MECHANIZED SYSTEMS MANAGEMENT

Description
Website: http://msym.unl.edu

The mechanized systems management (MSYM) major prepares students for delivery, management, and technical support of engineered systems for agriculture, food, energy, and water. Students will develop technical, systems analysis, and management skills. This major is ideal for students interested in working with machinery and equipment systems from a practical perspective. The MSYM program includes hands-on course work in power and machinery systems, processing and handling equipment, and sensors and controls combined with coursework in business, management, agriculture, and natural sciences that prepares students for a wide range of careers in a variety of industries related to agriculture, food, energy, and water. The program offers four options for specialization: production, technical, business and processing operations.

Students in the MSYM major benefit from small classes and personalized faculty advising. Students have the opportunity to work part-time in the Nebraska Tractor Test Laboratory and numerous departmental research projects. Students are encouraged to participate in student clubs such as the Mechanized Systems Management Club, the Tractor Restoration Club, and the UNL Quarter Scale Tractor Team.

College Requirements

College Admission
Requirements for admission into the College of Agricultural Sciences and Natural Resources (CASNR) are consistent with general University admission requirements (one unit equals one high school year): 4 units of English, 4 units of mathematics, 3 units of natural sciences, 3 units of social studies, and 2 units of foreign language. Students must also meet performance requirements (ACT composite of 20 or higher OR combined SAT score of 950 or higher OR rank in the top one-half of graduating class; transfer students must have a 2.0 (on a 4.0 scale) cumulative grade point average and 2.0 on the most recent term of attendance. For students entering the PGA Golf Management degree program, a certified golf handicap of 12 or better (e.g., USGA handicap card) or written ability (MS Word file) equivalent to a 12 or better handicap by a PGA professional or high school golf coach is required. For more information, please visit: http://pgm.unl.edu/requirements.

Admission Deficiencies/Removal of Deficiencies
Students who are admitted to CASNR with core course deficiencies must remove these deficiencies within the first 30 credit hours at UNL, or within the first calendar year at UNL, whichever takes longer, excluding foreign languages. Students have up to 60 credit hours to remove foreign language deficiencies. College-level course work taken to remove deficiencies may be used to meet degree requirements in CASNR.

Deficiencies in the required entrance subjects can be removed by completion of specified courses in the University or by correspondence.

The Office of Admissions, Alexander Building (south entrance), City Campus, provides information to new students on how deficiencies can be removed.

College Degree Requirements

Curriculum Requirements
The curriculum requirements of the College consist of three areas: ACE (Achievement-Centered Education); College of Agricultural Sciences and Natural Resources Core; and Degree Program requirements and electives. All three areas of the College Curriculum Requirements are incorporated within the description of the Major/Degree Program sections of the catalog. The individual major/degree program listings of classes insures that a student will meet the minimum curriculum requirements of the College.

Foreign Languages/Language Requirement
Two units of a foreign language are required. This requirement is usually met with two years of high school language.

Minimum Hours Required for Graduation
The College grants the bachelors degree in programs associated with agricultural sciences, natural resources and related programs. Students working toward a degree must earn at least 120 semester hours of credit. A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation.

Grade Rules
Removal of C-, D and F Grades
Only the most recent letter grade received in a given course will be used in computing a student's cumulative grade point average if the student has completed the course more than once and previously received a grade or grades below C in that course.

The previous grade (or grades) will not be used in the computation of the cumulative grade point average, but it will remain a part of the academic record and will appear on any transcript.

A student can remove from his/her cumulative average a course grade of C-, D+, D, D- or F if the student repeats the same course at the University of Nebraska and receives a grade other than P (pass), I (incomplete), N (no pass), W (withdrew), or NR (no report). If a course is no longer being offered, it is not eligible for the revised grade point average computation process.

For complete procedures and regulations, see the Office of the University Registrar website at http://www.unl.edu/regrec/course-repeats.

Pass/No Pass
Students in CASNR may take any course offered on a Pass/No Pass basis within the 24-hour limitation established by the Faculty Senate. However, a department may specify that the Pass/No Pass status of its courses be limited to non-majors or may choose to offer some courses for letter grades only.

GPA Requirements
A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation.

Transfer Credit Rules
To be considered for admission, a transfer student, Nebraska resident or nonresident, must have an accumulated average of C (2.0 on a 4.0 scale) and a minimum C average in the last semester of attendance at another college. Transfer students who have completed less than 12 credit hours of college study must submit either ACT or SAT scores.
Ordinarily, credits earned at an accredited college are accepted by the University. The College, however, will evaluate all hours submitted on an application for transfer and reserves the right to accept or reject any of them. Sixty is the maximum number of hours UNL will accept on transfer from a two-year college. Ninety is the maximum number of hours UNL will accept from a four-year college. Transfer credit in the degree program must be approved by the degree program advisor on a Request for Substitution Form to meet specific course requirements, group requirements, or course level requirements in the major. At least 9 hours in the major field, including the capstone course, must be completed at UNL regardless of the number of hours transferred.

