New freshman students must:

- Meet University of Nebraska—Lincoln entrance requirements for new international freshman students.
- Have a MELAB score of at least 80, or a minimum TOEFL score of 550, or a computer-based score of 213, or Internet-based score of 79-80, or an IELTS of 6.5.

New transfer students must:

- Have a minimum 3.0 cumulative GPA for architecture, landscape architecture, and interior design and be in good scholastic standing.

NOTE: New transfer students must comply with new freshman student entrance requirements if they have completed less than 12 credit hours of college study.

New international transfer students must:

- Meet University of Nebraska—Lincoln entrance requirements for international transfer students.
- Have a MELAB score of at least 80, or a minimum TOEFL score of 550, or a computer-based score of 213, or Internet-based score of 79-80, or an IELTS of 6.5.
- Have a minimum 3.0 cumulative GPA and be in good scholastic standing.

Students who transfer into the College of Architecture from other colleges at UNL must:

- Have a minimum 3.0 cumulative GPA for architecture, landscape architecture, and interior design and be in good scholastic standing. Students transferring from UNO and UNK are included in the new transfer student category.

NOTE: New transfer students must comply with new freshman student entrance requirements if they have completed less than 12 credit hours of college study.

Readmission

Students who apply for readmission to the College of Architecture must have a minimum 3.0 cumulative GPA for architecture, landscape architecture and interior design, be in good scholastic standing, and receive permission from the dean of the College.

Former students who withdraw after being admitted to the College, or who have been academically suspended and wish to be readmitted must:

a) be readmitted to the College in good scholastic standing, and b) be in good scholastic standing in accordance with the program standards and receive permission from the program director. Applicants for readmission will compete for spaces available with all other admission applicants.

Advising

Academic Advising

The College of Architecture is committed to providing effective advising services to students as an essential component of their educational experience.

Students in the architecture, landscape architecture, and interior design programs are assigned to a professional academic advisor. These advisors are located in the centralized Student Success office in Architecture Hall to afford students easy access to information and to the program directors should this be necessary or desirable.

Students are encouraged to regularly consult with their advisor and are responsible for initiating advising contacts and preparing for advising sessions. Students must consult with their advisor prior to registering for classes. Failure to do so may result in removal from classes. Ultimately, students are themselves responsible for fulfilling all the requirements.
of the curriculum in which they are enrolled. The intellectual mentoring relationship between academic advisor and student is protected by confidentiality and strengthened by listening with understanding to student concerns.

The Student Success office houses student records and the staff is helpful in checking on degree requirements and University procedures and policies. The Student Success office also provides information for prospective and entering students who are seeking admission to the College of Architecture.

**Academic Programs & Policies**

**Academic Load**

Students in the bachelor of science in design (BSD) and the bachelor of landscape architecture (BLA) degree programs must be enrolled in 12 credit hours of coursework to be classified as a full-time student. Students in the master of architecture degree program must be enrolled in 9 credit hours of coursework to be classified as a full time student. Students participating in one of the program's education abroad programs enrolled in less than the credit hours specified above may also be classified as full-time students with permission of the director.

BSD and BLA students must obtain permission from the program director to enroll in more than 17 credit hours prior to the start of the semester. Students in the M.Arch program must obtain similar permission to exceed 15 credit hours.

**Employment and Course Load Guidelines**

The architecture, interior design, and landscape architecture programs are demanding disciplines requiring significant commitment to succeed. For this reason, the college has adopted a policy recommending students who are employed to not exceed the following registration guidelines:

<table>
<thead>
<tr>
<th>Work load per week</th>
<th>Course load per semester</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 hours</td>
<td>up to 18 credit hours</td>
</tr>
<tr>
<td>8-16 hours</td>
<td>13-16 credit hours</td>
</tr>
<tr>
<td>17-20 hours</td>
<td>10-12 credit hours</td>
</tr>
<tr>
<td>Full time</td>
<td>up to 6 credit hours</td>
</tr>
</tbody>
</table>

Professional students holding teaching or research assistantships are required to be enrolled as a student in the professional program and their course load cannot exceed 12 credit hours per semester. Students holding these positions are prohibited from engaging in any other form of remunerative employment without the permission of the program director.

