CONSTRUCTION MANAGEMENT (CNST)

CNST 112 Construction Communications
Description: Development of construction industry communication skills including the ability to read contract documents. Complete comprehension of working drawings, technical terminology including graphic symbols and abbreviations. Fundamentals of drafting principles, sketching, and dimensioning techniques.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: CNST 225; CNST 241; CNST 251; CNST 252

CNST 131 Introduction to the Construction Industry
Description: Introduction to basic management principles and practices used in the control of manpower, materials, machinery and money in the construction of the built environment.
Credit Hours: 1
Max credits per semester: 1
Max credits per degree: 1
Format: LEC
Prerequisite for: CNST 251

CNST 225 Introduction to Building Information Modeling (BIM)
Prerequisites: CNST 112, CNST 251
Description: An introduction to the fundamentals of Building Information Modeling (BIM), establishing a solid foundation for further study in this area. BIM concepts and Modeling Techniques, and the use of the Revit Architecture platform to create detailed 3D models of construction projects will be explored.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: CNST 440

CNST 241 Construction Methods and Equipment I
Prerequisites: CNST 112, GEOL 101 and MATH 106.
Notes: Parallel registration in CNST 251 and CNST 252 is recommended.
Description: Introduction to earthmoving equipment and methods used in the U.S. construction industry. Labor, productivity, and economic aspects of site, excavation, and foundation work utilizing various mixes of manpower and machinery.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Offered: FALL
Prerequisite for: CNST 242

CNST 242 Construction Equipment and Methods II
Prerequisites: CNST 241
Notes: A continuation of CNST 241.
Description: The structure from grade to topping out. Functions and applications of material handling equipment from simple pulleys to large cranes. Methods of constructing concrete formwork in a variety of applications. Assembly and erection of steel, wood, precast concrete, and masonry structural elements. Material finishing methods and equipment.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: CNST 378, CONE 378

CNST 251 Construction Materials and Specifications
Prerequisites: CNST 112 and CNST 131
Description: Introduction to construction materials. Physical, mechanical, and aesthetic properties of soils, concrete, masonry, metals, plastics, and other materials as they relate to in-service conditions and acceptability either individually or in combination with other materials. Proper methods of specifying to achieve design and construction goals, construction safety and inspection, and to meet zoning codes and environmental requirements.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: CIVE 252; CNST 225

CNST 252 Construction Materials and Testing
Prerequisites: CNST 112 and MATH 106
Notes: Parallel registration in CNST 241 is recommended. Laboratory testing procedures emphasizing testing of aggregates, soil, and concrete.
Description: Introduction to basic materials used in construction. Laboratory testing and evaluation of material properties. Inspection and quality control of construction materials. Material variation, testing procedures and characteristics of material types including aggregates.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

CNST 305 Building Environmental Technical Systems I
Crosslisted with: ARCH 333
Prerequisites: PHYS 151.
Description: Characteristics and performance of buildings with respect to thermal and psychrometric environment in buildings related to human comfort, heat gain/heat loss, ventilation, natural energy systems and sustainable design principles, and plumbing and life safety systems in the Built environment.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: ARCH 430, ARCH 430H; CNST 405

</table>
**CNST 425 Alternative Project Delivery Methods**
**Crosslisted with:** CNST 825  
**Prerequisites:** Senior or graduate standing  
**Description:** Historical and current project delivery methods (PDM) are explored. Procurement strategies, contractual arrangements, and compensation methods are also discussed in conjunction with risks, costs, and legal and ethical issues that need to be considered when determining which system is best for a particular project.  
**Credit Hours:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC  
**Offered:** SPRING

**CNST 434 The Design/Build Project Delivery System**
**Crosslisted with:** CNST 834  
**Prerequisites:** CNST 379.  
**Description:** The organizational, managerial, ethical and legal principles involved in design/build as a construction project delivery system. Advantages and disadvantages, growth, merits, and criticism of the design-build system.  
**Credit Hours:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC  
**Offered:** FALL

**CNST 436 Intent and Application of International Building Code**
**Crosslisted with:** CNST 836  
**Prerequisites:** CNST 112 and CNST 251  
**Description:** This course is designed to provide a fundamental understanding of how to research, interpret and apply building code requirements to the design and construction of both new and renovated structures.  
**Credit Hours:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC

**CNST 440 Building Information Modeling (BIM) II**
**Prerequisites:** CNST 225, CNST 378  
**Description:** Advanced topics in building information modeling, including structural and MEP modeling, 4/5 dimensional construction animations and visualization. Good knowledge of Revit Architectural Modeling and knowledge of construction estimating and scheduling is required before registering in this class.  
**Credit Hours:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC

