COMBINED DEGREE PROGRAMS

Description

Students who want to combine their undergraduate degree courses in the College of Arts and Sciences with a professional program in one of the following: law, medicine, dentistry, or pharmacy, may follow a combined program that, if they are accepted to a professional program after three years (minimum 90 hours), leads to the bachelor’s degree at the end of four years and the professional degree at the completion of the professional program.

The first year’s coursework in law, medicine, dentistry, or pharmacy is accepted by the College of Arts and Sciences as the equivalent of the fourth year of work for the bachelor’s degree, if the student has completed three years of college work before entering the professional program. In these three years of college work, minimum 90 hours, the student must also complete 30 hours in residence, fulfill all general education requirements (Achievement-Centered Education [ACE] and College Distribution Requirements [CDR]), and complete a major or at least one Plan A or two Plan B minors. Some professional programs require a full major to be completed before starting the professional program. For a BS degree, students must also complete the 60-hour scientific base, which is comprised of science and math courses within the College of Arts and Sciences.

Law

Pre-Law students who demonstrate exceptional academic ability in three years of undergraduate study may utilize the Combined Degree to pursue 3+3 law programs. This involves planning ahead to complete all the necessary undergraduate components required by their intended law school while remaining declared in a traditional degree plan of 120 undergraduate hours. Typically, an application for early admission to law school using a 3+3 format will require verification from the student’s undergraduate degree-granting college stating that successful completion of the first year of law school will fulfill all remaining requirements for graduation. The Sr. Director for Advising and Student Success in the College of Arts and Sciences is the contact for students considering the Combined Degree and can provide a letter, upon request, once all other criteria are met. However, the Combined Degree program will not become official until after a documented acceptance by the law school. If accepted, the undergraduate degree would be awarded after the first year of law school. All processes and deadlines for application to graduate must be followed. If a student is not admitted early to the law school, they may finish out their full undergraduate degree plan and should talk with their assigned advisor as soon as possible to determine the best use of the remaining 30 hours.

Medicine, Dentistry, Pharmacy

For combined degree programs in medicine, dentistry, and pharmacy, outside of application requirements determined by the professional school program, verification may not be required by the College of Arts and Sciences. However, students who know they would like to claim an undergraduate degree in the future are strongly encouraged to work closely with the Sr. Director of Advising and Student Success in the College of Arts and Sciences to be sure all requirements are met prior to matriculating to the professional program and to understand the time frame limitations on catalog year.

College Admission

The entrance requirements for the College of Arts and Sciences (CAS), including any of the majors or minors offered through the college, are the same as the University of Nebraska–Lincoln General Admission Requirements. In addition to these requirements, the College of Arts and Sciences strongly recommends a third and fourth year of one foreign language in high school. Four years of high school coursework in the same language will fulfill the College of Arts and Sciences’ language requirement. It will also allow students to continue language study at a more advanced level at the University of Nebraska–Lincoln and provide more opportunity to study abroad.

ACADEMIC AND CAREER Advising

Academic and Career Advising Center

The Academic and Career Advising Center in 107 Oldfather Hall is the undergraduate hub for CAS students in all majors. Centrally located and easily accessed, students encounter friendly, knowledgeable people who are eager to help. Students visit the Advising Center in 107 Oldfather Hall to:

- Choose or change their major, minor, or degree program.
- Check in on policies, procedures, and deadlines.
- Get a college approval signature from the Dean’s representative, Sr. Director of Advising and Student Success.

While the assigned academic advisor should be the student’s primary contact, there are daily walk-ins from 12-3 where a general academic advisor can answer a quick question. In addition, the CAS Career Coaches are located here. They help students explore majors and minors, gain experience, and develop a plan for life after graduation. Not sure where to go or who to ask? The Advising Center team can help.