**Course Exclusions & Restrictions**

**Military Science, Naval Science, Aerospace Studies and/or Physical Education**

A maximum combination of courses in these areas totaling 6 credit hours can be applied toward the bachelor of science in design degree as elective credit.

**Drop/Add**

The university’s drop/add policy is outlined on the Office of the University Registrar’s website (https://registrar.unl.edu). The professional program subscribes to the same rules and limitations indicated in this publication. In general, classes can only be added during the first week of the semester. You may drop a class from your schedule anytime during the first eleven weeks of the semester. After the eleventh week, withdrawal from the class is possible only for extraordinary circumstances and will be granted only by petition. Grounds for extraordinary withdrawal include: military service, medical illness, death in immediate family, personal trauma, or complete absence from all courses without officially withdrawing.

The specific deadline for dropping a class is listed on the Office of the University Registrar’s website (https://registrar.unl.edu). Students can access their MyRED (https://myred.nebraska.edu) account to drop or add classes. Please be warned, failure to attend classes does not constitute proper notification of dropping a class. If you are unable to attend classes, you need to see or telephone your instructor as soon as possible. Failure to do so may jeopardize your chances for dropping the class. If you wish to drop all your courses, you need to use the Withdrawal from the University form. See the section below for a description of this process.

The Drop/Add form is available in the Student Success office.

**Enrollment Policy**

**College of Architecture Enrollment Policy**

Enrollment in the architecture, interior design, and landscape architecture majors shall be limited by available teaching resources and space capacities, therefore an enrollment limit is established for each of these programs.

Admission to the architecture, interior design, and landscape architecture programs occurs year-round; however, access to studio courses is not guaranteed for those students admitted beyond the February 15th deadline for transfer students or March 15th deadline for freshmen.

**Probation, Appeals, and Dismissal**

Undergraduate students who are placed on probation will not be allowed to take any new architecture, design, interior design, or landscape architecture courses without the permission of the program director. Students will be allowed to retake architecture, design, interior design, and landscape architecture courses while on probation. Students may not take the same course more than three times.

Students in the undergraduate program placed on academic probation by the College for two consecutive semesters will be transferred out of the College of Architecture into the Exploratory and Pre-Professional Advising Center and must reapply for admission to the College and the architecture, landscape architecture, or interior design program. Students must have a cumulative GPA of 3.0 to be readmitted from the Exploratory and Pre-Professional Advising Center into architecture, interior design, and landscape architecture.

Students in the M.Arch program are required to maintain a 3.0 semester GPA. Students placed on probation will be allowed to continue with their classes for one semester if the cumulative GPA is 3.0 or with permission from the program director. If their next semester grade point average is below a 3.0 they are dismissed from the degree program. Students desiring to be readmitted will have to apply for admission to the professional program.

Students who register for new architecture, design, interior design, or landscape architecture courses while on probation will be administratively dropped from those courses unless they have received the permission of the program director.

**Registration Limits**

College of Architecture students are not allowed to register for 200-800 level architecture, interior design, or landscape architecture courses unless they have been admitted into the second year of their respective
professional programs. Some specific courses allow registration of non-
majors with permission of the faculty member teaching the course.

The programs have adopted limits on the number of credit hours
a student can register for without the permission of the director.
Undergraduate students in good academic standing are allowed to
register for a maximum of 17 credit hours. Students wishing to exceed
this number must secure permission from the director prior to registering
for the courses. Under no circumstances can a student register for more
than 19 hours in a semester.

Students who are on academic probation are restricted to a maximum
number of 12 credit hours. Permission to exceed 12 credit hours must
be granted by the program director. For more specific limitations for
students on academic probation, see the Probation, Appeals, and
Dismissal section above.

Student Recognition

Dean’s List
Each semester, select undergraduate students enrolled in the College
of Architecture are recognized for their scholastic accomplishments by
being named to the dean’s list. Criteria for this honor are:

1. Students must earn a semester (not cumulative) GPA of 3.75 or
   higher. Coursework must be completed by the census date of the
   grade reports.
2. Students must earn a minimum of 12 graded credit hours during that
   semester. (Pass/No Pass credit cannot be applied toward the 12
   required credit hours.)

Graduation With Distinction and With High Distinction
Students with outstanding scholastic records may earn the special honor
of graduation With Distinction or With High Distinction. One student
each graduation may be chosen to graduate With Highest Distinction.
Requirements for these honors are listed below.

