MECHANIZED SYSTEMS MANAGEMENT

Description
Website: http://msym.unl.edu

The mechanized systems management (MSYM) major prepares students for delivery, management, and technical support of engineered systems for agriculture, food, energy, and water. Students will develop technical, systems analysis, and management skills. This major is ideal for students interested in working with machinery and equipment systems from a practical perspective. The MSYM program includes hands-on course work in power and machinery systems, processing and handling equipment, and sensors and controls combined with course work in business, management, agriculture, and natural sciences that prepares students for a wide range of careers in a variety of industries related to agriculture, food, energy, and water. The program offers four options for specialization: production, technical, business and processing operations.

Students in the MSYM major benefit from small classes and personalized faculty advising. Students have the opportunity to work part-time in the Nebraska Tractor Test Laboratory and numerous departmental research projects. Students are encouraged to participate in student clubs such as the Mechanized Systems Management Club, the Tractor Restoration Club, and the University of Nebraska-Lincoln Quarter Scale Tractor Team.

College Requirements

College Admission

Requirements for admission into the College of Agricultural Sciences and Natural Resources (CASNR) are consistent with general University admission requirements (one unit equals one high school year): 4 units of English, 4 units of mathematics, 3 units of natural sciences, 3 units of social studies, and 2 units of foreign language. Students must also meet performance requirements (ACT composite of 20 or higher OR combined SAT score of 950 or higher OR rank in the top one-half of graduating class; transfer students must have a 2.0 (on a 4.0 scale) cumulative grade point average and 2.0 on the most recent term of attendance. For students entering the PGA Golf Management degree program, a certified golf handicap of 12 or better (e.g., USGA handicap card) or written ability (MS Word file) equivalent to a 12 or better handicap by a PGA professional or high school golf coach is required. For more information, please visit: http://pgm.unl.edu/requirements.

Admission Deficiencies/Removal of Deficiencies

Students who are admitted to CASNR with core course deficiencies must remove these deficiencies within the first 30 credit hours at the University of Nebraska–Lincoln, or within the first calendar year at Nebraska, whichever takes longer, excluding foreign languages. Students have up to 60 credit hours to remove foreign language deficiencies. College-level course work taken to remove deficiencies may be used to meet degree requirements in CASNR.

Deficiencies in the required entrance subjects can be removed by completion of specified courses in the University or by correspondence.

The Office of Admissions, Alexander Building (south entrance), City Campus, provides information to new students on how deficiencies can be removed.

College Degree Requirements

Curriculum Requirements

The curriculum requirements of the College consist of three areas: ACE (Achievement-Centered Education); College of Agricultural Sciences and Natural Resources Core; and Degree Program requirements and electives. All three areas of the College Curriculum Requirements are incorporated within the description of the Major/Degree Program sections of the catalog. The individual major/degree program listings of classes insures that a student will meet the minimum curriculum requirements of the College.

Foreign Languages/Language Requirement

Two units of a foreign language are required. This requirement is usually met with two years of high school language.

Minimum Hours Required for Graduation

The College grants the bachelors degree in programs associated with agricultural sciences, natural resources and related programs. Students working toward a degree must earn at least 120 semester hours of credit. A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation. Some degree programs have a higher cumulative grade point average required for graduation. Please check the degree program on its graduation cumulative grade point average.

Grade Rules

Removal of C-, D and F Grades

Only the most recent letter grade received in a given course will be used in computing a student's cumulative grade point average if the student has completed the course more than once and previously received a grade or grades below C in that course.

The previous grade (or grades) will not be used in the computation of the cumulative grade point average, but it will remain a part of the academic record and will appear on any transcript.

A student can remove from his/her cumulative average a course grade of C-, D+, D, D- or F if the student repeats the same course at the University of Nebraska and receives a grade other than P (pass), I (incomplete), N (no pass), W (withdrawn), or NR (no report). If a course is no longer being offered, it is not eligible for the revised grade point average computation process.