The College will accept no more than 10 semester hours of C-, D+, D and D- grades from other schools. The C-, D+, D and D- grades can only be applied to free electives. This policy does not apply to the transfer of grades from UNO or UNK to UNL.

Joint Academic Transfer Programs
The College of Agricultural Sciences and Natural Resources has agreements with many institutions to support joint academic programs. The transfer programs include dual degree programs and cooperative degree programs. Dual degree programs offer students the opportunity to receive a degree from a participating institution and also to complete requirements for a bachelor of science degree in CASNR. Cooperative programs result in a single degree from either UNL or the cooperating institution.

Dual Degree Programs
A to B Programs
The A to B Program, a joint academic program offered by the CASNR and participating community colleges, allows students to complete the first two years of a degree program at the participating community college and continue their education and study in a degree program leading toward a bachelor of science degree.

The A to B Program provides a basic knowledge plus specialized course work. Students transfer into CASNR with junior standing.

Depending on the community college, students enrolled in the A to B Program may complete the requirements for an associate of science at the community college, transfer to UNL, and work toward a bachelor of science degree.

Participating community colleges include:
- Central Community College
- Metropolitan Community College
- Mid-Plains Community College
- Nebraska College of Technical Agriculture
- Northeast Community College
- Southeast Community College
- Western Nebraska Community College

3+2 Programs
Two specialized degree programs in animal science and veterinary science are offered jointly with an accredited college or school of veterinary medicine. These two programs permit CASNR animal science or veterinary science students to receive a bachelor of science degree from UNL with a degree in animal science or veterinary science after successfully completing two years of the professional curriculum in veterinary medicine at an accredited veterinary school. Students who successfully complete the 3+2 Program, must complete the “Application for Degree” form and provide transcripts to the Credentials Clerk, Office of the University Registrar, 107 Canfield Administration Building, UNL. Students should discuss these degree programs with their academic advisor.

Cooperative Degree Programs
Academic credit from UNL and a cooperating institution is applied towards a four-year degree from either UNL (UNL degree-granting program) or the cooperating institution (non UNL degree-granting program). All have approved programs of study.

UNL Degree-Granting Programs
A UNL degree-granting program is designed to provide students the opportunity to complete a two-year program of study at one of the four-year institutions listed below, transfer to CASNR and complete the requirements for a bachelor of science degree.

Chadron State College. Chadron State College offers a 2+2 program leading to a grassland ecology and management degree program and a transfer program leading to a Bachelor of Science in Agricultural Education in the teaching option.

Wayne State College. Wayne State College offers a 3+1 program leading to a Bachelor of Science in Plant Biology in the ecology and management option.

University of Nebraska at Kearney. Transfer programs are available for students pursuing degree programs leading to a bachelor of science degree.

University of Nebraska at Omaha. The University of Nebraska at Omaha (UNO) cooperates with CASNR in providing four-semester pre-agricultural sciences, pre-natural resources, pre-food science and technology, pre-horticulture and pre-turfgrass and landscape management transfer programs.

A student enrolled in these programs may transfer all satisfactorily completed academic credits identified in the suggested program of study, and enter CASNR to study toward a degree program leading to a bachelor of science degree. The total program would require a minimum of four years or eight semesters (16 credit hours/semester or 120 credit hours).

UNL CASNR faculty teach horticulture and food science and technology courses at UNO to assist an urban population in better understanding the food processing, horticulture, and landscape horticulture industries.

For more information, contact the CASNR Dean’s Office, 800-472-8800, ext. 2541.

Non UNL Degree-Granting Programs
The CASNR cooperates with other institutions to provide course work that is applied towards a degree at the cooperating institution. Pre-professional programs offered by CASNR allow students to complete the first two or three years of a degree program at UNL prior to transferring and completing a degree at the cooperating institution.

Chadron State College—Range Science. The 3+1 Program in range science allows Chadron State College students to pursue a range science degree through Chadron State College. Students complete three years of course work at Chadron State College and one year of specialized range science course work (32 credit hours) at CASNR.

Dordt College (Iowa) — Agricultural Education: Teaching Option. This program allows students to pursue an Agricultural Education Teaching Option degree leading toward a bachelor of science in agricultural

Mid-Plains Community College
Central Community College
Southeast Community College
Metropolitan Community College
Wayne State College
University of Nebraska at Omaha
education. Students at Dordt College will complete 90 credit hours in the Agricultural Education: Teaching Option Transfer Program.

Residency
Students must complete at least 30 of the total hours for their degree using UNL credits. At least 18 of the 30 credit hours must be in courses offered through CASNR \(^1\) (e.g., LIFE, MBIO, ENVR, SCIL, EAEP, HRTM, ENSC) and CASNR crosslisted courses taught by non-CASNR faculty.