Graduation With Distinction shall be awarded to students earning at least
60 credit hours in residence at the University of Nebraska–Lincoln who are
in the 90th percentile of those graduating in the prior twelve-month period or who have a minimum 3.6 cumulative GPA.

Graduation With High Distinction shall be awarded to students in the top
half of those who meet the qualifications for graduation with distinction and have a minimum 3.8 cumulative GPA.

Graduation With Highest Distinction may be awarded by selection of the
faculty to a student who meets the qualifications for graduation with high distinction and has also demonstrated outstanding professional excellence through creative work.

International Education Abroad Programs

The College of Architecture values the global context and rich
experiences of education abroad. The following opportunities may be
available on a regular basis to students.

Hannover, Germany. During the spring semester, qualified students in the
fourth year of the architecture or landscape architecture program can
elect to study in Hannover, Germany. Under an agreement with Hannover
University, students have an opportunity to complete one semester
of their requirements toward a degree at the University of Nebraska–
Lincoln.

Clermont-Ferrand, France. During the spring semester, qualified students in
the fourth year of the architecture program can elect to study in
Clermont-Ferrand, France. Under an agreement with the university,
students have an opportunity to complete one semester of their
requirements toward a degree at the University of Nebraska–Lincoln.

London, England. During each spring semester, qualified students may
elect one semester of resident studies in London, England. The program
offers students enrolled in the master of architecture, interior design (4th
year), or landscape architecture (4th year) the opportunity to study urban
and architectural design in a cross-cultural and comparative manner.
Under the direction of a faculty member in either the architecture, interior
design, or landscape architecture programs, the program is annually
accommodated by a wealth of historic and modern case materials with
cooperative assistance from educators and practicing professionals in
the London area.

Tianjin, China. During each fall semester, qualified students may elect
a semester of resident studies in Tianjin, China. The program offers
students enrolled in the master of architecture or landscape architecture
(4th year) the opportunity to study design in an urban environment with
cross-cultural influences. Under the direction of a faculty member of
either architecture or landscape architecture, the program offers students
a rich experience working with the urban design and planning office of KX
International Design and Planning.

Paris, France. During a 5-week summer session, the College of
Architecture offers a 3-credit History and Theory elective course in Paris.

Barcelona, Spain. During a 3-week pre-session, the College of
Architecture offers a 3-credit History and Theory elective course in
Barcelona.

Senior Check/Degree Audit

Graduation Requirements
During the first year, students are expected to develop a clear
understanding of degree requirements and to plan their course of study
with a College advisor. Students requiring clarification of outstanding
degree requirements should visit with their advisor promptly.

Students should access their Degree Audit via MyRED at least once each
term to review degree requirements and progress toward graduation. It
is the student’s responsibility to make sure their Degree Audit accurately
reflects their current College and program of study.

Students who believe their Degree Audit has errors or omissions should
visit with their advisor promptly. It is important that you resolve these
matters as soon as possible to avoid a delay in graduation.

Each student with MyRED access must submit an online Application for
Graduation via MyRED for each degree to be received by:

- The fourth Friday in January for May graduation
- The second Friday in June for August graduation
- The second Friday in September for December graduation

Students submitting an electronic Application for Graduation via
MyRED will be billed a $25.00 per degree fee on their student account.
Those students without MyRED access may apply for graduation in
person at Husker Hub in the Canfield Administration Building, or by
mail. Applications for graduation submitted in person or by mail must
be accompanied by a check or money order in the amount of $25.00
payable to the University of Nebraska–Lincoln. Failure to submit a timely
Application for Graduation may preclude the awarding of a degree in the
intended term.
Your Application for Graduation and required $25.00 fee are good only for the term marked on your application. Neither your application nor your fee are transferrable to another term. If you submit an Application for Graduation and pay the $25.00 fee for a specified term but do not complete your degree requirements in that term, you will need to reapply to graduate in a future term and incur another $25.00 fee.

Commencement ceremony information will be emailed to all degree applicants approximately one month before graduation. Each student who has applied for graduation must submit an online Commencement Attendance Form via MyRED, which will be available when the informational email is distributed.

Only those students who have applied for graduation, had the application accepted, and fulfilled all degree requirements as of the last day of the academic term may participate in the commencement ceremony for that term. Because the University of Nebraska–Lincoln has a commencement for each term, ceremony participation is allowed only in the term during which the student has properly and timely applied for graduation and fulfilled degree requirements.