For complete procedures and regulations, see the Office of the University Registrar website at http://www.unl.edu/regrec/course-repeats.

Pass/No Pass

Students in CASNR may take any course offered on a Pass/No Pass basis within the 24-hour limitation established by the Faculty Senate. However, a department may specify that the Pass/No Pass status of its courses be limited to non-majors or may choose to offer some courses for letter grades only.

GPA Requirements

A minimum cumulative grade point average of C (2.0 on a 4.0 scale) must be maintained throughout the course of studies and is required for graduation. Some degree programs have a higher cumulative grade point average required for graduation. Please check the degree program on its graduation cumulative grade point average.

Transfer Credit Rules

To be considered for admission, a transfer student, Nebraska resident or nonresident, must have an accumulated average of C (2.0 on a 4.0 scale) and a minimum C average in the last semester of attendance at another
from the University of Nebraska–Lincoln with a degree in animal science or veterinary science students to receive a bachelor of science degree in veterinary medicine. These two programs permit CASNR animal science and veterinary science students to receive a bachelor of science degree.

Two specialized degree programs in animal science and veterinary science are offered jointly with an accredited college or school of veterinary medicine. These two programs permit CASNR animal science or veterinary science students to receive a bachelor of science degree from the University of Nebraska–Lincoln with a degree in animal science or veterinary science after successfully completing two years of the professional curriculum in veterinary medicine at an accredited veterinary school. Students who successfully complete the 3+2 Program, must complete the “Application for Degree” form and provide transcripts to the Credentials Clerk, Office of the University Registrar, 107 Canfield Administration Building. Students should discuss these degree programs with their academic advisor.

Cooperative Degree Programs
Academic credit from the University and a cooperating institution is applied towards a four-year degree from either the University of Nebraska–Lincoln (University degree-granting program) or the cooperating institution (non University degree-granting program). All have approved programs of study.

UNL Degree-Granting Programs
A University of Nebraska–Lincoln degree-granting program is designed to provide students the opportunity to complete a two-year program of study at one of the four-year institutions listed below, transfer to CASNR and complete the requirements for a bachelor of science degree.

Chadron State College. Chadron State College offers a 2+2 program leading to a grassland ecology and management degree program and a transfer program leading to a Bachelor of Science in Agricultural Education in the teaching option.

Wayne State College. Wayne State College offers a 3+1 program leading to a Bachelor of Science in Plant Biology in the ecology and management option.

University of Nebraska at Kearney. Transfer programs are available for students pursuing degree programs leading to a bachelor of science degree.

University of Nebraska at Omaha. The University of Nebraska at Omaha (UNO) cooperates with CASNR in providing four-semester pre-agricultural sciences, pre-natural resources, pre-food science and technology, pre-horticulture and pre-turfgrass and landscape management transfer programs.

A student enrolled in these programs may transfer all satisfactorily completed academic credits identified in the suggested program of study, and enter CASNR to study toward a degree program leading to a bachelor of science degree. The total program would require a minimum of four years or eight semesters (16 credit hours/semester or 120 credit hours).

Nebraska CASNR faculty teach horticulture and food science and technology courses at UNO to assist an urban population in better understanding the food processing, horticulture, and landscape horticulture industries.

For more information, contact the CASNR Dean’s Office, 800-472-8800, ext. 2541.

Non University of Nebraska–Lincoln Degree-Granting Programs
The CASNR cooperates with other institutions to provide course work that is applied towards a degree at the cooperating institution. Pre-professional programs offered by CASNR allow students to complete the first two or three years of a degree program at the University prior to transferring and completing a degree at the cooperating institution.

Chadron State College—Range Science. The 3+1 Program in range science allows Chadron State College students to pursue a range science degree through Chadron State College. Students complete three years of
course work at Chadron State College and one year of specialized range science course work (32 credit hours) at CASNR.

