterinary medicine. These two programs permit CASNR animal science or veterinary science students to receive a bachelor of science degree from UNL with a degree in animal science or veterinary science after successfully completing two years of the professional curriculum in veterinary medicine at an accredited veterinary school. Students who successfully complete the 3+2 Program, must complete the “Application for Degree” form and provide transcripts to the Credentials Clerk, Office of the University Registrar, 107 Canfield Administration Building, UNL. Students should discuss these degree programs with their academic advisor.

Cooperative Degree Programs
Academic credit from UNL and a cooperating institution is applied toward a four-year degree from either UNL (UNL degree-granting program) or the cooperating institution (non UNL degree-granting program). All have approved programs of study.

UNL Degree-Granting Programs
A UNL degree-granting program is designed to provide students the opportunity to complete a two-year program of study at one of the four-year institutions listed below, transfer to CASNR and complete the requirements for a bachelor of science degree.

Chadron State College. Chadron State College offers a 2+2 program leading to a grassland ecology and management degree program and a transfer program leading to a Bachelor of Science in Agricultural Education in the teaching option.

Wayne State College. Wayne State College offers a 3+1 program leading to a Bachelor of Science in Plant Biology in the ecology and management option.

University of Nebraska at Kearney. Transfer programs are available for students pursuing degree programs leading to a bachelor of science degree.

University of Nebraska at Omaha. The University of Nebraska at Omaha (UNO) cooperates with CASNR in providing four-semester pre-agricultural sciences, pre-natural resources, pre-food science and technology, pre-
A student enrolled in these programs may transfer all satisfactorily completed academic credits identified in the suggested program of study, and enter CASNR to study toward a degree program leading to a bachelor of science degree. The total program would require a minimum of four years or eight semesters (16 credit hours/semester or 120 credit hours).

UNL CASNR faculty teach horticulture and food science and technology courses at UNO to assist an urban population in better understanding the food processing, horticulture, and landscape horticulture industries.

For more information, contact the CASNR Dean’s Office, 800-472-8800, ext. 2541.

Non UNL Degree-Granting Programs
The CASNR cooperates with other institutions to provide course work that is applied towards a degree at the cooperating institution. Pre-professional programs offered by CASNR allow students to complete the first two or three years of a degree program at UNL prior to transferring and completing a degree at the cooperating institution.

Chadron State College—Range Science. The 3+1 Program in range science allows Chadron State College students to pursue a range science degree through Chadron State College. Students complete three years of course work at Chadron State College and one year of specialized range science course work (32 credit hours) at CASNR.

Dordt College (Iowa) – Agricultural Education: Teaching Option. This program allows students to pursue an Agricultural Education Teaching Option degree leading toward a bachelor of science in agricultural education. Students at Dordt College will complete 90 credit hours in the Agricultural Education: Teaching Option Transfer Program.

Residency
Students must complete at least 30 of the total hours for their degree using UNL credits. At least 18 of the 30 credit hours must be in courses offered through CASNR1 (>299) including the appropriate ACE 10 degree requirement or an approved ACE 10 substitution offered through another UNL college and excluding independent study regardless of the number of hours transferred. Credit earned during education abroad may be used toward the residency requirement if students register through UNL and participate in prior-approved education abroad programs. UNL open enrollment and summer independent study courses count toward residence.

Includes courses taught by CASNR faculty through interdisciplinary prefixes (e.g., LIFE, MBIO, ENVSR, SCI, EAP, HRTM, ENSC) and CASNR crosslisted courses taught by non-CASNR faculty.

Online and Distance Education
There are many opportunities to earn college credit through the University of Nebraska—Lincoln Office of Online and Distance Education. Some of these credits may be applicable not only as elective credits, but also toward the fulfillment of the College’s education requirements. Credits earned through the UNL Online and Distance Education program may count toward residency. However, certain offerings may not be counted toward scholarship requirements or academic recognition criteria.

For further information, contact:
Office of Online and Distance Education
University of Nebraska—Lincoln
1520 N 20th Circle, PO Box 888307
Lincoln, NE 68588-8307
402-472-2175
http://online.unl.edu/

Independent Study Rules
Students wishing to take part in independent studies must obtain permission; complete and sign a contract form; and furnish copies of the contract to the instructor, advisor, departmental office, and the Dean’s Office. The contract should be completed before registration. Forms are available in 103 Agricultural Hall or online at the CASNR website.