Online and Distance Education
There are many opportunities to earn college credit online through the University of Nebraska—Lincoln. Some of these credits may be applicable not only as elective credits, but also toward the fulfillment of the College’s education requirements. Credits earned online may count toward residency. However, certain offerings may not be counted toward scholarship requirements or academic recognition criteria.

For further information, contact:
Office of Online and Distance Education
University of Nebraska—Lincoln
305 Brace Labs
Lincoln, NE 68588-0109
402-472-4681
http://online.unl.edu/

Independent Study Rules
Students wishing to take part in independent studies must obtain permission; complete and sign a contract form; and furnish copies of the contract to the instructor, advisor, departmental office, and the Dean’s Office. The contract should be completed before registration. Forms are available in 103 Agricultural Hall or online at the CASNR website.

Independent study projects include research, literature review or extension of course work under supervision and evaluation of a departmental faculty member.

Students may only count 12 hours of independent study toward their degrees and no more than 6 hours can be counted during their last 36 hours earned, excluding senior thesis, internships, and courses taught under an independent study number.

Other College Degree Requirements

Capstone Course Requirement
A capstone course is required for each CASNR degree program. A capstone course is defined as a course in which students are required to integrate diverse bodies of knowledge to solve a problem or formulate a policy of societal importance.

ACE Requirements
All students must fulfill the Achievement Centered Education (ACE) requirements. Information about the ACE program may be viewed at www.ace.unl.

The minimum requirements of CASNR reflect the common core of courses that apply to students pursuing degrees in the college. Students must work with an advisor to satisfy ACE outcomes 1, 2, 3, 4, 6 and 10 with the college requirements.

Catalog Rule
Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted to UNL or when they were first admitted to a Joint Academic Transfer Program. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at UNL in the College of Agricultural Sciences and Natural Resources. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Learning Outcomes
Majors in mechanized systems management will be able to:

1. Apply hands-on technical skills and knowledge from the natural and social sciences, technology, engineering, and mathematics to analyze and manage mechanized systems relevant to agriculture, food, energy, and water.
2. Identify the structure, layout and function of mechanized systems including the relationships between individual components of a system.
3. Evaluate a system critically by defining a problem, assimilating information, conducting an analysis, and making technical and economic recommendations to improve performance of the system while accounting for potential social and environmental impacts.
4. Develop professional written and oral reports to describe a mechanized system and communicate an analysis of the system that includes objectives, methods, results and recommendations.

**Technical Option**

The technical option is for students interested in hands-on technical careers such as test engineers, product support specialists, and service managers. This option integrates course work in mechanized systems management with additional course work in engineering. This option will also prepare students for graduate study.
MSYM 465 / FDST 465 Food Engineering Unit Operations 3

Processing Electives
Select 7-9 credits of the following: 7-9
- AGRO 438 Producing Grain for Animal, Food and Industrial Uses
- ASCI 410 Processed Meats
- ENSC 220 Introduction to Energy Systems
- FDST 205 Food Composition and Analysis
- FDST 372 / NUTR 372 Food Safety and Sanitation
- FDST 403 Food Quality Assurance
- FDST 412 Cereal Technology
- FDST 420 Fruit and Vegetable Technology
- FDST 429 Dairy Products Technology
Credit Hours Subtotal: 31-37
Total Credit Hours 31-37

Electives
Students can select 9 credit hours of personal development electives. These electives can be used to foster greater understanding of a topic of interest, to develop an inherent skill, or to pursue a minor.

Requirements for Minor Offered by Department
12-Credit-Hour Mechanized Systems Management Minor
- A minimum of 12 credit hours of mechanized systems management course work at the 300 level or above.

18-Credit-Hour Mechanized Systems Management Minor
- A minimum of 18 credit hours of mechanized systems management course work (excluding MSYM 109 Physical Principles in Agriculture and Life Sciences and MSYM 162 Introduction to Mechanized Systems Management) with at least 9 credit hours at the 300 level or above.

MSYM 109 Physical Principles in Agriculture and Life Sciences
Prerequisites: MATH 101 or 103 with a grade of C or better completed within the last 11 months; or, placement in MATH 102 or 104 (or higher) within the last 11 months
Notes: Students cannot receive credit for both MSYM 109 and any one of the following: PHYS 141, 151 or 211.
Description: Fundamental principles of mechanics, heat, electricity, magnetism and electromagnetism and their relationship to energy utilization and conservation. Principles then applied to problem situations in agriculture and life sciences.
Credit Hours: 4
Max credits per semester: 4
Max credits per degree: 4
Format: LEC
Prerequisite for: MSYM 109L; MSYM 232; MSYM 262; MSYM 452, MSYM 852, WATS 452, AGRO 452
ACE: ACE 4 Science