Dordt College (Iowa) – Agricultural Education: Teaching Option. This program allows students to pursue an Agricultural Education Teaching Option degree leading toward a bachelor of science in agricultural education. Students at Dordt College will complete 90 credit hours in the Agricultural Education: Teaching Option Transfer Program.

Residency
Students must complete at least 30 of the total hours for their degree using University of Nebraska—Lincoln credits. At least 18 of the 30 credit hours must be in courses offered through CASNR1 (≥299) including the appropriate ACE 10 degree requirement or an approved ACE 10 substitution offered through another Nebraska college and excluding independent study regardless of the number of hours transferred. Credit earned during education abroad may be used toward the residency requirement if students register through UNL and participate in prior-approved education abroad programs. University of Nebraska—Lincoln open enrollment and summer independent study courses count toward residency. However, certain offerings may not be counted toward scholarship requirements or academic recognition criteria.

For further information, contact:
Office of Online and Distance Education
University of Nebraska—Lincoln
305 Brace Labs
Lincoln, NE 68588-0109
402-472-4681
http://online.unl.edu/

Independent Study Rules
Students wishing to take part in independent studies must obtain permission; complete and sign a contract form; and furnish copies of the contract to the instructor, advisor, departmental office, and the Dean’s Office. The contract should be completed before registration. Forms are available in 103 Agricultural Hall or online at the CASNR website.

Independent study projects include research, literature review or extension of course work under supervision and evaluation of a departmental faculty member.

Students may only count 12 hours of independent study toward their degrees and no more than 6 hours can be counted during their last 36 hours earned, excluding senior thesis, internships, and courses taught under an independent study number.

Other College Degree Requirements
Capstone Course Requirement
A capstone course is required for each CASNR degree program. A capstone course is defined as a course in which students are required to integrate diverse bodies of knowledge to solve a problem or formulate a policy of societal importance.

ACE Requirements
All students must fulfill the Achievement Centered Education (ACE) requirements. Information about the ACE program may be viewed at www.ace.unl.

The minimum requirements of CASNR reflect the common core of courses that apply to students pursuing degrees in the college. Students should work with an advisor to satisfy ACE outcomes 1, 2, 3, 4, 6 and 10 with the college requirements.

Catalog Rule
Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted to the University of Nebraska—Lincoln or when they were first admitted to a Joint Academic Transfer Program. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at Nebraska in the College of Agricultural Sciences and Natural Resources. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Learning Outcomes
Majors in mechanized systems management will be able to:

1. Apply hands-on technical skills and knowledge from the natural and social sciences, technology, engineering, and mathematics to analyze and manage mechanized systems relevant to agriculture, food, energy, and water.
2. Identify the structure, layout and function of mechanized systems including the relationships between individual components of a system.
3. Evaluate a system critically by defining a problem, assimilating information, conducting an analysis, and making technical and economic recommendations to improve performance of the system while accounting for potential social and environmental impacts.
4. Develop professional written and oral reports to describe a mechanized system and communicate an analysis of the system that includes objectives, methods, results and recommendations.

### Mechanized Systems Management Electives

Select three of the following: 9

- MSYM 342 | Animal Housing Systems                             |              |
- MSYM 412 | Hydraulic Power Systems                            |              |
- MSYM 431 / AGEN 431 / AGRO 431 | Site-specific Crop Management                     |              |
- MSYM 433 | Equipment and Tractor Testing                      |              |
- MSYM 452 / AGRO 452 / WATS 452 | Irrigation Systems Management                     |              |

### Production Agriculture Electives

Select 8-11 hours from specified CASNR courses at 200 level or above 8-11

### Option Electives

Select 0-3 hours 0-3

- MSYM 395 | Internship in Mechanized Systems Management       |              |
- Business or agricultural economics course
Credit Hours Subtotal: 30-36
Total Credit Hours 30-36

1 Refer to degree audit or contact adviser for list of classes.

Business Option
The business option is for students interested in business-related careers such as marketing, sales, and management in agriculture and related industries. This option integrates course work in mechanized systems management with additional business courses. Students can easily pursue a business minor with this option.