Assigned Academic Advisors

Academic advisors are critical resources dedicated to students’ academic, personal, and professional success. Every CAS student is assigned an academic advisor based on their primary major. Since most CAS students have more than just a single major, it is important to get to know the advisor for any minors or additional majors. Academic advisors work closely with the faculty to provide the best overall support and discipline-specific expertise.

Assigned advisors are listed in MyRED (https://its.unl.edu/myunl/) and their offices may be located in or near the department of the major for which they advise or in the Academic and Career Advising Center. Students who have declared a pre-health or pre-law area of interest will also work with advisors in the Exploratory and Pre-Professional Advising Center (Explore Center) in 127 Love South, who are specially trained to guide students preparing to enter a professional school.

For complete and current information on advisors for majors, minors, or pre-professional areas, contact the Arts and Sciences Academic and Career Advising Center, 107 Oldfather Hall, 402-472-4190, http://cas.unl.edu/advising (http://cas.unl.edu/advising/).

Career Coaching

The College believes that Academics + Experience = Opportunities and encourages students to complement their academic preparation with real-world experience, including internships, research, education abroad,
service, and leadership. Arts and sciences students have access to a powerful network of faculty, staff, and advisors dedicated to providing information and support for their goals of meaningful employment or advanced education. Arts and sciences graduates have unlimited career possibilities and carry with them important career competencies—communication, critical thinking, creativity, context, and collaboration. They have the skills and adaptability that employers universally value. Graduates are not only prepared to effectively contribute professionally in the real world, but they have a solid foundation to excel in an increasingly global, technological, and interdisciplinary world.

Students should contact the career coaches in the Arts and Sciences Academic and Career Advising Center in 107 Oldfather, or their assigned advisor, for more information. The CAS career coaches help students explore career options, identify ways to build experience, and prepare to apply for internships, jobs, or graduate school, including help with resumes, applications, and interviewing.

**ACE Requirements**

Students must complete one course for each of the ACE Student Learning Outcomes below. Certified course choices are published in the degree audit, or visit the ACE website (http://ace.unl.edu) for the most current list of certified courses.

### ACE Student Learning Outcomes

**ACE 1:** Write texts, in various forms, with an identified purpose, that respond to specific audience needs, integrate research or known knowledge, and use applicable documentation and appropriate conventions of format and structure.

**ACE 2:** Demonstrate competence in communication skills.

**ACE 3:** Use mathematical, computational, statistical, logical, or other formal reasoning to solve problems, draw inferences, justify conclusions, and determine reasonableness.

**ACE 4:** Use scientific methods and knowledge to pose questions, frame hypotheses, interpret data, and evaluate whether conclusions about the natural and physical world are reasonable.

**ACE 5:** Use knowledge, historical perspectives, analysis, interpretation, critical evaluation, and the standards of evidence appropriate to the humanities to address problems and issues.

**ACE 6:** Use knowledge, theories, and research perspectives such as statistical methods or observational accounts appropriate to the social sciences to understand and evaluate social systems or human behaviors.

**ACE 7:** Use knowledge, theories, or methods appropriate to the arts to understand their context and significance.

**ACE 8:** Use knowledge, theories, and analysis to explain ethical principles and their importance in society.

**ACE 9:** Exhibit global awareness or knowledge of human diversity through analysis of an issue.

**ACE 10:** Generate a creative or scholarly product that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation, and reflection.

### College Degree Requirements

#### College Distribution Requirements

**College Distribution Requirements – BA and BS**

The College of Arts and Sciences distribution requirements are common to both the bachelor of arts and bachelor of science degrees and are designed to ensure a range of courses. By engaging in study in several different areas within the College, students develop the ability to learn in a variety of ways and apply their knowledge from a variety of perspectives. All requirements are in addition to University ACE requirements, and no course can be used to fulfill both an ACE outcome and a College Distribution Requirement.