Professional Graduation Check and Application for Degree (M.Arch)
During the last semester of the M.Arch, professional graduation checks are to be initiated by the student and reviewed by the student’s advisor. The professional graduation check forms are maintained by the advisor and filed in the students’ advising folders.

Professional students must submit an Application for Graduation, plus a $25.00 check or cash fee for each degree to be received, to the Office of the University Registrar by:

- The fourth Friday in January for May graduation
- The second Friday in June for August graduation
- The second Friday in September for December graduation

An electronic Application for Graduation and payment is available via MyRED. Failure to submit a timely Application for Graduation may preclude the awarding of a degree in the intended term.

Substitutions and Waivers
Students wishing to propose a course substitution in their curriculum of study must petition the program’s Professional Program Committee (PPC) by completing a substitution form. The substitution form should be filled out in consultation with your academic advisor. All proposals must include a detailed explanation for the substitution. The student’s advisor must review and sign the completed form before it can be submitted to the PPC. It is very important that these procedures be followed for an expeditious response to the proposal. Substitutions must be approved before enrolling in a substitute course.

Students are advised the PPC meets once a month and will not consider any substitution proposals without a completed form and explanation signed by their advisor. The process to obtain a course substitution is lengthy and cannot be accomplished at the “eleventh hour” to compensate for poor academic planning.

Copies of the substitution form are available in the Student Success office.

Independent Study
Credit hours earned through independent study need to be formally arranged with the faculty member supervising the work prior to registration for those credit hours.

This is accomplished through completion of the Independent Study Contract available in the Student Success office. It must have the signature of the faculty sponsor and be filed with the Student Success office in order to be valid.

Students are limited to a total of 9 credit hours of independent study over the course of their academic career in the professional program.

Internships

Architecture Internship
An internship program is available to students who have completed the BSD or its equivalent before or during the professional master in architecture program. Academic credits will be given (up to 6 hours) for this internship experience. Students will be required to apply for acceptance into the program and will be monitored by the program's internship coordinator.

Interior Design Internship
All students enrolled in the interior design program need to complete an approved internship as part of their professional requirements. Students are not eligible for an internship until they are enrolled in, or have completed, IDES 311 Interior Design Studio IV. Academic credits (3 hours) will be given for this internship. Students are monitored by the program’s internship coordinator.

Landscape Architecture Outside Enrichment Requirement
Students enrolled in the landscape architecture program are required to complete an outside enrichment opportunity. This opportunity must be a registered course-learning activity that is approved by the program director. The activity can fall into two broad categories, internship/co-op and study abroad. This activity can be in courses both inside and outside the design studio.

ACE Requirements
Achievement-Centered Education (ACE)
The University of Nebraska–Lincoln requires all students to receive a broad general education as part of their academic experience. This requirement translates into the obligation of all students to fulfill the requirements of the ACE program (http://ace.unl.edu).

English
Architects, landscape architects, and interior designers must be able to express themselves clearly and concisely. Routinely, architects, interior designers, and landscape architects are called upon to prepare reports, papers, or specifications in which clarity and precision are essential. For this reason, a student must meet more than the English composition course requirement. In daily oral and written work, the student must demonstrate the use of effective English. The dean may require students who fail to meet acceptable standards to do additional work in English composition or speech communication. Each instructor is expected to bring to the dean’s attention the students who need additional work.
Students are expected to take ENGL 150 Writing and Inquiry or ENGL 151 Writing and Argument and COMM 286 Business and Professional Communication.

ENGL 186 ESL/Academic Reading Skills, ENGL 187 ESL/Academic Writing Skills and ENGL 140 Advanced Academic Writing and Usage may not be used to satisfy the freshman English composition requirement.

Mathematics
All students in the College of Architecture are required to receive credit for MATH 104 Applied Calculus. Courses taken as deficiencies to qualify for MATH 104 will not apply as credit toward their degree.

College Degree Requirements
Minimum Hours Required for Graduation
Bachelor of Science in Design (BSD-Architecture) – 120 hours
Bachelor of Science in Design (BSD-Interior Design) – 120 hours
Bachelor of Landscape Architecture (BLA) – 120 hours

Grading Appeals
A student wishing to appeal a grade should contact his or her professor for clarification first before an appeal can be filed. If the dispute cannot be resolved with the instructor, it is recommended that the student meet with their advisor to get clarification on the appeals process. Appeals are only considered where it can be demonstrated that prejudice or capricious treatment influenced the grade received by the student.