MSYM 109L Physical Principles in Agriculture and Life Sciences Laboratory
Prerequisites: MSYM 109 or parallel, or PHYS 151
Description: Laboratory experiments on mechanics, heat, electricity, magnetism and electromagnetism and their relationship to energy utilization and conservation in agriculture and life sciences.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LAB

MSYM 162 Introduction to Mechanized Systems Management
Description: Basic principles of describing and evaluating mechanized systems relevant to agriculture, food, energy, and water. Problem solving using systems-thinking. Exploration of major and career opportunities. Academic success and planning.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LEC

MSYM 232 Power and Machinery Principles
Prerequisites: MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211
Description: Operational characteristics of IC engines, field, materials-handling, and processing machines and their components. Includes analyses, estimations, and objective comparisons of performance; principles for adjustment and calibration of metering systems; and cost-effective sizing of machines. Exercises include using ASABE Standards and available reports of machine performance (tractor test reports, etc.).
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

MSYM 245 Electrical Service Systems
Prerequisites: MSYM 109 or high school physics.
Description: Utilization of electric energy in agricultural production, processing, and residential applications. Wiring installations; selection of safe and adequate circuit devices; service equipment and conductors; and electric motors and their control; and energy management.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

Prerequisite for: MSYM 416

MSYM 262 Problem Solving in Mechanized Systems Management
Prerequisites: MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211.
Notes: Open to MSYM majors only.
Description: Use of computational tools to solve problems relevant to mechanized systems management. Professional communication of technical information. Discussion of current and emerging issues relevant to the major.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LEC
Offered: SPRING
MSYM 299 Career Experiences  
**Prerequisites:** Permission and advanced approval of plan or work.  
**Description:** Student participation in physical systems applications. May include participation in mechanization-related areas of agribusiness, production practices, and processing operations; research in laboratory, greenhouse and field; or preparation of teaching materials.  
**Credit Hours:** 1-5  
**Min credits per semester:** 1  
**Max credits per semester:** 5  
**Max credits per degree:** 12  
**Format:** IND

MSYM 312 Engine Power Systems  
**Prerequisites:** MSYM 109 or general physics.  
**Description:** Internal combustion engine power systems used in agriculture with primary emphasis on power needs for both mobile and fixed operations, characteristics of power sources and energy resources, and selection and use of power units.  
**Credit Hours:** 3  
**Min credits per semester:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC

MSYM 342 Animal Housing Systems  
**Prerequisites:** MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211  
**Description:** Production facilities for livestock and poultry will be developed with emphasis on building and feedlot layout, ventilation, heating and cooling systems; energy utilization; and construction materials and methods.  
**Credit Hours:** 3  
**Min credits per semester:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC  
**Offered:** FALL

MSYM 352 Animal Housing Systems  
**Prerequisites:** MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211  
**Description:** Production facilities for livestock and poultry will be developed with emphasis on building and feedlot layout, ventilation, heating and cooling systems; energy utilization; and construction materials and methods.  
**Credit Hours:** 3  
**Min credits per semester:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC  
**Offered:** FALL

MSYM 354 Soil Conservation and Watershed Management  
**Crosslisted with:** SOIL 354, WATS 354  
**Prerequisites:** AGRO/SOIL 153; and MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211  
**Description:** Watershed hydrology, soil erosion, erosion control, water management, and land surveying and mapping. Includes rainfall-runoff relationships; determination of watershed characteristics; terraces, waterways, vegetative filters, and residue management; ponds, wetlands, non-point source pollution control, and water conservation; profile and topographic surveying.  
**Credit Hours:** 3  
**Min credits per semester:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC  
**Offered:** FALL

MSYM 363 Heat and Mass Transfer  
**Crosslisted with:** FDST 363  
**Prerequisites:** MATH 104 or 106; MSYM 109 or PHYS 141 or 151.  
**Description:** Fundamentals of food engineering including material and energy balances, fluid mechanics, heat transfer and mass transfer.  
**Credit Hours:** 3  
**Min credits per semester:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC

MSYM 364 Agricultural Products Processing and Handling  
**Prerequisites:** MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211  
**Description:** Analysis of processing and handling operations. Chemical and physical characteristics of agricultural products. Application of pyschometrics. Power requirements, capacities, and efficiencies of drying and conveying systems. Discussion of safety issues, logistics, and survey of industry technologies.  
**Credit Hours:** 3  
**Min credits per semester:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC  
**Offered:** SPRING

MSYM 395 Internship in Mechanized Systems Management  
**Prerequisites:** Junior standing.  
**Notes:** Completion of internship approval form is required. The internship proposal is subject to approval by the Department of Biological Systems Engineering. Pass/No Pass only.  
**Description:** Practical experience, directed learning, and career exploration and development in a selected business, industry, agency, or educational institution.  
**Credit Hours:** 1-3  
**Min credits per semester:** 1  
**Max credits per semester:** 3  
**Max credits per degree:** 5  
**Format:** FLD