- A student may not use a single course to satisfy more than one College Distribution Requirement, with the exception of CDR Diversity. Courses used to meet CDR Diversity may also meet CDR Writing, CDR Humanities, or CDR Social Science.
- Independent study or reading courses and internships cannot be used to satisfy distribution requirements.
- Courses from interdisciplinary programs will be applied in the same area as courses from the home/cross-listed department.

#### College Distribution Requirements

<table>
<thead>
<tr>
<th>CDR: Written Communication</th>
<th>3</th>
</tr>
</thead>
</table>

Select from courses approved for ACE outcome 1.

<table>
<thead>
<tr>
<th>CDR: Natural, Physical, and Mathematical Sciences with Lab</th>
<th>4</th>
</tr>
</thead>
</table>

Select from biochemistry, biological sciences, chemistry, computer science, geology, meteorology, mathematics, and physics. Must include one lab in the natural or physical sciences. Lab courses may be selected from biochemistry, biological sciences, chemistry, geology, meteorology, and physics.

Some courses from geography and anthropology may also be used to satisfy the lab requirement above.¹

<table>
<thead>
<tr>
<th>CDR: Humanities</th>
<th>3</th>
</tr>
</thead>
</table>

Select from classics, English, history, modern languages and literatures, philosophy, and religious studies.²

<table>
<thead>
<tr>
<th>CDR: Social Science</th>
<th>3</th>
</tr>
</thead>
</table>

Select from anthropology, communication studies, geography, political science, psychology, or sociology.³

<table>
<thead>
<tr>
<th>CDR: Human Diversity in U.S. Communities</th>
<th>0-3</th>
</tr>
</thead>
</table>

Select from a set of approved courses as listed in the degree audit.

<table>
<thead>
<tr>
<th>CDR: Language</th>
<th>0-16</th>
</tr>
</thead>
</table>

Fulfilled by the completion of the 6-credit-hour second-year sequence in a single foreign language in one of the following departments: Classics and religious studies or modern languages and literatures. Instruction is currently available in Arabic, Chinese, Czech, French, German, Greek, Japanese, Latin, Russian, and Spanish.

A student who has completed the fourth-year level of one foreign language in high school is exempt from the languages requirement, but encouraged to continue on in their language study.

**Credit Hours Subtotal:** 13-32

¹ See Degree Audit or a College of Arts and Sciences advisor for approved geography and anthropology courses that apply as natural science.

² Language courses numbered 220 and below do not fulfill the CDR Humanities.
The College of Arts and Sciences adheres to the University regulations for the Pass/No Pass (P/N) privilege with the following additional regulations:

- Pass/No Pass hours can count toward fulfillment of University ACE requirements and college distribution requirements up to the 24-hour maximum.
- Most arts and sciences departments and programs do not allow courses graded Pass/No Pass to apply to the major or minor. Students should refer to the department’s or program’s section of the catalog for clarification. By college rule, departments can allow up to 6 hours of Pass/No Pass in the major or minor.

A student who feels that he/she has been unfairly graded must ordinarily take the following sequential steps in a timely manner, usually by initiating the appeal in the semester following the awarding of the grade:

1. Talk with the instructor concerned. Most problems are resolved at this point.
2. Talk to the instructor’s department chairperson.
3. Take the case to the Grading Appeal Committee of the department concerned. The Committee should be contacted through the department chairperson.
4. Take the case to the College Grading Appeals Committee by contacting the Dean’s Office, 1223 Oldfather Hall.

Thirty (30) of the 120 semester hours of credit must be in courses numbered at the 300 or 400 level. Of those 30 hours, 15 hours (1/2) must be completed in residence at the University of Nebraska–Lincoln.

Students must complete the residency requirement only if students register through the University of Nebraska–Lincoln.

Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted to and enrolled as a degree-seeking student at the University of Nebraska–Lincoln. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at the University of Nebraska–Lincoln in the College of Arts and Sciences. Students must complete all degree requirements from a single catalog year. Beginning in 1990-1991, the catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.