Having exhausted these avenues, a student may then choose to make a formal appeal. The appeal is in the form of a written statement from the student to the program director. The director will then forward the letter to the appropriate faculty committee for review. The deadline for filing a grade appeal (which includes a written statement from the student) is 30 calendar days after the first day of classes of the next regular semester (fall or spring). Appeals filed after the deadline will not be heard.

Incomplete Grades
Incompletes for students in the professional programs are granted only for reasons outlined in the policy statement adopted by the University Senate. See the Office of the University Registrar’s website (https://registrar.unl.edu) for the complete text.

Incompletes given to students in the professional programs are granted at the discretion of the faculty awarding the grade. The faculty and student together must file an incomplete form in the Student Success office to register the anticipated completion date and the grade that will be registered if the work is not completed by that time.

Students will be allowed a maximum of two weeks to remove incompletes from courses that are prerequisites to classes in which they are currently enrolled, or they will be administratively dropped from those courses.

Scholastic Standing
The following scholastic standards have been established to maintain the level of quality for students enrolled in the architecture program:

First Year – Architecture, Landscape Architecture, and Interior Design
Students in the first year (d.ONE) are required to maintain both a semester and cumulative grade point average at or above 2.0. The College places students who fail to meet these standards on academic probation.

Second, Third, and Fourth Year – Architecture
Students in the second, third, and fourth years of the architecture program are required to maintain both a semester and cumulative grade point average of 2.6 to remain in good academic standing. The architecture program also requires that students earn a grade of C or higher in all required courses. Students who fail to meet this standard are placed on academic probation and will not be permitted to take any new architecture courses without the permission of the program director.

Second, Third, and Fourth Year – Interior Design and Landscape Architecture
Students in the second year are required to maintain both a semester and cumulative grade point average of 2.6. Students in the third and fourth year of the BSD–ID and BLA program are required to maintain a 2.6 cumulative grade point average to remain in good academic standing. The programs also require that students earn a grade of C or higher in all required courses. The programs place students who fail to meet this standard on academic probation.

Master of Architecture
Students in the M.Arch program are required to maintain a semester grade point average of 3.0 to remain in good academic standing. The program places students who fail to meet this standard on academic probation.

Grade Rules
Students must earn at least a C (2.0) in all courses with an ARCH, DSGN, IDES, or LARC prefix to earn credit toward their degree. Students will be required to retake all required core courses with a grade of C- or below, but will not be required to repeat courses that were taken as electives.

Removal of Grades C- or Below
A student receiving a grade of C- or below for an overall course grade may remove that grade by retaking the same course again and receiving a higher grade at UNL, UNO, or UNK. The higher grade will be used to compute the student’s cumulative grade point average, but all grades appear on the student’s transcript. Students who choose to retake a course at an institution outside of the University of Nebraska system may count the course toward their degree requirement, but the grade will not replace the University of Nebraska–Lincoln grade from the student’s transcript.

The Pass/No Pass option cannot be used to remove these grades from the grade point average. Please be advised that once a course is no longer taught and no longer offered by the department, it is not possible to remove a grade of C- or below through substitution or any other means.

Should a student perform poorly in multiple courses during a semester, it is possible to bankrupt the entire semester’s grades. This is a drastic action and should be pursued only after a visit with the student's advisor.

Pass/No Pass
None of the required classes in the degree programs are offered Pass/No Pass, but a maximum of 12 Pass/No Pass credit hours of humanities, social sciences, or open electives may be taken from departments outside the College of Architecture. ACE courses specified by the College of Architecture may not be taken Pass/No Pass.

Courses taken outside the architecture, landscape architecture, or interior design programs to fulfill the upper-level outside elective requirement...
at the 800 level or 900 level, with or without a 400-level counterpart, in a minor, collateral, or supporting area of work, can be taken on a Pass/No Pass basis.

Transfer Credit Rules
Transfer credit is evaluated at the College level for general coursework and at the Program level for technical, professional, and non-accredited credits.