Independent study projects include research, literature review or extension of course work under supervision and evaluation of a departmental faculty member.

Students may only count 12 hours of independent study toward their degrees and no more than 6 hours can be counted during their last 36 hours earned, excluding senior thesis, internships, and courses taught under an independent study number.

Other College Degree Requirements
Capstone Course Requirement
A capstone course is required for each CASNR degree program. A capstone course is defined as a course in which students are required to integrate diverse bodies of knowledge to solve a problem or formulate a policy of societal importance.

ACE Requirements
All students must fulfill the Achievement Centered Education (ACE) requirements. Information about the ACE program may be viewed at www.ace.unl.

The minimum requirements of CASNR reflect the common core of courses that apply to students pursuing degrees in the college. Students should work with an advisor to satisfy ACE outcomes 1, 2, 3, 4, 6 and 10 with the college requirements.

Bulletin Rule
Students must fulfill the requirements stated in the bulletin for the academic year in which they are first admitted to UNL or when they were first admitted to a Joint Academic Transfer Program. In consultation with advisors, a student may choose to follow a subsequent bulletin for any academic year in which they are admitted to and enrolled as a degree-seeking student at UNL in the College of Agricultural Sciences and Natural Resources. Students must complete all degree requirements from a single bulletin year. The bulletin which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Learning Outcomes
Majors in environmental studies will be able to:

1. Explain and apply appropriately the systemic principle of sustainability for the development of solutions to environmental and natural resource issues.
2. Describe the Earth’s four major spheres: land, water, living things, and air in the context of physical, geological, and biological processes, their variability over space and time, and the extent to which human’s influence them.
3. Demonstrate the ability to critically assess environmental and sustainability issues from the local to global scale considering a range of perspectives.
4. Identify, explain, and evaluate problems/questions/issues using relevant data, resources and reasoning to form carefully considered conclusions.

5. Communicate effectively to a range of audiences through the preparation of written documents along with oral and visual presentations that are consistent with professional standards.

6. Effectively work in teams and groups from various backgrounds and perspectives to address environmental challenges.

7. Demonstrate improvement in professional and interpersonal skills such as collaboration, critical thinking, problem solving, empathy, and teamwork so they can effectively operate in society and the professional world.

8. Organize, plan, and satisfactorily complete a senior project through scholarly creativity and/or in depth research that uses appropriate technical knowledge, field, laboratory, geospatial, and/or social science research methodologies.

### Environmental Studies (CASNR)

#### Major Requirements

**College Core Requirements**

**College Integrative Course**

<table>

#### Program Emphasis Areas

<table>
<thead>
<tr>
<th>Option 1</th>
<th>Any CASNR Minor or second major, selected in consultation with academic advisor – 18 cr</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Students are strongly encouraged to add 6 additional credits at the 300 level or higher of discipline-specific courses, especially if they are considering graduate work.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Option 2</th>
<th>Natural Resources – 19-25 cr</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The Natural Resources emphasis area has been designed to allow a student to tailor their course work to meet their learning and career objectives. By the end of their sophomore year, the student will work with the environmental studies academic advising team to develop an individual study plan for approval. Their plan of study must include at least 7 courses and a minimum of 19 hours of course work in natural resources courses (NRES, WATS, SOIL, RNGE). Three of the courses need to be at the 300 level or above. A rationale for the courses they have chosen as they relate to learning or career objectives will be submitted with their study plan. The plan can be changed at any time, but must receive appropriate approval.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Option 3</th>
<th>Public Health – 18 cr</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The Public Health emphasis is a collaborative program between the bachelor of science in environmental studies (BSES) at the University of Nebraska–Lincoln (UNL) and the master of public health (MPH) with a concentration in environmental and occupational health (EOH) at the University of Nebraska Medical Center (UNMC) (<a href="http://www.unmc.edu/publichealth/programs/mphdegree/bses-mph.html">http://www.unmc.edu/publichealth/programs/mphdegree/bses-mph.html</a>). The program provides students in the environmental studies program at UNL an option to complete the undergraduate degree in environmental studies and the MPH in EOH in about five years. The collaborative program is designed for dedicated undergraduate students who are motivated and willing to take on the challenges and opportunities related to professional education. The collaborative BSES and MPH in EOH involves intensive study, a senior thesis, service learning, and capstone courses in EOH. The collaborative program is a 147-155 credit hour undergraduate/professional option allowing eligible students to work toward the EOH concentration in the MPH program requirements while completing their undergraduate degree. Students interested in this option will work closely with their advisors to develop an integrated plan of study. The plan will cover the entire undergraduate and professional program and will be continued in the public health program.</td>
</tr>
</tbody>
</table>

