ENVIRONMENTAL ENGINEERING MINOR

Description
This minor is for engineering majors ONLY.

The environmental engineering minor provides students an opportunity to demonstrate a concentration of courses in environmental engineering. Environmental engineering is a branch of civil engineering focused on the application of engineering principles for protection of human health from adverse environmental factors, protection of the environment, and improvement of environmental quality. Environmental engineering encompasses topics including wastewater treatment, water treatment, air pollution control, ground and surface water resources, environmental chemistry, environmental biotechnology, and solid and hazardous waste management.

College Requirements

College Admission

College Entrance Requirements

Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics.
7. Students having an ACT score of 19 or less in English (or equivalent SAT score) must take ENGL 150 Writing and Inquiry or ENGL 151 Writing and Argument.

A total of 16 units is required for admission.

Students must have an ACT (enhanced) score of 24 or greater (or equivalent SAT). Students who lack entrance requirements may be admitted based on ACT scores, high school rank and credits, or may be admitted to pre-engineering status in the Exploratory and Pre-Professional Advising Center. Pre-engineering students are advised within the Exploratory and Pre-Professional Advising Center.

Students for whom English is not their language of nurture must meet the minimum English proficiency requirements of the University.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska–Lincoln Office of On-line and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Exploratory and Pre-Professional Advising Center or other Colleges at Nebraska.

Students should consult their advisor, their department chair, or Engineering Student Services if they have questions on current policies.

Other Admission Requirements

Students who transfer to the University of Nebraska–Lincoln from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE freshman entrance requirements and have a minimum cumulative GPA of 2.5 and be calculus-ready. Students not meeting either of these requirements must enroll in the Exploratory Center or another University college until they meet COE admission requirements. Students transferring from UNQ, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska–Lincoln accepts D grades from the University of Nebraska at Kearney and at Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

All transfer students must adopt the curricular requirements of the undergraduate catalog current at the time of transfer to the COE—not that in use when they entered the University of Nebraska–Lincoln. Upon admission to Nebraska, students wishing to pursue degree programs in the COE will be classified and subject to the policies defined in the subsequent section.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 in order to be readmitted to COE.

College Degree Requirements

Grade Rules

Grade Appeals

In the event of a dispute involving any college policies or grades, the student should appeal to his/her instructor and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, the student may appeal his/her case through the College Academic Appeals Committee on his/her campus.

Catalog Rule

Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted at the University of Nebraska–Lincoln. Students transferring from UNQ, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

Environmental Engineering Minor

CIVE 425 / BSEN 425  
Process Design in Water Supply and Wastewater Treatment  3

Electives I
Select one or two of the following:  3-6
CIVE 419  Flow Systems Design
CIVE 424  Solid Waste Management Engineering
CHME 489  Air Pollution, Assessment and Control

Electives II
Select one or two of the following:  3-6
CIVE 421  Hazardous Waste Management and Treatment
CIVE 422  Pollution Prevention: Principles and Practices
CIVE 426  Design of Water Treatment Facilities
CIVE 427  Design of Wastewater Treatment and Disposal Facilities
CIVE 430  Fundamentals of Water Quality Modeling
CIVE 431  Small Treatment Systems
CIVE 452  Water Resources Development
CIVE 454  Hydraulic Engineering
CIVE 455 / BSEN 455  Nonpoint Source Pollution Control Engineering
CIVE 458 / BSEN 458  Groundwater Engineering
CHME 323  Chemical Engineering Thermodynamics and Kinetics
BSEN 244  Thermodynamics of Living Systems
BSEN 441  Animal Waste Management
BSEN 468  Wetlands

Credit Hours Subtotal:  18
Total Credit Hours  18

Grade Rules

C- and D Grades
All courses must be completed with a grade of D- or higher.

Pass/No Pass Limits
No course taken Pass/No Pass will be counted toward the minor.