Option Requirements
ACCT 200 Accounting for Business Decisions 3
AGRO 204 Resource-Efficient Crop Management 3
or ASCI 250 Animal Management
MATH 104 Applied Calculus 3

Mechanized Systems Management Electives
Select 9 hours of the following:

MSYM 342 Animal Housing Systems
MSYM 395 Internship in Mechanized Systems Management
MSYM 412 Hydraulic Power Systems
MSYM 431 / AGEN 431 / AGRO 431 Site-specific Crop Management
MSYM 452 / AGRO 452 / WATS 452 Irrigation Systems Management

Business Law Elective
Select one of the following:

AECN 256 Legal Aspects in Agriculture
AECN 357 / NREE 357 Natural Resource and Environmental Law
BLAW 300 Business, Government & Society

Finance Elective
AECN 452 Agricultural Finance 3
or FINA 300 Financial Decision Making

Marketing Elective
Select one of the following:

AECN 225 / EAEP 225 / MRKT 225 Agribusiness Entrepreneurship in Food Products Marketing
AECN 235 Introduction to Commodity Marketing
MRKT 300 Contemporary Marketing

Management Electives
Select two of the following:

AECN 201 Farm and Ranch Management
AECN 316 Agribusiness Management
MNGT 300 Management Essentials For Contemporary Organizations
MNGT 322 / ENTR 322 Family Business
MNGT 361 Human Resource Management

Credit Hours Subtotal: 33-34
Total Credit Hours 33-34

Technical Option
The technical option is for students interested in hands-on technical careers such as test engineers, product support specialists, and service managers. This option integrates course work in mechanized systems management with additional course work in engineering. This option will also prepare students for graduate study.

Option Requirements
Select one of the following:

AGRO 204 Resource-Efficient Crop Management
ASCI 250 Animal Management
ASCI 210 Animal Products
MATH 106 Calculus I 5
MSYM 395 Internship in Mechanized Systems Management 1-3
or MSYM 400A Occupational Safety
MSYM 412 Hydraulic Power Systems 3
MSYM 433 Equipment and Tractor Testing 3

Management Electives
Select two of the following:

AECN 316 Agribusiness Management
MNGT 300 Management Essentials For Contemporary Organizations
SCMA 331 Operations and Supply Chain Management
MNGT 361 Human Resource Management

Option Electives
Select four of the following:

ARCH 331 Structural Mechanics
ENSC 220 Introduction to Energy Systems
CNST 305 / ARCH 333 Building Environmental Technical Systems
MSYM 342 Animal Housing Systems
MSYM 431 / AGEN 431 / AGRO 431 Site-specific Crop Management
MSYM 452 / AGRO 452 / WATS 452 Irrigation Systems Management

Credit Hours Subtotal: 33-35
Total Credit Hours 33-35

Processing Operations Option
The processing operations option is for students interested in careers in operations management for food, feed, and fuel companies. This option integrates course work in mechanized systems management, with business, agricultural sciences, and food sciences. This option will also prepare students for graduate study.

Option Requirements
AGRO 437 Animal, Food and Industrial Uses of Grain 2
AECN 235 Introduction to Commodity Marketing 3
ASCI 210 Animal Products 3
MATH 104 Applied Calculus 3-5
or MATH 106 Calculus I
MSYM 395 Internship in Mechanized Systems Management 1-3
or MSYM 400A Occupational Safety
SCMA 331 Operations and Supply Chain Management 3
MSYM 363 / FDST 363 Heat and Mass Transfer 3
MSYM 412 Hydraulic Power Systems 3
MSYM 465 / FDST 465 Food Engineering Unit Operations 3

Processing Electives
Select 7-9 hours of the following: 7-9
AGRO 438 Producing Grain for Animal, Food and Industrial Uses
ASCI 410 Processed Meats
ENSC 220 Introduction to Energy Systems
FDST 205 Food Composition and Analysis
FDST 372 / NUTR 372 Food Safety and Sanitation
FDST 403 Food Quality Assurance
FDST 412 Cereal Technology
FDST 420 Fruit and Vegetable Technology
FDST 429 Dairy Products Technology

Credit Hours Subtotal: 31-37
Total Credit Hours 31-37

Electives
Students can select 9 credit hours of personal development electives. These electives can be used to foster greater understanding of a topic of interest, to develop an inherent skill, or to pursue a minor.