#### Ancillary Courses

- **Mathematics**
  - MATH 102: Trigonometry (or higher) – 2-5 credits
- **Statistics**
  - STAT 218: Introduction to Statistics (or equivalent) – 3 credits
- **Biological Sciences**
  - Select one sequence of the following: 4 credits
    - BIOS 101 & BIOS 101L: General Biology and General Biology Laboratory
    - AGRO 131 & AGRO 132: Plant Science and Agronomic Plant Science Laboratory
    - LIFE 120 & LIFE 120L: Fundamentals of Biology I and Fundamentals of Biology I laboratory
- **Chemistry**
  - Select one sequence of the following: 8 credits
    - CHEM 105 & CHEM 106: Chemistry in Context I and Chemistry in Context II
    - CHEM 109 & CHEM 110: General Chemistry I and General Chemistry II
    - CHEM 113 & CHEM 114: Fundamental Chemistry I and Fundamental Chemistry II
- **Physics**
  - Select one of the following: 3-5 credits
    - PHYS 115: Descriptive Physics
    - PHYS 141: Elementary General Physics I
    - PHYS 151: Elements of General Physics
    - MSYM 109: Physical Principles in Agriculture and Life Sciences

Credit Hours Subtotal: 79

#### Program Emphasis Areas

1. **ENVR 499A Environmental Studies Senior Thesis I (1 cr) & ENVR 499B Environmental Studies Senior Thesis II (2 cr)** are the capstone courses for environmental studies majors.
2. **ENVR 499H Honors: Environmental Studies Senior Thesis I & II (3 cr)** is the capstone course for UNL Honor Students.

For students in pre-professional tracks or considering graduate studies, MATH 104 or MATH 106, CHEM 110, PHYS 141, and LIFE 120 & LIFE 120L, plus LIFE 121 & LIFE 121L are the recommended courses.

**Total Credit Hours**: 120
reviewed each semester with the student’s advisors. A maximum of 18 credits from the MPH program (of the required 45 graduate credits for the MPH degree) will be counted toward the undergraduate degree. The student will receive a BS in environmental studies with an emphasis in public health and an MPH with a concentration in environmental and occupational health. Students with sophomore standing and at least 45 hours of completed course work in their undergraduate degree program may apply for admission to the collaborative BSES and MPH in EOH. See the environmental studies program coordinator or the UNMC graduate studies bulletin for pre-requisite and admission process details.

The Public Health courses from the UNMC Master of Public Health program are:

- CPH 500 Foundations of Public Health
- CPH 501 Human Health Behavior
- CPH 502 Health Services Administration
- CHP 503 Public Health, Environment and Safety
- CHP 504 Epidemiology in Public Health
- CHP 506 Biostatistics

Option 4. Pre-Law (Year 4) - Nebraska College of Law – 33 cr

Students interested in this option must adhere to the following process and set of requirements:

1. An LSAT score of at least 156.
2. A cumulative GPA of 3.6 or higher (as calculated by the Law School Admission Council).
3. Successful completion of 75% of undergraduate course requirements including no more than 6 credit hours of P/N.
4. Satisfaction of all standard law school application requirements with timely submissions.
5. No information reflecting adversely on the applicant’s character including academic probation.
6. Provision of letter from the Dean or equivalent authority outlining suitable eligibility for application.

Students who cannot satisfy all six of the criteria for automatic admission can still gain admission to the College of Law component of the 3+3 Program; however, they must gain admission via a law college admissions committee review. If unsuccessful in this effort, a student is welcome to reapply whereby prior applications will not factor into the College of Law’s admission decision. However, the intended program of study will have been disrupted and a secondary plan for year four of the undergraduate study must be employed.

NOTE: Students completing Option 4 will have 5-10 hours of elective course work to reach 120 hours for undergraduate graduation.

Additional Major Requirements

Grade Rules

C- and D Grades

Environmental studies majors must earn a C or P in all major core courses with the exception of ancillary courses.

Pass/No Pass

No environmental studies (ENVR) core courses, unless offered Pass/No Pass, or discipline-specific emphasis area courses may be taken Pass/No Pass.