College Evaluation of Transfer Credit
First-time students transferring to the College of Architecture from a similar accredited professional degree program will be evaluated on the basis of the current undergraduate catalog in effect at the time the student enrolls in the College of Architecture.

Confirmation procedure:
1. It is the student's responsibility to initiate this task.
2. The student procedure is to seek review of appropriate materials from the Student Success office.
3. A “portfolio review” will determine confirmation of credit. This review will be done by the appropriate faculty member or committee.

Evaluation of General Education Credits
Transfer students who have formally applied for admission will have their academic credits evaluated by the Office of the University Registrar and the College of Architecture. The College will evaluate all hours submitted on an admission application but reserves the right to reject any of these credits.

Program Evaluation of Professional Credit
All professional credits earned at another university to be applied toward the master of architecture degree must be approved by the Professional Program Committee in cooperation with the program director. At least 50 percent of the required coursework for the professional degree must be completed at the University of Nebraska–Lincoln, with the exception of those students who are applying to enter the program with a four-year degree from an accredited architecture program. No professional transfer credit will be accepted from a non-accredited architecture program.

Process
The program director will select and identify those courses that are applicable to the professional program in architecture, interior design, and landscape architecture programs. The College of Architecture will not accept courses for transfer which are below a 2.0 on a 4-point scale.

Evaluation of Technical and Non-accredited Transfer Credits
Students who desire to transfer credits from technical or non-accredited colleges must have architecture credits evaluated by the director and/or appropriate program representatives. Non-architecture credits will be evaluated by the appropriate university department.

Evaluation of Graphics, Design, and Production Drawing Credit
Transfer credit for graphics, basic and architectural, landscape architecture, and/or interior design work and production drawings will not be granted until the student’s work has been reviewed by the architecture, landscape architecture, or interior design program director. Allowable transfer credit in the design, production drawings, and graphics areas, whether the grades presented are C, B, or A, will be determined from this review and the student placed accordingly.

Clarification and Appeal
The student who has questions about or wishes to appeal the initial College evaluation of his or her transfer credit should contact the program office. If the evaluation is not satisfactorily resolved, the student has the right to register an appeal with the Student Affairs Committee of the architecture, landscape architecture, or interior design programs.

Other College Degree Requirements

Off-Campus Programs
The College of Architecture recognizes the need for some students to pursue their first-year design studies at other institutions. One semester (15 credit hours) of off-campus study should cause minimal delay in students' educational timetables if courses can be selected from the following list and are approved by the College of Architecture. Students are encouraged to coordinate their off-campus architecture, landscape architecture, and interior design programs with the College of Architecture.

Recommended Courses
- Calculus (3 hrs)
- English Composition elective (3 hrs)
- Humanities and Social Sciences electives (9 hrs) See University of Nebraska—Lincoln ACE requirements.
- Calculus-based Physics (4 hrs) for architecture or Introduction to Horticulture (3 hrs) for landscape architecture
- Speech (3 hrs)

Degrees & Majors

Organization and Degrees
The College of Architecture consists of four academic programs: architecture, interior design, landscape architecture, and community and regional planning. Architecture, interior design, and landscape architecture all begin with a one-year foundational program (d.ONE). In architecture, the first year is followed by a three-year program in which students earn a bachelor of science in design (BSD) degree and then a two-year professional master of architecture (M.Arch) degree. For the landscape architecture program, the first year is followed by three years in which students earn a professional bachelor of landscape architecture (BLA) degree. Similarly, after the first year, the interior design program is three years and culminates in the professional BSD degree. The community and regional planning program is exclusively a graduate degree program and is addressed in the Graduate Catalog.

Both architecture and interior design have post-professional MS research degrees.

Nonprofessional Master of Science Degree
The master of science (MS) degree is a scholarly, research-based curriculum and not an accredited professional degree. For more information, please see the University of Nebraska–Lincoln Graduate and Professional Catalog.

Community and Regional Planning
The community and regional planning program offers the two-year professional master of community and regional planning degree, which is fully accredited by the Planning Accreditation Board (PAB). In addition, a minor in community and regional planning is available to all students.

Minors & Areas of Specializations Offered
Architectural Studies Minor (https://catalog.unl.edu/undergraduate/architecture/architectural-studies-minor/#minortext)

Departmental Contact: Stephanie Kuenning (skuenning2@unl.edu)
The architectural studies minor provides students an opportunity to learn about architecture and architectural history and a pathway to achieve designation for that focused learning.