Requirements for Minor Offered by Department

12-Credit-Hour Mechanized Systems Management Minor

- A minimum of 12 credit hours of mechanized systems management course work at the 300 level or above.

18-Credit-Hour Mechanized Systems Management Minor

- A minimum of 18 credit hours of mechanized systems management course work (excluding MSYM 109 Physical Principles in Agriculture and Life Sciences and MSYM 162 Introduction to Mechanized Systems Management) with at least 9 credit hours at the 300 level or above.

MSYM 109 Physical Principles in Agriculture and Life Sciences
Prerequisites: MATH 101 or 102 or 103 or 104 or 106; or placement in MATH 102 or 104 or 106.
Notes: Students cannot receive credit for both MSYM 109 and PHYS 141 or 151.
Description: Fundamental principles of mechanics, heat, electricity, magnetism and electromagnetism and their relationship to energy utilization and conservation. Principles then applied to problem situations in agriculture and life sciences.
Credit Hours: 4
Max credits per semester: 4
Max credits per degree: 4
Format: LEC
Prerequisite for: MSYM 109L; MSYM 232; MSYM 262; MSYM 452, MSYM 852, WATS 452, AGRO 452
ACE: ACE 4 Science

MSYM 109L Physical Principles in Agriculture and Life Sciences Laboratory
Prerequisites: MSYM 109 or parallel, or PHYS 151
Description: Laboratory experiments on mechanics, heat, electricity, magnetism and electromagnetism and their relationship to energy utilization and conservation in agriculture and life sciences.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LAB

MSYM 162 Introduction to Mechanized Systems Management
Description: Basic principles of describing and evaluating mechanized systems relevant to agriculture, food, energy, and water. Problem solving using systems-thinking. Exploration of major and career opportunities. Academic success and planning.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LEC

MSYM 232 Power and Machinery Principles
Prerequisites: MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211
Description: Operational characteristics of IC engines, field, materials-handling, and processing machines and their components. Includes analyses, estimations, and objective comparisons of performance; principles for adjustment and calibration of metering systems; and cost-effective sizing of machines. Exercises include using ASABE Standards and available reports of machine performance (tractor test reports, etc.).
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

MSYM 245 Electrical Service Systems
Prerequisites: MSYM 109 or high school physics.
Description: Utilization of electric energy in agricultural production, processing, and residential applications. Wiring installations; selection of safe and adequate circuit devices; service equipment and conductors; and electric motors and their control; and energy management.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: MSYM 416

</table>
MSYM 400E Biorenewable Systems Technology
Notes: Online course offered by Iowa State University through the AG*IDEA consortium. Contact CASNR Distance Education Consortium Coordinator for course details, prerequisites and registration information.
Description: The science, engineering, economics and business of converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, economics, transportation and logistics, and marketing.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

MSYM 400J Machinery Management Using Precision Agriculture Technology
Prerequisites: Junior standing or instructor permission
Notes: Online course offered by University of Missouri through the AG*IDEA consortium. Contact CASNR Distance Education Consortium Coordinator for course details, prerequisites and registration information.
Description: Management of agricultural equipment that is commonly used in conjunction with GPS technology such as planters, combines, fertilizer application equipment, and sprayer application equipment.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