Requirements for Minor Offered by Department

Environmental Studies Minor

Minimum of 18 hours with 600 level or above are required.

Earth and Environmental Systems

Select one course from the Earth and Environmental Systems section of the major

Credit Hours Subtotal: 3

Human Dimensions

Select one course from the Human Dimensions Electives section of the major

Credit Hours Subtotal: 3

Economics and Policy

Select one course from the Economics and Policy section of the major

Credit Hours Subtotal: 3

Total Credit Hours 18

1 CHP 506 Biostatistics will generally substitute for STAT 218 Introduction to Statistics or equivalent.
Environmental Education Minor

A minor in environmental education is designed to provide additional qualifications for students interested in pursuing a career in the field of environmental and natural resources education. Career options for students pursuing an environmental education minor include working in formal and non-formal educational settings; employment in the public or private sector; and serving as educational specialists, extension educators, and program leaders. Courses selected for the minor’s curriculum were chosen for their holistic perspective and interdisciplinary approach to environmental and natural resources studies. A number of the courses focus regionally on the environment of the Great Plains.

The 18-hour minor includes lower and upper division courses.

Foundations of Environmental Education
NRES 301 Environmental Communication Skills 3
NRES 434 / ENVR 434 Environmental Education and Interpretation 3
Credit Hours Subtotal: 6

Systems Approach to Earth and Ecological Processes
Select one of the following: 3
ENVR 201 Science, Systems, Environment and Sustainability
NRES 220 / BIOS 220 Principles of Ecology
Credit Hours Subtotal: 3

Learning Characteristics and Outdoor Leadership Experiences
Select three of the following: 3
ODED 100A Canoeing
ODED 100N Challenge Course: Instructor
ODED 107B Back-country Camping
ODED 109B Wilderness First Aid
ODED 110B Wilderness: First Responder
EDPS 250 Fundamentals of Child Development for Education 3
or EDPS 251 Fundamentals of Adolescent Development for Education

Credit Hours Subtotal: 6

Implementation of Outdoor Educational Experiences
Select one of the following: 3
SCIL 300 Experiential Learning in Food, Energy and Water Systems I
ENVR 495 Internship in Environmental Studies
ENVR 496 Independent Study
ENVR 499A & ENVR 499B Environmental Studies Senior Thesis I & II
Credit Hours Subtotal: 3

Total Credit Hours: 18

Society and the Environment Minor

The society and the environment minor will prepare students to contribute solutions for current and future local, regional, and global environmental challenges. Stewardship and the efficient, sustainable use of environmental, financial, and human resources will be the foundational concepts for this minor. More specifically, the educational component of this minor will provide students with explicit opportunities to engage in the community and develop skills sets to employ a systems approach to achieve a balance of economic development with the conservation of the earth’s natural system. This minor will be available to all University of Nebraska–Lincoln students upon approval of individual colleges.

Minor Description

The 18-credit-hour minor includes 9 credit hours of core courses. Each student chooses an additional 9 credit hours of elective courses from one of three tracks. These elective hours should include at least one 300 level and one 400-level course. Students and advisors need to be aware that prerequisites may be required for some courses. These need to be addressed during advising process.

Core Courses
ARCH 107 Sustainability Basics and the Built Environment (ACE 8) 3
ENVR 201 Science, Systems, Environment and Sustainability (ACE 8) 3
ENVR 319 Environmental Engagement and the Community 2
ENVR 495 Internship in Environmental Studies 1
Credit Hours Subtotal: 9

Elective Courses
Select one track of the following: 9

Track 1: Built Environment
Select 9 credits of the following:
LARC 200 / HORT 200 / GEOG 200 Landscape and Environmental Appreciation (ACE 7 & 9)
CIVE 326 / BSEN 326 Introduction to Environmental Engineering 1
ARCH 333 Building Environmental Technical Systems I 1
CONE 450 Sustainable Construction
CYAF 460 Human Dimensions of Sustainability (ACE 8)
NRES 409 / GEOG 409 Human Dimensions of Natural Resources
Credit Hours Subtotal: 9