MSYM 400A Occupational Safety  
**Prerequisites:** Junior standing  
**Description:** Identifies safety and health risks in industrial work environments. Focus on how managers and supervisors meet their responsibilities for providing a safe workplace for their employees. Includes the identification and remediation of workplace hazards. Online course offered by Iowa State University through the AG*IDEA consortium. Contact CASNR Distance Education Consortium Coordinator for course details, prerequisites and registration information.  
**Credit Hours:** 3  
**Min credits per semester:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** FLD

MSYM 400B Agricultural Safety and Health  
**Prerequisites:** Junior standing  
**Description:** Safety concepts, principles, practices, rules and regulations as they relate to agriculture will be explored. Developing and conducting safety programs, and conducting safety inspections and accident investigations are other aspects of the course. Online course offered by University of Missouri through the AG*IDEA consortium. Contact CASNR Distance Education Consortium Coordinator for course details, prerequisites and registration information.  
**Credit Hours:** 3  
**Min credits per semester:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC
MSYM 400E Biorenewable Systems Technology

**Description:** The science, engineering, economics and business of converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, economics, transportation and logistics, and marketing. Online course offered by Iowa State University through the AG*IDEA consortium. Contact CASNR Distance Education Consortium Coordinator for course details, prerequisites and registration information.

**Credit Hours:** 3

**Max credits per semester:** 3

**Max credits per degree:** 3

**Format:** LEC

MSYM 400J Machinery Management Using Precision Agriculture Technology

**Prerequisites:** Junior standing or instructor permission

**Description:** Management of agricultural equipment that is commonly used in conjunction with GPS technology such as planters, combines, fertilizer application equipment, and sprayer application equipment. Online course offered by University of Missouri through the AG*IDEA consortium. Contact CASNR Distance Education Consortium Coordinator for course details, prerequisites and registration information.

**Credit Hours:** 3

**Max credits per semester:** 3

**Max credits per degree:** 3

**Format:** LEC

MSYM 400K Chemical Application Systems

**Description:** Systems, components, operation practices, and safety procedures used in the chemical application industry. Liquid and granular application systems and respective components will be studied along with procedures for equipment sizing and maintenance, minimizing drift, system calibration, and safe handling-transportation-storage-disposal and spill clean-up of agrichemicals. Online course offered by Kansas State University through the AG*IDEA consortium. Contact CASNR Distance Education Consortium Coordinator for course details, prerequisites and registration information.

**Credit Hours:** 2

**Max credits per semester:** 2

**Max credits per degree:** 2

**Format:** LEC

MSYM 412 Hydraulic Power Systems

**Prerequisites:** MSYM 245

**Description:** Theory and application of fluids under controlled pressure to perform work in mobile and industrial applications. Positive displacement (PD) pumps, linear and rotary hydraulic actuators (hydraulic cylinders and motors), valves, and electric over hydraulic systems will be studied in detail. Fluid power circuit development on both hydraulic benches and computer simulated environments will be performed with emphasis on circuit analysis, and system troubleshooting.

**Credit Hours:** 3

**Max credits per semester:** 3

**Max credits per degree:** 3

**Format:** LEC

**Offered:** SPRING

MSYM 416 Sensors and Control Systems for Agri-Industries

**Prerequisites:** MSYM 245 or permission.

**Description:** Application of sensors for measurement of process control variables and implementation of microcomputer-based measurement and control systems. Basic electrical and electronic instrumentation plus control of electrically, pneumatically and/or hydraulically powered systems.

**Credit Hours:** 3

**Max credits per semester:** 3

**Max credits per degree:** 3

**Format:** LEC

MSYM 431 Site-specific Crop Management

**Crosslisted with:** AGEN 431, AGRO 431

**Prerequisites:** Senior standing; AGRO/SOIL 153; AGRO 204; or permission.

**Description:** Principles and concepts of site-specific management. Evaluation of geographic information systems for crop production practices. Practical experience with hardware and software necessary for successful application of information affecting crop management.

**Credit Hours:** 3

**Max credits per semester:** 3

**Max credits per degree:** 3

**Format:** LEC

MSYM 433 Equipment and Tractor Testing

**Crosslisted with:** MSYM 833

**Prerequisites:** MSYM 232, and STAT 218 or STAT/MATH 380 or MECH 321

**Notes:** Offered spring semester in even-numbered calendar years.

**Description:** Principles and procedures involved in testing agricultural equipment and tractors. Actual test planned, scheduled, conducted and reported. Test may be based upon procedures used at the Nebraska Tractor Testing Laboratory or involve other equipment being used for research in the department.