MSYM 400K Chemical Application Systems
Notes: Online course offered by Kansas State University through the AG*IDEA consortium. Contact CASNR Distance Education Consortium Coordinator for course details, prerequisites and registration information.
Description: Systems, components, operation practices, and safety procedures used in the chemical application industry. Liquid and granular application systems and respective components will be studied along with procedures for equipment sizing and maintenance, minimizing drift, system calibration, and safe handling-transportation-storage-disposal and spill clean-up of agrichemicals.
Credit Hours: 2
Max credits per semester: 2
Max credits per degree: 2
Format: LEC

MSYM 412 Hydraulic Power Systems
Prerequisites: MSYM 245
Description: Theory and application of fluids under controlled pressure to perform work in mobile and industrial applications. Positive displacement (PD) pumps, linear and rotary hydraulic actuators (hydraulic cylinders and motors), valves, and electric over hydraulic systems will be studied in detail. Fluid power circuit development on both hydraulic benches and computer simulated environments will be performed with emphasis on circuit analysis, and system troubleshooting.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Offered: SPRING

MSYM 416 Sensors and Control Systems for Agri-Industries
Prerequisites: MSYM 245 or permission.
Description: Application of sensors for measurement of process control variables and implementation of microcomputer-based measurement and control systems. Basic electrical and electronic instrumentation plus control of electrically, pneumatically and/or hydraulically powered systems.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

MSYM 431 Site-specific Crop Management
Crosslisted with: AGEN 431, AGRO 431
Prerequisites: Senior standing; AGRO/SOIL 153; AGRO 204; or permission.
Description: Principles and concepts of site-specific management. Evaluation of geographic information systems for crop production practices. Practical experience with hardware and software necessary for successful application of information affecting crop management.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

MSYM 433 Equipment and Tractor Testing
Crosslisted with: MSYM 833
Prerequisites: MSYM 232, and STAT 218 or STAT/MATH 380 or MECH 321
Notes: Offered spring semester in even-numbered calendar years.
Description: Principles and procedures involved in testing agricultural equipment and tractors. Actual test planned, scheduled, conducted and reported. Test may be based upon procedures used at the Nebraska Tractor Testing Laboratory or involve other equipment being used for research in the department.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

MSYM 435 Irrigation Systems Management
Crosslisted with: MSYM 852, WATS 452, AGRO 452
Prerequisites: MSYM 109 or PHYS 141 or PHYS 151 or PHYS 211
Notes: AGRO/SOIL 153 recommended.
Description: Irrigation management and the selection, evaluation, and improvement of irrigation systems. Includes soil-water measurement, crop water use, irrigation scheduling, irrigation efficiency, measurement of water flow, irrigation systems, groundwater and wells, pumping systems, applying chemicals with irrigation systems, and environmental and water resource considerations.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Offered: FALL
Prerequisite for: AGEN 854, MSYM 854; AGEN 955, AGRO 955, CIVE 955, GEOL 985

AGRO/SOIL 153 recommended.
MSYM 462 Equipment Systems
Crosslisted with: MSYM 862
Prerequisites: Senior standing in MYSM or permission
Notes: Capstone course.
Description: Team-based activities to evaluate equipment systems, make technical and economic recommendations, develop professional written and oral reports. Topics include equipment system performance and management, project scheduling and planning, cost estimation, reliability analysis, and risk assessment.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 10 Integrated Product

MSYM 465 Food Engineering Unit Operations
Crosslisted with: FDST 465, FDST 865, MSYM 865
Prerequisites: FDST/MSYM 363.
Description: Unit operations and their applications to food processing.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3

MSYM 469 Bio-Atmospheric Instrumentation
Crosslisted with: AGRO 469, GEOG 469, HORT 407, METR 469, NRES 469, AGRO 869, GEOG 869, HORT 807, METR 869, MSYM 869, NRES 869
Prerequisites: Junior standing; MATH 106; 4 hrs physics; physical or biological science major.
Description: Discussion and practical application of principles and practices of measuring meteorological and related variables near the earth's surface including temperature, humidity, precipitation, pressure, radiation and wind. Performance characteristics of sensors and modern data collection methods are discussed and evaluated.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