Track 2: Community Development
Select 9 credits of the following:
AECN 376 Rural Community Economics 2
CRPL 400 Introduction to Planning (ACE 8)
CRPL 433 GIS in Environmental Design and Planning
CRPL 470 Environmental Planning and Policy
CRPL 471 Environmental Impact Assessment
CRPL 472 Hazard Mitigation Planning
CYAF 460 Human Dimensions of Sustainability (ACE 8)
LARC 200 / HORT 200 / GEOG 200 Landscape and Environmental Appreciation
NRES 409 / GEOG 409 Human Dimensions of Natural Resources
SOCI 346 Environmental Sociology

Track 3: Food, Environment, and the Landscape

Select 9 credits of the following:
ALEC 125 Land, Food and People (ACE 8)
HORT 429A / AGRO 429A / ANTH 429A / NUTR 429A / NRES 429A Food Security: A Global Perspective
AGRO 435    Agroecology (ACE 10)
HORT 326 / AGRO 326 / TLMT 326    Landscape Solutions ²
HORT 467 / ARCH 467 / LARC 467    Planting Design ²
HORT 470 / AGRO 470 / TLMT 470    Critical Thinking in Landscape Management ²
HORT 4XX TBA
AECN 346 World Food Economics (ACE 9) ²

Credit Hours Subtotal: 18

Total Credit Hours 18

1 Prerequisites required and need to be addressed during advising process—ARCH and ENGR.
2 Prerequisites required and need to be addressed during advising process.

Grade Rules
C- and D Grades
A grade of C or above is required for all courses in the minor.

Pass/No Pass
No course taken Pass/No Pass will be counted toward the minor.

ENVR 101 Environmental Studies Orientation
Description: A comprehensive overview of the discipline of Environmental Studies. Investigate current and critical environmental issues.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LEC

ENVR 109 Water in Society
Crosslisted with: SCIL 109, AECN 109, NRES 109, GEOG 109
Description: Introduction to the scientific, social, and economic dimensions of historical and contemporary water systems. Students will develop an understanding of hydrologic systems and analyze and engage in decision-making about complex challenges associated with water resource use.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Offered: FALL
ACE: ACE 4 Science ACE 8 Civic/Ethics/Stewardship

ENVR 189H University Honors Seminar
Prerequisites: Good standing in the University Honors Program or by invitation.
Notes: A University Honors Seminar 189H course is required of all students in the University Honors Program. ENVR 189H is 'Letter Grade Only'.
Description: Topics vary.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 8 Civic/Ethics/Stewardship

ENVR 201 Science, Systems, Environment and Sustainability
Crosslisted with: ENVR 201H
Description: Application of basic Earth system and ecosystem science concepts for understanding: natural systems; the relationships and interactions between the living and the non-living environment; current and future environmental challenges; the importance of considering scientific evidence and uncertainty; and the implementation of the sustainability concepts.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 8 Civic/Ethics/Stewardship

ENVR 201H Science, Systems, Environment and Sustainability
Crosslisted with: ENVR 201
Description: Application of basic Earth system and ecosystem science concepts for understanding: natural systems; the relationships and interactions between the living and the non-living environment; current and future environmental challenges; the importance of considering scientific evidence and uncertainty; and the implementation of the sustainability concepts.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 8 Civic/Ethics/Stewardship

ENVR 249 Individual and Cultural Perspectives on the Environment
Crosslisted with: NRES 249
Description: The influence of culture on individual perspectives related to the concepts of sustainability and the relationship that humans have with the environment. The role of ethics, religion, and historical setting on the individual and cultural perspectives related to environmental challenges at the local to global scales.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 8 Civic/Ethics/Stewardship

ENVR 319 Environmental Engagement and the Community
Description: The processes of environmental agencies and organizations use to develop and implement projects and programs. The development of their project proposal, work plans, budgets, and final report. ENVR 319 requires developing and implementing projects and programs in collaboration with clients who are from agencies and organizations working with environmental issues.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

ENVR 334 Psychology of Environmental Sustainability
Crosslisted with: PSYC 334
Description: Applications of psychological principles to understand human transactions with their environments and find behavior-based solutions to environmental problems.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 8 Civic/Ethics/Stewardship
ENVR 434 Environmental Education and Interpretation
Crosslisted with: NRES 434, NRES 834
Description: Examination of formal and informal environmental education and interpretation. Knowledge, application and practice relevant to science teachers and park, extension, museums, and zoo educators. Requires 20 hours of service.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ENVR 491 Environmental Studies Seminar
Prerequisites: Senior standing; ENVR major or minor
Description: Topic varies.
Credit Hours: 1-3
Min credits per semester: 1
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ENVR 495 Internship in Environmental Studies
Description: Experience in off-campus setting that is directly relevant to environmental studies.
Credit Hours: 1-4
Min credits per semester: 1
Max credits per semester: 4
Max credits per degree: 12
Format: IND