**Credit Hours:** 3

**Max credits per semester:** 3

**Max credits per degree:** 3

**Format:** LEC

**Offered:** SPRING

MSYM 452 Irrigation Systems Management

**Crosslisted with:** MSYM 852, WATS 452, AGRO 452

**Prerequisites:** MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211

**Notes:** AGRO/SOIL 153 recommended.

**Description:** Irrigation management and the selection, evaluation, and improvement of irrigation systems. Includes soil-water measurement, crop water use, irrigation scheduling, irrigation efficiency, measurement of water flow, irrigation systems, groundwater and wells, pumping systems, applying chemicals with irrigation systems, and environmental and water resource considerations.

**Credit Hours:** 3

**Max credits per semester:** 3

**Max credits per degree:** 3

**Format:** LEC

**Offered:** FALL
MSYM 462 Equipment Systems
Crosslisted with: MSYM 862
Prerequisites: Senior standing in MYSM or permission
Notes: Capstone course.
Description: Team-based activities to evaluate equipment systems, make technical and economic recommendations, develop professional written and oral reports. Topics include equipment system performance and management, project scheduling and planning, cost estimation, reliability analysis, and risk assessment.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 10 Integrated Product

MSYM 465 Food Engineering Unit Operations
Crosslisted with: FDST 465, FDST 865, MSYM 865
Prerequisites: FDST/MSYM 363.
Description: Unit operations and their applications to food processing.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3

Format: LEC

MSYM 469 Bio-Atmospheric Instrumentation
Crosslisted with: AGRO 469, GEOG 469, HORT 407, METR 469, NRES 469, AGRO 869, GEOG 869, HORT 807, METR 869, MSYM 869, NRES 869
Prerequisites: Junior standing; MATH 106; 4 hrs physics; physical or biological science major.
Description: Discussion and practical application of principles and practices of measuring meteorological and related variables near the earth's surface including temperature, humidity, precipitation, pressure, radiation and wind. Performance characteristics of sensors and modern data collection methods are discussed and evaluated.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

Groups: Physical Geography

MSYM 475 Water Quality Strategy
Crosslisted with: NRES 475, NRES 875, SOCI 475, SOCI 875, SOIL 475, WATS 475, AGRO 475, AGRO 875, CIVE 475, CIVE 875, CRPL 475, CRPL 875, GEOL 475, GEOL 875, MSYM 875, POLS 475, POLS 875
Prerequisites: Senior standing or permission
Notes: Capstone course.
Description: Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 10 Integrated Product
Groups: American Government&Public Pol

MSYM 492 Special Topics in Mechanized Systems Management
Crosslisted with: MSYM 892
Prerequisites: Permission
Description: Subject matter in emerging areas of Mechanized Systems Management not covered in other courses within the curriculum. Topics, activities, and delivery methods vary.
Credit Hours: 1-6
Min credits per semester: 1
Max credits per semester: 6
Max credits per degree: 6
Format: LEC

MSYM 496 Principles and Problems in Mechanized Agriculture
Crosslisted with: MSYM 896
Prerequisites: 15 hours in MSYM or closely related area.
Description: Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.
Credit Hours: 3-6
Min credits per semester: 3
Max credits per semester: 6
Max credits per degree: 12
Format: IND

MSYM 499H Honors Thesis
Prerequisites: Admission to the University Honors Program and permission, AGRI 299H recommended.
Description: Conduct a scholarly research project and write a University Honors Program or undergraduate thesis.
Credit Hours: 3-6
Min credits per semester: 3
Max credits per semester: 6
Max credits per degree: 6
Format: IND

Please note
This document represents a sample 4-year plan for degree completion with this major. Actual course selection and sequence may vary and should be discussed individually with your college or department academic advisor. Advisors also can help you plan other experiences to enrich your undergraduate education such as internships, education abroad, undergraduate research, learning communities, and service learning and community-based learning.

Mechanized Systems Management - Business

15 HR TERM 1

College Course

Complete SCIL 101

3hr

SCIL 101 becomes critical to your success in the major if not completed by the second term of enrollment.
MSYM 109 becomes critical to your success in the major if not completed by the second term of enrollment.

**Mathematics**
complete MATH 102

**Mech Systems Mngt Core**
complete AGRO 153, MSYM162

Electives

recommend 1 or more courses

Recommended to take a Personal Development Elective this term.

Process Oper Option Reqs

complete 2 from MSYM 395, MSYM 400A, AECN 235

Complete AECN 325 and either MSYM 395 or 400A.

Processing Electives

complete 1 from AGRO 438, ASCI 410, ENSC 220, FDST 205, FDST 372, FDST 403, FDST 412, FDST 420, FDST 429

Core Course

complete BSEN 206

BSEN 206 becomes critical to your success in the major if not completed by the seventh term of enrollment.
### 15 HR TERM 1

**College Course**

- complete SCIL 101

SCIL 101 becomes critical to your success in the major if not completed by the second term of enrollment.