MSYM 475 Water Quality Strategy
Crosslisted with: NRES 475, NRES 875, SOCI 475, SOCI 875, SOIL 475, WATS 475, AGRO 475, AGRO 875, CIVE 475, CIVE 875, CRPL 475, CRPL 875, GEOL 475, GEOL 875, MSYM 875, POLS 475, POLS 875
Prerequisites: Senior standing.
Notes: Capstone course.
Description: Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems; for selecting strategies; and for evaluating present strategies.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

ACE: ACE 10 Integrated Product
Groups: Physical Geography

MSYM 492 Special Topics in Mechanized Systems Management
Crosslisted with: MSYM 892
Prerequisites: Permission
Description: Subject matter in emerging areas of Mechanized Systems Management not covered in other courses within the curriculum. Topics, activities, and delivery methods vary.
Credit Hours: 1-6
Min credits per semester: 1
Max credits per semester: 6
Max credits per degree: 6
Format: LEC

MSYM 496 Principles and Problems in Mechanized Agriculture
Crosslisted with: MSYM 896
Prerequisites: 15 hours in MSYM or closely related area.
Description: Individual or group projects in research, literature review, or extension of course work under the supervision and evaluation of a departmental faculty member.
Credit Hours: 1-5
Min credits per semester: 1
Max credits per semester: 5
Max credits per degree: 12
Format: IND

MSYM 499H Honors Thesis
Prerequisites: Admission to the University Honors Program and permission, AGRI 299H recommended.
Description: Conduct a scholarly research project and write a University Honors Program or undergraduate thesis.
Credit Hours: 3-6
Min credits per semester: 3
Max credits per semester: 6
Max credits per degree: 6
Format: IND

PLEASE NOTE
This document represents a sample 4-year plan for degree completion with this major. Actual course selection and sequence may vary and should be discussed individually with your college or department academic advisor. Advisors also can help you plan other experiences to enrich your undergraduate education such as internships, education abroad, undergraduate research, learning communities, and service learning and community-based learning.

Mechanized Systems Management - Business

15 HR TERM 1

College Course
complete SCIL 101

3hr

SCIL 101 becomes critical to your success in the major if not completed by the second term of enrollment.
MSYM 109 becomes critical to your success in the major if not completed by the second term of enrollment.

Mathematics
complete MATH 102

Mech Systems Mngt Core
complete AGRO 153, MSYM162

16 HR TERM 2
 Mech Systems Mngt Core
complete MSYM 245

ACE 4 Chemistry
complete CHEM 109

ACE 6/8 Economics
complete either AECN 141 or ECON 212

ACE1 Written Comm
complete 1 from ENGL 150, ENGL 151, JGEN 200

ACE 5 Humanities
complete 1 from ACE5

15 HR TERM 3
 ACE 4 Life Science
complete 2 from AGRO 131, AGRO 132, BIOS 101, BIOS 101L, LIFE 120, LIFE 120L

ACE 6/8 Economics
complete ECON 211

ACE 2 Oral Comm
complete 1 from COMM 209, COMM 286, JGEN 300

Computer-Aided Design
complete BSEN 130

Mech Systems Mngt Core
complete MSYM 232

16 HR TERM 4
 ACE 3 Statistics
complete STAT 218

ACE 7 Arts
complete 1 from ACE7

Business Option Reqts
complete ACCT 200, MATH 104

MSYM Problem Solving
complete MSYM 262

MSYM 262 becomes critical to your success in the major if not completed by the fourth term of enrollment.