**CNST 444 Construction Site Safety Management**
**Crosslisted with:** CNST 844  
**Prerequisites:** CNST 242  
**Notes:** Satisfactory completion will partially qualify the individual to be designated by their employer as a construction site "competent person" by successfully completing the OSHA 30-hour Construction Safety Card as well as additional certifications in basic first aid, CPR, and AED.  
**Description:** Provides introductory construction site safety management for project engineers, project managers, safety teams, and company safety officers. Addresses basic accident and injury models, human accident costs, safety behavior, ethical issues in safety, workers' compensation and EMR, job safety analysis (JSA), project site safety audits, safety promotion and training, emergency planning and response, safety management programs and training, and OSHA record-keeping and reporting.  
**Credit Hours:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC  
**Offered:** FALL

**CNST 476 Project Budgets and Controls**
**Crosslisted with:** CONE 476  
**Prerequisites:** CONE/CNST 378; ISMG 2060 (UNO).  
**Description:** The basic systems related to revenues and expenses associated with record keeping of construction contracts. Managerial accounting related to planning and control of construction projects.  
**Credit Hours:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC

**CNST 480 Productivity and Human Factors in Construction**
**Prerequisites:** Senior standing, CNST 378, and MNGT 300.  
**Notes:** This course is a prerequisite for or must be taken parallel with CNST 489.  
**Description:** Motivation and productivity improvement methods in the management of construction workers in their typical job environments. Methods to improve working environments in the field and in the office. Procedures and mechanisms to implement human behavior and ergonomics concepts for enhanced productivity and safety.  
**Credit Hours:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC  
**Prerequisite for:** CNST 489

**CNST 482 Heavy and/or Civil Construction**
**Crosslisted with:** CNST 882, CONE 482, CONE 882  
**Prerequisites:** Senior or Graduate standing in ARCH, AREN, CIVE, CNST, or CONE.  
**Description:** Application of management principles to the construction of heavy and/or civil projects. History, theory, and methods of planning and constructing heavy and/or civil projects. Emerging equipment and new equipment capabilities. Economical use of equipment and managing costs associated with production.  
**Credit Hours:** 3  
**Max credits per semester:** 3  
**Max credits per degree:** 3  
**Format:** LEC
CNST 485 Construction Planning, Scheduling, and Controls
Crosslisted with: CONE 485, CNST 885, CONE 885
Prerequisites: CNST 378; CNST 2250 (UNO)
Description: Planning and scheduling a construction project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, network construction, time estimates, critical path, float time, crash programs, scheduling, and monitoring project activities.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
Prerequisite for: CNST 489

CNST 486 Construction Management Systems
Crosslisted with: CNST 886
Prerequisites: CNST 379
Description: Application of selected topics in systems analysis (operations research) to construction management. Simulation, mathematical optimization, queuing theory, Markov decision processes, econometric modeling, neural networks, data envelopment analysis, decision analysis and analytic hierarchy processes as used in the construction industry.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

CNST 488 Residential Construction and Real Estate
Crosslisted with: CNST 888
Prerequisites: CNST 379
Description: Application of various strategies to real estate development including community and residential design, planning, site selection, land development, marketing and customer service. Methods used by construction companies to analyze, bid, and market their developments to customers through the pre-construction and bidding process.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC

CNST 489 Senior Construction Project
Prerequisites: CNST 379, CNST 420, CNST 476, CNST 485. CNST 480 must be completed as a prerequisite or taken parallel.
Notes: Capstone course.
Description: Execution of a construction project involving conceptual design and location, estimating, bidding, site layout, construction organization, planning and scheduling, cost control, records management, and project completion and documentation.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LEC
ACE: ACE 10 Integrated Product

CNST 493 Internship Workshop
Crosslisted with: CNST 893, CONE 493
Prerequisites: Permission of instructor, Letter of application, Letter of agreement from industry mentor
Notes: Permission of instructor, Letter of application, Letter of agreement from industry mentor
Description: Participation in a full-time summer internship associated with a Construction related entity. Includes weekly assignments and a final presentation designed to foster interactions associated with the business side of the entity between the Construction entity and the intern. General topics include Time Management and Scheduling Work, Business Plans and Structures, Finance and Budgets, Marketing Plans, Contracts, Risk Analysis and Management, Personnel Management, Communication and Leadership.
Credit Hours: 3
Max credits per semester: 3
Max credits per degree: 3
Format: LAB
Offered: SUMMER

CNST 498 Special Topics in Construction Management
Crosslisted with: CNST 898
Prerequisites: Permission.
Notes: A signed student-instructor learning contract is required.
Description: Individual or small group investigation of topics in construction management.
Credit Hours: 1-6
Min credits per semester: 1
Max credits per semester: 6
Max credits per degree: 6
Format: LEC