The minor is available to all University of Nebraska–Lincoln undergraduate students.

Community and Regional Planning Minor (https://catalog.unl.edu/undergraduate/architecture/community-regional-planning-minor/#minortext)

Departmental Contact: Gordon Scholz (gscholz1@unl.edu), 304 Architecture Hall

Community and regional planning is an interdisciplinary field that influences a broad range of future-oriented decision making. A minor in community and regional planning will be useful for students who wish to pursue careers related to planning or who wish to understand the importance and impact of planning issues on communities, rural areas, and urban settings as they relate to health, growth, and quality of life. This is particularly relevant to those who pursue service on a City Council, Planning Board, or other aspects of being an active citizen in today's world.

Majors that are related to planning include architecture, landscape architecture, anthropology, economics, environmental studies, ethnic studies, geography, geology, Great Plains studies, political science, and sociology, among others. Many professional positions in public, private, and nonprofit organizations involve knowledge and skills in community and regional planning.

The University of Nebraska–Lincoln offers the master of community and regional planning (MCRP) degree program, which prepares students for professional planning practice in public and private sectors, as well as preparation for positions related to community growth implications such as economic development. Requirements for the MCRP degree program are detailed in the Graduate and Professional Catalog. Completion of CRPL 400 Introduction to Planning in the minor fulfills the course content requirement of CRPL 800 Introduction to Planning for the MCRP degree; however, students pursuing the MCRP degree must still complete 48 credit hours at the graduate level.

The minor is available to all University of Nebraska–Lincoln undergraduate students.

Landscape Architecture Minor (https://catalog.unl.edu/undergraduate/architecture/landscape/#minortext)

Departmental Contact: Mark Hoistad (mhoistad1@unl.edu)

The minor in landscape architecture is designed to provide a basic understanding of the issues and opportunities the profession of landscape architecture faces. Knowledge of landscape architecture history, theory, and context provides a useful addition to a student in any of the University disciplines.

The minor is open to all University of Nebraska–Lincoln students.

Product Design Minor (https://catalog.unl.edu/undergraduate/architecture/product-design-minor)

Department Contact: Lindsey Bahe (bahe@unl.edu)

The common core of courses shared by students in the College of Architecture (architecture, interior design, landscape architecture) provides students with an understanding of the design and fabrication process at a range of scales. The minor in product design provides an opportunity to explore design at a smaller, yet related scale. It allows students to develop academic strengths that will prepare them for advanced study and careers in the design of objects that people interact with on a personal level, of a size and function related to human dimensions. This includes furniture and a variety of manufactured objects.

The minor is available to students in architecture, interior design, landscape architecture, and art.

Graduate Student Information

Graduate and Professional Teaching and Research Assistantships

The College of Architecture has several teaching and research assistantships available each year. Students accepted into the M.Arch, MS, and MCRP programs or those who are in the process of making application are encouraged to apply for these assistantships. A brief letter of interest and qualifications plus completed graduate assistantship recommendation forms (which are available in the Student Success office) should be returned to the Student Success office before February 1 of each year for consideration for the fall semester and November 15 for the spring semester.

Course Hold for Professional Credit

Seniors who have obtained in advance the approval of the architecture program director may receive up to 12 hours credit towards their M.Arch degree prior to the completion of their BSD degree, provided the following conditions are met:

• They are above the courses required for their BSD degree.
• They are taken under the 500 number.
• They are taken in the calendar year prior to the receipt of the BSD.

Catalog Rule

Degree Time Limits

Students will be required to complete coursework for their degree within a ten-year period from the time they are admitted into the second year of their professional program.

Other

Ownership of Class Work

Students grant the College of Architecture and the University of Nebraska a royalty-free right to publish work produced as part of a course.

 Significant student work will be retained on file by the program each semester as a necessary record for accrediting purposes and periodic display. Other student work must be retrieved by the student no later than seven working days past the end of the semester.

The College of Architecture is not responsible for storing or returning student work. It is the student's responsibility to remove all items from studio spaces no later than seven working days past the end of each semester. In addition, it is the student's responsibility to remove all materials from lockers. All padlocks left on lockers will be cut and the materials in the lockers confiscated after completion of spring semester.