Electives
recommend 1 or more courses

15 HR TERM 5
 Mech Systems Mngt Core
complete MSYM 354

Recommended to take a Professional Development Elective this term.
Mechanized Systems Management

Management Electives
complete 1 from AECN 201, AECN 316, MNGT 300, MNGT 322, MNGT 361

Mech Systems Mngt Elect
complete 1 from MSYM 342, MSYM 395, MSYM 412, MSYM 431, MSYM 452

ACE 9 Global/Human Divers
complete 1 from ACE9

Natural Science Electives
complete 1 from BIOS 103L, AGRO 215, ASCI 240, Any Astronomy Course, Any Biochemistry Course, Any Biological Science Course, Any Chemistry Course, Any Geography Course, Any Geology Course, LIFE 120, LIFE 120L, LIFE 121, LIFE 121L, Any Meteorology Course, Any Physics Course

16 HR TERM 6
Mech Systems Mngt Core
complete MSYM 364

Mech Systems Mngt Elect
complete 1 from MSYM 342, MSYM 395, MSYM 412, MSYM 431, MSYM 452

Marketing Elective
complete 1 from AECN 325, AECN 225, AECN 235, MRKT 300

Electives
recommend 1 or more courses

Recommended to take a Personal Development Elective this term.

15 HR TERM 7
Mech Systems Mngt Core
complete MSYM 416

Mech Systems Mngt Elect
complete 1 from MSYM 342, MSYM 395, MSYM 412, MSYM 431, MSYM 452

Marketing Elective
complete 1 from AECN 325, AECN 225, AECN 235, MRKT 300

Electives
recommend 1 or more courses

Recommended to take a Personal Development Elective this term.

Core Course
complete BSEN 206

BSEN 206 becomes critical to your success in the major if not completed by the seventh term of enrollment.

12 HR TERM 8
ACE 10 Capstone.
complete MSYM 462

Mech Systems Mngt Elect
complete 1 from MSYM 342, MSYM 395, MSYM 412, MSYM 431, MSYM 452

Management Electives
complete 1 from AECN 201, AECN 316, MNGT 300, MNGT 322, MNGT 361

Electives
recommend 1 or more courses
Mechanized Systems Management - Processing Operations

**Business Law Elective**
complete 1 from AECN 256, AECN 357, BLAW 300

**Graduation Requirements**
1. Performance Measure: 2.00 GPA required for graduation.
2. ***Total Credits Applying Toward 120 Total Hours***

Career Information

The following represents a sample of the internships, jobs and graduate school programs that current students and recent graduates have reported.

Jobs of Recent Graduates

- Operations Management LDP, Ardent Mills - Kenosha WI
- Operations Supervisor, Cargill - Nebraska City NE
- Production Supervisor, Land O'Lakes - Harrisburg PA
- Operations Management, Union Pacific - Lincoln NE
- Ag Services Operations Management, Archer Daniels Midland - Fremont NE
- Technical Product Support Specialist, Orthman Manufacturing - Lexington NE
- Marketing Representative - Product Support, John Deere - Waterloo IA
- Field Test Engineer, AGCO Corporation - Hesston KS
- Ag Specialist, JR Simplot Company - Scottsbluff NE
- Product Support Technician, Lindsay Manufacturing - Lindsay NE
- Agronomy/Crop Scout Intern, DuPont Pioneer -

Internships

- Ag Services Operations Intern, ADM Grain - Corpus Christi TX
- Marketing Intern, John Deere - Urbandale IA
- Operations Intern, Dow AgroSciences - York NE
- Product Support Intern, John Deere - Ottumwa IA
- Operations Intern, ConAgra Foods - Hastings MN
- Agronomy/Crop Scout Intern, DuPont Pioneer -
• Test Engineer Assistant, Global Industries - Grand Island NE
• Equipment Testing Technician, CLAAS -
• Plant Operations, Scoular - Omaha NE
• Engineering Test Lab Intern, Exmark Manufacturing - Beatrice NE

Grad Schools
• M.S. Agricultural & Biological Engineering, Purdue University - West Lafayette IN
• M.S. Mechanized Systems Management, University of Nebraska-Lincoln - Lincoln NE
• M.S. Agricultural & Biological Systems Engineering, University of Nebraska-Lincoln - Lincoln NE
• Ph.D. Engineering, Purdue University - Richmond IN
• Ph.D. Engineering, University of Nebraska-Lincoln - Lincoln NE