**ACE 4 Physics**

- complete MSYM 109, MSYM 109L

MSYM 109 becomes critical to your success in the major if not completed by the second term of enrollment.

**Mathematics**

- complete MATH 102

---

### 16 HR TERM 2

**Mech Systems Mngt Core**

- complete MSYM 162, AGRO 153

**16 HR TERM 3**

**ACE 4 Life Science**

- complete 1 from AGRO 131, AGRO 132, BIOS 101, BIOS 101L, LIFE 120, LIFE 120L

**ACE 6/8 Economics**

- complete ECON 211

**ACE 2 Oral Comm**

- complete 1 from COMM 209, COMM 286, JGEN 300

**Computer-Aided Design**

---

**Graduation Requirements**

1. Performance Measure: 2.00 GPA required for graduation.
2. ***Total Credits Applying Toward 120 Total Hours***

---

**Mechanized Systems Management - Production**

---

**Electives**

recommend 1 or more courses

---

Recommended to take a Personal Development Elective this term.

---

**ACE 1 Written Comm**

- complete 1 from ENGL 150, ENGL 151, JGEN 200

---

**ACE 5 Humanities**

- complete 1 from ACE5

---

**ACE 6/8 Economics**

- complete either AECN 141 or ECON 212
Mechanized Systems Management

15

complete BSEN 130

2hr

Mech Systems Mngt Core

complete MSYM 232

Mech Systems Mngt Elect

complete 1 from MSYM 342, MSYM 412, MSYM 431, MSYM 433, MSYM 452

3hr

Production Option Reqs

complete AECN 201, AECN 235

7hr

ACE 7 Arts

complete 1 from ACE7

3hr

ACE 9 Global/Human Divers

complete 1 from ACE9

3hr

16 HR TERM 4

ACE 3 Statistics

complete STAT 218

3hr

Production Option Reqs

complete AGRO 204

3hr

MSYM Problem Solving

complete MSYM 262

1hr

MSYM 262 becomes critical to your success in the major if not completed by the fourth term of enrollment.

Electives

recommend 1 or more courses

3hr

Recommended to take a Personal Development Elective this term.

Natural Science Electives

complete 1 from BIOS 103L, AGRO 215, ASCI 240, Any Astronomy Course, Any Biochemistry Course, Any Biological Science Course, Any Chemistry Course, Any Geography Course, Any Geology Course, LIFE 120, LIFE 120L, LIFE 121, LIFE 121L, Any Meteorology Course, Any Physics Course, BIOS 103L

4hr

Production Option Reqs

complete ASCI 250

3hr

Production Agri Electives

complete 1 from AGRO240, AGRO 269, AGRO 270, AGRO 340, AGRO 361, AGRO 366, AGRO 405, AGRO 426, AGRO 435, AGRO 439, AGRO 445, ASCI 210, ASCI 320, ASCI 330, ASCI 370, ASCI 451, ASCI 453, ASCI 455, ASCI 457, ASCI 485, ENTO 308, ENTO 412, Any Mechanized Systems Management Course at the 200 Level, Any Mechanized Systems Management Course at the 300 Level, Any Mechanized Systems Management Course at the 400 Level

2hr

recommend 1 or more courses

3hr

16 HR TERM 5

Mech Systems Mngt Core

complete MSYM 354

3hr
Recommended to take a Personal Development Elective this term.

**15 HR TERM 7**

**Mech Systems Mngt Core**
- Complete MSYM 416

**Production Agri Electives**

**Mech Systems Mngt Elect**
- Complete 1 from MSYM 342, MSYM 412, MSYM 431, MSYM 433, MSYM 452

**Electives**
- Recommend 1 or more courses

Recommended to take a Personal Development Elective this term.

**Core Course**
- Complete BSEN 206

BSEN 206 becomes critical to your success in the major if not completed by the seventh term of enrollment.

**12 HR TERM 8**

**ACE 10 Capstone.**
- Complete MSYM 462

**Mech Systems Mngt Elect**
- Complete 1 from MSYM 342, MSYM 412, MSYM 431, MSYM 433, MSYM 452

**Production Agri Electives**

**Graduation Requirements**
1. Performance Measure: 2.00 GPA required for graduation.
2. ***Total Credits Applying Toward 120 Total Hours***

**Mechanized Systems Management - Technical**
- Icon Legend: Critical

**15 HR TERM 1**

**College Course**
- Complete SCIL 101

SCIL 101 becomes critical to your success in the major if not completed by the second term of enrollment.

**ACE 4 Physics**
- Complete MSYM 109, MSYM 109L

MSYM 109 becomes critical to your success in the major if not completed by the second term of enrollment.