ENVR 496 Independent Study
Credit Hours: 1-4
Min credits per semester: 1
Max credits per semester: 4
Max credits per degree: 12
Format: IND

ENVR 499A Environmental Studies Senior Thesis I
Prerequisites: Junior standing; environmental studies major or minor; prior arrangement with program director and emphasis adviser or academic adviser
Description: Preparation for writing the senior thesis. First course of a two-semester sequence of courses consisting of ENVR 499A and 499B.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LEC
Prerequisite for: ENVR 499B
ACE: ACE 10 Integrated Product

ENVR 499B Environmental Studies Senior Thesis II
Prerequisites: Must have enrolled in ENVR 499A (Senior Thesis I) to enroll in ENVR 499B (Senior Thesis II)
Description: Second course of a two-semester sequence of courses consisting of ENVR 499A and 499B. The thesis is to be written under the supervision of the emphasis adviser or a faculty member designated by the adviser. A committee of two (the faculty member guiding the thesis and an additional member with expertise in the topic) will review the thesis.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: IND
ACE: ACE 10 Integrated Product

ENVR 499H Honors: Environmental Studies Senior Thesis I & II
Description: Preparation for writing the senior thesis.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: IND
ACE: ACE 10 Integrated Product

PLEASE NOTE
This document represents a sample 4-year plan for degree completion with this major. Actual course selection and sequence may vary and should be discussed individually with your college or department academic advisor. Advisors also can help you plan other experiences to enrich your undergraduate education such as internships, education abroad, undergraduate research, learning communities, and service learning and community-based learning.

Career Information
The following represents a sample of the internships, jobs and graduate school programs that current students and recent graduates have reported.

Jobs of Recent Graduates
• Environmental Scientist, Terracon Consultants, Inc. - Omaha NE
• Corps Member, Montana Conservation Corps - Bozeman MT
• Volunteer, Peace Corps - Washington DC DC
• Wildland Firefighter, United States Forest Service - Kalispell MT
• Greenhouse Assistant, Urban Trail Gardens - Lincoln NE
• More...
  • Sustainability Associate, Cleaner Greener Lincoln - Lincoln NE
  • Project Coordinator, Lincoln-Lancaster County Health Dept - Lincoln NE
  • Assistant Brewer, Blue Mountain Brewery - Arrington VA
  • National Drought Mitigation Center, University of Nebraska-Lincoln - Lincoln NE
  • Wildlife Technician, Nebraska Invasive Species Project - Lincoln NE

Internships
• Integrated Water Management Planner Assistant, Nebraska Dept of Natural Resources - Lincoln NE
• Biological Technician, USDA-AMRU - Lincoln NE
• Natural Resource Intern, JEO Consulting - Lincoln NE
• Pathways Intern, USDA Natural Resources Conservation Service - Lincoln NE
• Integrated Management Technical Assistant, NE Dept of Natural Resources - Lincoln NE
• More...
  • Environmental Health Waste Section Intern, Lincoln-Lancaster County Health Dept - Lincoln NE
  • Intern, Olsson Associates - La Vista NE
  • Crime Analysis, Lincoln Police Department - Lincoln NE
  • Project Manager Assistant Intern, Ll-COR Biosciences - Lincoln NE
  • Waste Section Intern, Lancaster County Health Department - Lincoln NE
Grad Schools

- Masters in Natural Resources, University of Nebraska-Lincoln -
- Masters in Community and Regional Planning, University of Nebraska-Lincoln - Lincoln NE
- J.D. College of Law, University of Nebraska-Lincoln - Lincoln NE
- Master of Agronomy-Plant Pathology, University of Nebraska-Lincoln - Lincoln NE
- Environmental Science and Policy, Indiana University - Bloomington IN
- More...
  - MS of Energy, Technology, Policy, Humboldt State University - Arcata CA
  - M.S. in Environmental Policy, University of Michigan - Ann Arbor MI
  - MA Geography, University of Nebraska-Lincoln - Lincoln NE
  - Masters of Public Health, University of Nebraska Medical Center - Omaha NE
  - Water Biogeochemistry, University of Nebraska-Lincoln - Lincoln NE