**Mathematics**
- Complete MATH 102

**Mech Systems Mngt Core**
- Complete AGRO 153, MSYM 162

**16 HR TERM 2**

**Mech Systems Mngt Core**
- Complete MSYM 245

**ACE 4 Chemistry**
complete CHEM 109

**ACE 6/8 Economics**
complete either AECN 141 or ECON 212

**ACE 1 Written Comm**
complete 1 from ENGL 150, ENGL 151, JGEN 200

**ACE 5 Humanities**
complete 1 from ACE5

**15 HR TERM 3**

**ACE 4 Life Science**
complete 2 from AGRO 131, AGRO 132, BIOS 101, BIOS 101L, LIFE 120, LIFE 120L

**ACE 2 Oral Comm**
complete 1 from COMM 209, COMM 286, JGEN 300

**ACE 6/8 Economics**
complete ECON 211

**Computer-Aided Design**
complete BSEN 130

**Mech Systems Mngt Core**
complete MSYM 232

**15 HR TERM 4**

**ACE 3 Statistics**
complete STAT 218

**ACE 7 Arts**
complete 1 from ACE7

**ACE 3 Mathematics**
complete MATH 106

**MSYM Problem Solving**
complete MSYM 262

MSYM 262 becomes critical to your success in the major if not completed by the fourth term of enrollment.

**Electives**
recommend 1 or more courses

Recommended to take a Personal Development Elective this term.

**12 HR TERM 5**

**Mech Systems Mngt Core**
complete MSYM 354

**ACE 9 Global/Human Divers**
complete 1 from ACE9

**Natural Science Electives**
complete 2 from BIOS 103L, AGRO 215, ASCI 240, Any Astronomy Course, Any Biochemistry Course, Any Biological Science Course, Any Chemistry Course, Any Geography Course, Any Geology Course, LIFE 120, LIFE 120L, LIFE 121, LIFE 121L, Any Meteorology Course, Any Physics Course, BIOS 103L

**15 HR TERM 6**

**Mech Systems Mngt Core**
complete MSYM 364

**Technical Option Reqs**
complete 2 from AGRO 204, ASCI 250, MSYM 412

Complete MSYM 412 and either AGRO 204 or ASCI 250.

**Technical Option Elective**

complete 1 from ARCH 331, CNST 305, ENSC 220, MSYM 342, MSYM 431, MSYM 452

---

**Electives**

recommend 1 or more courses

Recommended to take a Personal Development Elective this term.

---

**15 HR TERM 7**

**Mech Systems Mngt Core**

complete MSYM 416

---

**Management Electives**

complete 1 from AECN 316, MNGT 300, MNGT 361, SCMA 331

---

**Technical Option Reqs**

complete either MSYM 395 or MSYM 400A

---

**Technical Option Elective**

complete 1 from ARCH 331, CNST 305, ENSC 220, MSYM 342, MSYM 431, MSYM 452

---

**Core Course**

complete BSEN 206

---

BSEN 206 becomes critical to your success in the major if not completed by the seventh term of enrollment.

---

**15 HR TERM 8**

**ACE 10 Capstone.**

recommend 1 or more courses

---

**Career Information**

The following represents a sample of the internships, jobs and graduate school programs that current students and recent graduates have reported.

**Jobs of Recent Graduates**

- Operations Management LDP, Ardent Mills - Kenosha WI
- Operations Supervisor, Cargill - Nebraska City NE
- Production Supervisor, Land O'Lakes - Harrisburg PA
- Operations Management, Union Pacific - Lincoln NE
- Ag Services Operations Management, Archer Daniels Midland - Fremont NE
- Technical Product Support Specialist, Orthman Manufacturing - Lexington NE
- Marketing Representative - Product Support, John Deere - Waterloo IA
- Field Test Engineer, AGCO Corporation - Hesston KS
- Ag Specialist, JR Simploff Company - Scottsbluff NE
- Product Support Technician, Lindsay Manufacturing - Lindsay NE

**Internships**

- Ag Services Operations Intern, ADM Grain - Corpus Christi TX
- Marketing Intern, John Deere - Urbandale IA
- Operations Intern, Dow AgroSciences - York NE
- Product Support Intern, John Deere - Ottumwa IA
- Operations Intern, ConAgra Foods - Hastings MN
- Agronomy/Crop Scout Intern, DuPont Pioneer -
• Test Engineer Assistant, Global Industries - Grand Island NE
• Equipment Testing Technician, CLAAS -
• Plant Operations, Scoular - Omaha NE
• Engineering Test Lab Intern, Exmark Manufacturing - Beatrice NE

Grad Schools
• M.S. Agricultural Biological Engineering, Purdue University - West Lafayette IN
• M.S. Mechanized Systems Management, University of Nebraska-Lincoln - Lincoln NE
• M.S. Agricultural Biological Systems Engineering, University of Nebraska-Lincoln - Lincoln NE
• Ph.D. Engineering, Purdue University - Richmond IN
• Ph.D. Engineering, University of Nebraska-Lincoln - Lincoln NE
